

# Contents

<b>1</b>	<b>Introduction</b>	<b>1</b>
<b>Part I Preliminaries</b>		
<b>2</b>	<b>Homotopy Theory of Simplicial Sets</b>	<b>15</b>
2.1	Simplicial Sets	15
2.2	Model Structure for Simplicial Sets	21
2.3	Projective Model Structure for Diagrams	25
<b>3</b>	<b>Some Topos Theory</b>	<b>29</b>
3.1	Grothendieck Topologies	31
3.2	Exactness Properties	38
3.3	Geometric Morphisms	42
3.4	Points	46
3.5	Boolean Localization	49
<b>Part II Simplicial Presheaves and Simplicial Sheaves</b>		
<b>4</b>	<b>Local Weak Equivalences</b>	<b>59</b>
4.1	Local Weak Equivalences	60
4.2	Local Fibrations	69
4.3	First Applications of Boolean Localization	77
<b>5</b>	<b>Local Model Structures</b>	<b>91</b>
5.1	The Injective Model Structure	93
5.2	Injective Fibrations	100
5.3	Geometric and Site Morphisms	107
5.4	Descent Theorems	116
5.5	Intermediate Model Structures	126
5.6	Postnikov Sections and $n$ -Types	131

<b>6</b>	<b>Cocycles</b>	139
6.1	Cocycle Categories	142
6.2	The Verdier Hypercovering Theorem	150
<b>7</b>	<b>Localization Theories</b>	159
7.1	General Theory	161
7.2	Localization Theorems for Simplicial Presheaves	174
7.3	Properness	185

### Part III Sheaf Cohomology Theory

<b>8</b>	<b>Homology Sheaves and Cohomology Groups</b>	191
8.1	Chain Complexes	194
8.2	The Derived Category	202
8.3	Abelian Sheaf Cohomology	207
8.4	Products and Pairings	223
8.5	Localized Chain Complexes	227
8.6	Linear Simplicial Presheaves	235
<b>9</b>	<b>Non-abelian Cohomology</b>	247
9.1	Torsors	251
9.2	Stacks and Homotopy Theory	267
9.3	Groupoids Enriched in Simplicial Sets	280
9.4	Presheaves of Groupoids Enriched in Simplicial Sets	304
9.5	Extensions and Gerbes	318

### Part IV Stable Homotopy Theory

<b>10</b>	<b>Spectra and T-spectra</b>	337
10.1	Presheaves of Spectra	344
10.2	T-spectra and Localization	360
10.3	Stable Model Structures for T-spectra	368
10.4	Shifts and Suspensions	383
10.5	Fibre and Cofibre Sequences	391
10.6	Postnikov Sections and Slice Filtrations	405
10.7	T-Complexes	412
<b>11</b>	<b>Symmetric T-spectra</b>	431
11.1	Symmetric Spaces	436
11.2	First Model Structures	441
11.3	Localized Model Structures	447
11.4	Stable Homotopy Theory of Symmetric Spectra	451
11.5	Equivalence of Stable Categories	461
11.6	The Smash Product	472
11.7	Symmetric T-complexes	483
