

Contents

1 Challenges and Opportunities for Biotech Quality by Design	1
Cyrus Agarabi, Mansoor A. Khan and Rakhi B. Shah	
2 Lessons Learned from Monoclonal Antibody Applications to the Office of Biotechnology Products Quality by Design Pilot Program	17
Barbara L. Rellahan, Steven Kozlowski and Patrick Swann	
3 Definitions and Scope of Key Elements of QbD	31
Ron Taticek and Jun Liu	
4 An Overview of Quality by Design for Drug Product.....	47
Sheryl Martin-Moe and Carol Nast	
5 Development of Drug Product Formulations: Molecular Design and Early Candidates Screening.....	61
Michael Siedler, Vineet Kumar, Ravi Chari, Sonal Saluja and Wolfgang Fraunhofer	
6 Approaches for Early Developability Assessment of Proteins to Guide Quality by Design of Liquid Formulations	87
Bernardo Perez-Ramírez, Nicholas Guziewicz, Robert Simler and Alavattam Sreedhara	
7 Application of QbD Principles to Late-Stage Formulation Development for Biological Liquid Products.....	115
Alavattam Sreedhara, Rita L. Wong, Yvonne Lentz, Karin Schoenhammer and Christoph Stark	
8 Application of QbD Principles for Lyophilized Formulation Development	137
Ambarish Shah, Sajal M. Patel and Feroz Jameel	

9 Drug Substance Frozen Storage and Thawing.....	159
Philippe Lam, Fredric J. Lim and Samir U. Sane	
10 Quality by Design as Applied to Drug Substance Formulation Using Ultrafiltration and Diafiltration	191
Joseph Edward Shultz, Herb Lutz and Suma Rao	
11 A QbD Approach in the Development and Scale-Up of Mixing Processes.....	211
Feroz Jameel and Sonja Wolfrum	
12 Application of QbD Elements in the Development and Scale-Up of a Commercial Filtration Process.....	237
Feroz Jameel	
13 Application of QbD Elements in the Development and Scale-up of Commercial Filling Process.....	265
Feroz Jameel, Cenk Undey, Paul M. Kovach and Jart Tanglertpaibul	
14 Lyophilization Process Design and Development Using QbD Principles	303
Sajal M. Patel, Feroz Jameel, Samir U. Sane and Madhav Kamat	
15 Visible and Subvisible Protein Particle Inspection Within a QbD-Based Strategy	331
Erwin Freund and Shawn Cao	
16 Quality by Design for Distribution of Environmentally Sensitive Pharmaceutical Products	353
Paul Harber	
17 Quality by Design for Primary Container Components.....	365
Fran DeGrazio and Lionel Vedrine	
18 Devices and Combination Products for Biopharmaceuticals	403
Rey T. Chern, Jeffrey C. Givand, Robin Hwang and Thomas J. Nikolai	
19 Applicability of QbD for Vaccine Drug Product Development.....	437
Liuquan (Lucy) Chang, Jeffrey T. Blue, Joseph Schaller, Lakshmi Khandke and Bruce A. Green	
20 Automation and High-Throughput Technologies in Biopharmaceutical Drug Product Development with QbD Approaches	475
Vladimir Razinkov, Jerry Becker, Cenk Undey, Erwin Freund and Feroz Jameel	

21 Critical Quality Attributes, Specifications, and Control Strategy.....	511
Timothy Schofield, David Robbins and Guillermo Miró-Quesada	
22 Multivariate Analysis for Process Understanding, Monitoring, Control, and Optimization of Lyophilization Processes ...	537
Theodora Kourti	
23 Using Mathematical Modeling and Prior Knowledge for QbD in Freeze-Drying Processes	565
Davide Fissore, Roberto Pisano and Antonello A. Barresi	
24 Application of Multivariate Statistical Process Monitoring to Lyophilization Process	595
Fuat Doymaz	
25 Application of PAT in Real-time Monitoring and Controlling of Lyophilization Process.....	605
Feroz Jameel, William J. Kessler and Stefan Schneid	
26 Product Homogeneity Assessment During Validation of Biopharmaceutical Drug Product Manufacturing Processes	649
Fuat Doymaz, Frank Ye and Richard K. Burdick	
27 Application of Quality by Design Principles to the Drug Product Technology Transfer Process	661
Fredric J. Lim, Jagannathan Sundaram and Alavattam Sreedhara	
28 Regulatory Considerations for Implementation of the QbD Paradigm for Biologics: Laying the Foundation for Product and Process Lifecycle Management.....	693
Lynne Krummen	
Index.....	707

Quality by Design for Biopharmaceutical Drug Product
Development

Jameel, F.; Hershenson, S.; Khan, M.A.; Martin-Moe, S.
(Eds.)

2015, XX, 710 p. 214 illus., 163 illus. in color.,

Hardcover

ISBN: 978-1-4939-2315-1
