Part I Development and Differentiation of the Vascular System

1	VEGF and Notch Signaling in Angiogenesis	3
	Marcin Teodorczyk, Nevenka Dudvarski Stanković, Frank Bicker and Mirko HH Schmidt	
2	Vascular Development in the Zebrafish	47
	Dorien M. A. Hermkens, Henricus J. Duckers and Stefan Schulte-Merker	
3	Pericytes in Vascular Development and Function	65
	Richard Daneman and Annika Keller	
4	Fibroblast Growth Factor Signaling in Vascular Development.....	93
	Igor Kovacevic, Meike Hoffmeister and Stefanie Oess	
5	Development and Differentiation of the Lymphatic Vascular System	115
	Jeremiah Bernier-Latmani, Amélie Sabine and Tatiana V. Petrova	

Part II Homeostasis of the Vascular System

6	Junctional Signaling in Endothelial Cells.....	137
	Luca Bravi and Maria Grazia Lampugnani	
7	More than a Scaffold: Extracellular Matrix in Vascular Signaling	161
	Iva Nikolic	

8	Vascular Endothelial Growth Factor-A-Induced Vascular Permeability and Leukocyte Extravasation	187
	Mia Phillipson, Gustaf Christoffersson, Lena Claesson-Welsh and Michael Welsh	
9	Cytochrome P450-Derived Lipid Mediators and Vascular Responses	209
	Ingrid Fleming	
10	The Role of Coagulation Factor Signaling in Angiogenesis and Vascular Remodeling	233
	Christoph Reinhardt, Davit Manukyan and Wolfram Ruf	
	Part III Pathophysiology of the Vascular System	257
11	Axon Guidance Factors in Developmental and Pathological Angiogenesis	259
	Robert Luck and Carmen Ruiz de Almodovar	
12	The Vasculature in the Diseased Eye	293
	Hans-Peter Hammes	
13	The Angiopoietin—Tie System: Common Signaling Pathways for Angiogenesis, Cancer, and Inflammation	313
	Yvonne Reiss, Alexander Scholz and Karl H. Plate	
14	Oxygen Signaling in Physiological and Pathological Angiogenesis	329
	Anne-Theres Henze and Massimiliano Mazzone	
15	The Pulmonary Vasculature in Chronic Obstructive Lung Disease	351
	Michael Seimetz and Norbert Weissmann	
16	Nitric Oxide Synthesis in Vascular Physiology and Pathophysiology	381
	Huige Li, Ning Xia and Ulrich Förstermann	
	Index	399

Endothelial Signaling in Development and Disease
