Estimation Theory for Generalized Linear Models	1
Alain Bensoussan, Pierre Bertrand and Alexandre Brouste	
Distortion Risk Measure or the Transformation of Unimodal Distributions into Multimodal Functions	71
Dominique Guégan and Bertrand Hassani	
Stress Testing Engineering: The Real Risk Measurement?	89
Dominique Guégan and Bertrand K. Hassani	
The <i>Skin in the Game</i> as a Risk Filter	125
Nassim N. Taleb and Constantine Sandis	
Capital Adequacy, Pro-cyclicality and Systemic Risk	137
Raphael Douady	
Financial Modelling and Memory: Mathematical System	149
Charles S. Tapiero and Pierre Vallois	
Asset Price Modeling: From Fractional to Multifractional Processes	247
Sergio Bianchi and Augusto Pianese	
Financial Analytics and A Binomial Pricing Model	287
Charles S. Tapiero and Jiangyi Qi	
Index	315

Future Perspectives in Risk Models and Finance

Bensoussan, A.; Guégan, D.; Tapiero, C.S. (Eds.)

2015, XIV, 315 p. 45 illus., 31 illus. in color., Hardcover

ISBN: 978-3-319-07523-5
