

Contents

Part I GPR Instrumentation

| | |
|--|----|
| Design of Advanced GPR Equipment for Civil Engineering Applications | 3 |
| Guido Manacorda, Raffaele Persico and Howard F. Scott | |
| Antennas for GPR Systems | 41 |
| Lara Pajewski, Fabio Tosti and Wolfgang Kusayanagi | |

Part II GPR Surveying of Pavements, Bridges, Tunnels and Buildings; Underground Utility and Void Sensing

| | |
|--|-----|
| Innovative Inspection Procedures for Effective GPR Surveying of Critical Transport Infrastructures (Pavements, Bridges and Tunnels) | 71 |
| Josef Stryk, Amir M. Alani, Radek Matula and Karel Pospisil | |
| Inspection Procedures for Effective GPR Surveying of Buildings | 97 |
| Vega Pérez-Gracia and Mercedes Solla | |
| Inspection Procedures for Effective GPR Sensing and Mapping of Underground Utilities and Voids, with a Focus to Urban Areas | 125 |
| Christina Plati and Xavier Dérobert | |
| Effective GPR Inspection Procedures for Construction Materials and Structures | 147 |
| Lech Krysiński and Johannes Hugenschmidt | |

| | |
|---|------------|
| Determination, by Using GPR, of the Volumetric Water Content in Structures, Substructures, Foundations and Soil | 163 |
| Fabio Tosti and Evert Slob | |
| Part III EM Methods for Near-Field Scattering Problems by Buried Structures; Data Processing Techniques | |
| Methods for the Electromagnetic Forward Scattering by Buried Objects | 197 |
| Cristina Ponti | |
| Development of Intrinsic Models for Describing Near-Field Antenna Effects, Including Antenna-Medium Coupling, for Improved Radar Data Processing Using Full-Wave Inversion | 219 |
| Anh Phuong Tran and Sébastien Lambot | |
| GPR Imaging Via Qualitative and Quantitative Approaches | 239 |
| Ilaria Catapano, Andrea Randazzo, Evert Slob and Raffaele Solimene | |
| GPR Data Processing Techniques | 281 |
| Nikos Economou, Antonis Vafidis, Francesco Benedetto and Amir M. Alani | |
| Part IV Different Applications of GPR and Other NDT Technologies in CE | |
| Applications of GPR for Humanitarian Assistance and Security. | 301 |
| Xavier Núñez-Nieto, Mercedes Solla and Henrique Lorenzo | |
| Applications of GPR in Association with Other Non-destructive Testing Methods in Surveying of Transport Infrastructures | 327 |
| Mercedes Solla, Henrique Lorenzo, Joaquín Martínez-Sánchez and Vega Pérez-Gracia | |
| Advanced Electric and Electromagnetic Methods for the Characterization of Soil | 343 |
| Marc Van Meirvenne | |
| Applications of Radar Systems in Planetary Sciences: An Overview | 361 |
| Fabio Tosti and Lara Pajewski | |

Civil Engineering Applications of Ground Penetrating
Radar

Benedetto, A.; Pajewski, L. (Eds.)

2015, XIV, 371 p. 102 illus., Hardcover

ISBN: 978-3-319-04812-3
