

Contents

Introduction	1
Stephan A. Pless and Christopher A. Ahern	
Engineered Ionizable Side Chains	5
Gisela D. Cymes and Claudio Grosman	
Cysteine Modification: Probing Channel Structure, Function and Conformational Change	25
Myles H. Akabas	
Functional Site-Directed Fluorometry	55
Michael Priest and Francisco Bezanilla	
Bioreactive Tethers	77
Karen Mruk and William R. Kobertz	
Flipping the Photoswitch: Ion Channels Under Light Control	101
Catherine K. McKenzie, Inmaculada Sanchez-Romero and Harald Janovjak	
Incorporation of Non-Canonical Amino Acids	119
Lilia Leisle, Francis Valiyaveetil, Ryan A. Mehl and Christopher A. Ahern	
Index	153

Novel Chemical Tools to Study Ion Channel Biology

Ahern, C.; Pless, S. (Eds.)

2015, VIII, 154 p. 33 illus., 24 illus. in color., Hardcover

ISBN: 978-1-4939-2844-6
