

Contents

1 Overview of Plant Pigments	1
Chunxian Chen	
2 Carotenoid Biosynthesis Genomics	9
Amanda Ferreira Da Silva Mendes, Virgínia Lúcia Fontes Soares, and Marcio Gilberto Cardoso Costa	
3 Carotenoids in Human Nutrition	31
Phyllis E. Bowen, Maria Stacewicz-Sapuntzakis, and Veda Diwadkar-Navsariwala	
4 Differential Transcription Factor Networks Orchestrate Flavonoid Biosynthesis	69
Lilian Cristina Baldon Aizza and Marcelo Carnier Dornelas	
5 Flavonoid Dietetics: Mechanisms and Emerging Roles of Plant Nutraceuticals	93
Arti Parihar, Erich Grotewold, and Andrea I. Doseff	
6 The Betalain Secondary Metabolic Network	127
Gregory J. Hatlestad and Alan Lloyd	
7 Indicaxanthin Dietetics: Past, Present, and Future	141
Maria A. Livrea and Luisa Tesoriere	
8 Pigments in Citrus	165
Chunxian Chen, Angela Roberta Lo Piero, and Fred Gmitter Jr.	
9 Pigments in Grape	189
Christopher L. Owens	

10 Pigments in Strawberry	205
Jeremy Pillet and Kevin M. Folta	
11 Carotenoids in Carrot	217
Claudia Stange Klein and Manuel Rodriguez-Concepcion	
12 Carotenoids in Green Vegetables and Health Aspects	229
Julie Garden-Robinson	
13 Anthocyanins in Staple Crops	247
Katia Petroni, Roberto Pilu, and Chiara Tonelli	
Index	275

Pigments in Fruits and Vegetables

Genomics and Dietetics

Chen, C. (Ed.)

2015, X, 277 p. 33 illus., 18 illus. in color., Hardcover

ISBN: 978-1-4939-2355-7
