

Contents

1	The Eukaryotic Protein Kinase Superfamily and the Emergence of Receptor Tyrosine Kinases.....	1
	Tony Hunter and Gerard Manning	
2	Evolution of Receptor Tyrosine Kinases.....	17
	Manfred Schartl, Jean-Nicolas Volff, and Frederic Brunet	
3	RTKs in Invertebrates: Lessons in Signal Transduction.....	37
	Ben-Zion Shilo	
4	Receptor Tyrosine Kinase Signal Transduction and the Molecular Basis of Signalling Specificity	51
	Pierre De Meyts	
5	Nuclear Functions of Receptor Tyrosine Kinases	77
	Yi Du, Jennifer L. Hsu, Ying-Nai Wang, and Mien-Chie Hung	
6	Computational and Modeling Aspects of RTK Networks.....	111
	Yehoshua Eneka, Morris E. Feldman, and Yosef Yarden	
7	Endocytosis and Endosomal Sorting of Receptor Tyrosine Kinases.....	133
	Alexander Sorkin and Arola Fortian	
8	Structural Features of the Receptor Tyrosine Kinase Ectodomains.....	163
	Michael C. Lawrence and Colin W. Ward	
9	Structural Features of the Kinase Domain.....	195
	Dániel Süveges and Natalia Jura	
10	Targeting Receptor Tyrosine Kinases in Cancer.....	225
	Wolfgang J. Köstler and Christoph C. Zielinski	

11 Mouse Models of Receptor Tyrosine Kinases 279
Martin Holcman, Nicole Amberg, Barbara Drobits,
Elisabeth Glitzner, Karin Komposch, Jonathan Robson,
Fabio Savarese, Sriram Srivatsa, Gabriel Stulnig, and Maria Sibia

Index..... 439

Receptor Tyrosine Kinases: Structure, Functions and
Role in Human Disease

Wheeler, D.L.; Yarden, Y. (Eds.)

2015, XVII, 440 p. 56 illus., 51 illus. in color., Hardcover

ISBN: 978-1-4939-2052-5
