

# Contents

<b>1</b>	<b>Preamble</b>	1
<b>2</b>	<b>Longitudinal Flow Field</b>	3
2.1	Laminar Flow	3
2.2	Turbulent Flow	8
2.2.1	Viscoelastic Fluids: Pseudoplastic Behavior	8
2.2.2	Drag-Reducing Viscoelastic Fluids	10
2.2.3	The Mechanism of Drag Reduction	13
<b>3</b>	<b>Transversal Flow Field</b>	23
3.1	Analogies	24
3.2	Early Developments	26
3.3	Perturbation Approach: Non-linear Fluid and Solid Mechanics	27
3.3.1	Similarities and Constraints on Constitutive Formulations	27
3.3.2	Types of Perturbation	28
3.4	Criteria for the Existence of Secondary Flows	33
3.5	Secondary Flows of Dilute Solutions: Rotating Pipes and Channels	36
3.5.1	Spanwise Rotating Pipes and Drag Reduction in Laminar Flow	36
3.5.2	Rotating Channel Flow	39
3.6	Recent Investigations of Secondary Flows of Viscoelastic Fluids	42
3.6.1	Steady Flows in Straight Tubes	42
3.6.2	An Industrial Application: Viscous Encapsulation	57
<b>4</b>	<b>Transcriticality</b>	61
<b>5</b>	<b>Quasi-Periodic Flows of Viscoelastic Fluids in Straight Tubes</b>	65
5.1	Pulsating Pressure-Gradient-Driven Flows	65
5.2	Flows Driven from the Boundary	68

5.3	Resonance Phenomena, Anomalous Flows, and Flow Enhancement . . . . .	71
5.4	Pulsating Flow in Tubes of Non-Circular Cross Sections . . . . .	76
<b>6</b>	<b>Transversal Flow Field of Particle-Laden Linear Fluids . . . . .</b>	<b>79</b>
6.1	Mean Secondary Field in Single-Phase Turbulent Flow . . . . .	80
6.1.1	Similarity with the Driving Mechanism of Secondary Flows of Viscoelastic Fluids . . . . .	85
6.1.2	General Classification and Analysis of Turbulent Secondary Flows . . . . .	88
6.2	Secondary Flows of Non-Brownian Suspensions . . . . .	91
6.2.1	Shear Viscosity of Non-Brownian Suspensions . . . . .	92
6.2.2	Recent Normal Stress Measurements . . . . .	94
6.2.3	Macroscopic Models for Suspension Flow and Stokesian Dynamics Simulations . . . . .	101
6.2.4	Challenges in Shear-Driven Migration of Suspensions . . . . .	113
6.2.5	Particle Motion in Viscoelastic Suspending Media at Very Low Reynolds Numbers . . . . .	117
6.2.6	Secondary Field in Poiseuille Flow of Shear-Driven Migration of Suspensions . . . . .	122
6.2.7	Secondary Field in Single-Phase Turbulent Flow of Suspensions . . . . .	125
6.2.8	Secondary Field in Multiphase Turbulent Flow of Suspensions . . . . .	129
	<b>Epilogue . . . . .</b>	<b>137</b>
	<b>Appendix A: Non-linear Viscoelastic Constitutive Equations and Secondary Flows . . . . .</b>	<b>139</b>
	<b>Appendix B: Turbulence Closure Models for Linear Fluids and Secondary Flows . . . . .</b>	<b>143</b>
	<b>References . . . . .</b>	<b>147</b>

Developments in the Flow of Complex Fluids in Tubes

Siginer, D.A.

2015, X, 163 p. 31 illus., 3 illus. in color., Hardcover

ISBN: 978-3-319-02425-7
