

Contents

Part I Overview of Speech and Audio Coding

1	From “Harmonic Telegraph” to Cellular Phones	3
	Bishnu S. Atal	
2	Challenges in Speech Coding Research	19
	Jerry D. Gibson	
3	Scalable and Multi-Rate Speech Coding for Voice-over-Internet Protocol (VoIP) Networks	41
	Tokunbo Ogunfunmi and Koji Seto	
4	Recent Speech Coding Technologies and Standards.....	75
	Daniel J. Sinder, Imre Varga, Venkatesh Krishnan, Vivek Rajendran, and Stéphane Villette	

Part II Review and Challenges in Speech, Speaker and Emotion Recognition

5	Ensemble Learning Approaches in Speech Recognition	113
	Yunxin Zhao, Jian Xue, and Xin Chen	
6	Deep Dynamic Models for Learning Hidden Representations of Speech Features	153
	Li Deng and Roberto Togneri	
7	Speech Based Emotion Recognition	197
	Vidhyasaharan Sethu, Julien Epps, and Eliathamby Ambikairajah	
8	Speaker Diarization: An Emerging Research	229
	Trung Hieu Nguyen, Eng Siong Chng, and Haizhou Li	

Part III Current Trends in Speech Enhancement

9	Maximum A Posteriori Spectral Estimation with Source Log-Spectral Priors for Multichannel Speech Enhancement	281
	Yasuaki Iwata, Tomohiro Nakatani, Takuya Yoshioka, Masakiyo Fujimoto, and Hirofumi Saito	
10	Modulation Processing for Speech Enhancement	319
	Kuldip Paliwal and Belinda Schwerin	

Speech and Audio Processing for Coding, Enhancement
and Recognition

Ogunfunmi, T.; Togneri, R.; Narasimha, M.S. (Eds.)

2015, X, 345 p. 79 illus., 32 illus. in color., Hardcover

ISBN: 978-1-4939-1455-5
