

# Contents

<b>1</b>	<b>Introduction.....</b>	<b>1</b>
1.1	Introduction .....	1
1.2	Human-Computer Interaction.....	2
1.3	Usability .....	3
1.4	Sustainability .....	5
1.5	Sustainable Design .....	7
1.6	Methodology.....	9
1.7	The Initial Sustainable Step in the New Participative Methodology for Sustainable Design .....	9
1.8	Outline of the Book .....	12
1.9	Conclusion .....	15
	References.....	15
<b>2</b>	<b>Usability and Human Computer Interaction (HCI).....</b>	<b>19</b>
2.1	Introduction .....	19
2.2	User-Centered System Design.....	20
2.3	Human Computer Interaction (HCI) .....	20
2.3.1	What Is HCI? .....	22
2.3.2	HCI as Process .....	22
2.3.3	Relationship Between the HCI and Human Dialogue .....	23
2.3.4	Goals of HCI .....	24
2.3.5	Purpose of HCI .....	25
2.3.6	Interaction and Interactivity .....	25
2.3.7	Factors in HCI Design .....	27
2.4	What Is USABILITY?.....	29
2.4.1	Concepts of Usability.....	30
2.4.2	Usability Criteria.....	33
2.4.3	Usability Specifications .....	33
2.5	Conclusion .....	35
	References.....	35

<b>3</b>	<b>User Participation in the System Development Process .....</b>	<b>37</b>
3.1	Introduction .....	37
3.2	What Is Participation? .....	37
3.2.1	Change Processes .....	40
3.2.2	Managing User Participation in Development Processes .....	42
3.2.3	How to Participate? .....	43
3.2.4	Some Problems with the Participative Approach .....	46
3.3	How We Know Our Users .....	47
3.3.1	User Characteristics .....	47
3.3.2	Knowledge of User Tasks .....	49
3.3.3	Recruiting Users .....	50
3.3.4	Techniques for Observing and Listening to Users .....	51
3.3.5	Internet Marketing and User Responses .....	54
3.4	Conclusion .....	55
	References .....	56
<b>4</b>	<b>Physical, Cognitive and Affective Engineering .....</b>	<b>59</b>
4.1	Introduction .....	59
4.2	Physical Engineering .....	59
4.3	Cognitive Engineering .....	62
4.4	GOMS (Goals, Operators, Methods, and Selection Rules) .....	64
4.5	Norman's Model .....	65
4.6	Affective Engineering .....	65
4.7	Conclusion .....	68
	References .....	68
<b>5</b>	<b>Color, Prototyping and Navigation, Principles and Guidelines Design, Evaluation and Testing; Task Analysis .....</b>	<b>71</b>
5.1	Introduction .....	71
5.2	Color .....	71
5.3	Navigation .....	74
5.4	Prototyping .....	76
5.5	Guidelines and Principles Design .....	77
5.6	Evaluation and Testing .....	79
5.6.1	What is Evaluation? .....	79
5.6.2	Why Evaluate? .....	80
5.6.3	When to Evaluate? .....	80
5.6.4	Methods and Means of Evaluation .....	80
5.7	Task Analysis .....	81
5.7.1	Goals, Tasks, and Actions .....	82
5.7.2	Techniques for Identifying Types and Granularity of Tasks .....	82
5.8	Conclusion .....	84
	References .....	84

<b>6 Models and Methodologies</b>	87
6.1 Introduction	87
6.2 Lifecycle Models	88
6.2.1 The Waterfall Lifecycle Model	89
6.2.2 The Spiral Lifecycle Model	90
6.2.3 Rapid Application Development (RAD)	91
6.2.4 Systems Development Life Cycle	93
6.2.5 The Star Lifecycle Model	93
6.2.6 The Usability Engineering Lifecycle	93
6.2.7 Summary of Lifecycle Models	94
6.3 Information Systems Development Methodologies	95
6.3.1 Structured Systems Analysis and Design Methodology (SSADM)	96
6.3.2 Soft Systems Methodology (SSM)	97
6.3.3 User: Centered Development Methodology	101
6.3.4 ETHICS Methodology	103
6.3.5 Summary of Information Systems Development Methodologies	105
6.4 Methodologies for Developing Web Sites	108
6.4.1 Human Factors Methodology for Designing Web Sites	108
6.4.2 Relationship Management Methodology (RMM)	110
6.4.3 The W3DT Design Methodology	112
6.4.4 Information Development Methodology for the Web	113
6.4.5 The Web Site Design Method (WSDM)	114
6.4.6 Summary of Methodologies for Developing Web Sites	116
6.5 Marketing Methodologies	118
6.5.1 E-Marketing Plan	120
6.5.2 The Advertures Company Methodology	122
6.5.3 The Market-Vantage (Internet Performance Marketing) Methodology	123
6.5.4 EnSky's Unique Methodology	124
6.5.5 Review of Marketing Methodologies	126
6.5.6 Summary of Marketing Methodologies	126
6.6 Detailed Website Design and Implementation	128
6.6.1 The Object-Oriented Hypermedia Design Model (OOHDM)	129
6.6.2 Implementation Methodology	130
6.7 Summary of Information Systems Development Methodologies, Methodologies for Developing Web Sites, and Marketing Methodologies	131

6.8	New Participative Methodology for Marketing Websites (NPMMW).....	133
6.9	Conclusion .....	141
	References .....	141
<b>7</b>	<b>New Participative Methodology for Sustainable Design (NPMSD) .....</b>	<b>145</b>
7.1	Introduction .....	145
7.2	New Participative Methodology for Sustainable Design.....	146
7.3	Conclusion .....	162
	References .....	162
<b>8</b>	<b>Future ICTs: Present Trends for Future Developments.....</b>	<b>165</b>
8.1	Social Networks Trends.....	165
8.1.1	The Anonymity and Privacy Debate .....	165
8.1.2	Business Issues.....	167
8.1.3	Education Issues.....	168
8.1.4	Other Sectors.....	168
8.2	Web 3.0 Trends .....	169
8.2.1	The Semantic Heterogeneity Challenge.....	170
8.2.2	Business Issues.....	171
8.2.3	Education Issues.....	172
8.2.4	Other Sectors.....	173
8.3	Conclusion and the Future .....	174
	References.....	175
	<b>Index.....</b>	<b>179</b>

Sustainable Design

HCI, Usability and Environmental Concerns

Issa, T.; Isaias, P.

2015, XII, 181 p. 29 illus., 16 illus. in color., Hardcover

ISBN: 978-1-4471-6752-5
