

Contents

- 1 Introduction..... 1**
 - 1.1 Terminology 5
- 2 Historical Overview: The United States and Astronomy 7**
 - Until the 1860s..... 7**
 - 2.1 The Leonid Meteor Storm of 1833 8
 - 2.2 The Great Comet of 1843 (C/1843 D1) 17
 - 2.3 American Astronomy in the Early 1800s..... 25
- 3 Scientific Overview..... 43**
 - 3.1 Solar Eclipses and the Nature of the Solar Corona..... 43
 - 3.1.1 Eclipses, Prominences and the Corona 43
 - 3.1.2 Earlier Solar Eclipses of Note..... 46
 - 3.1.3 Instrumentation 50
 - 3.1.3.1 Photography 50
 - 3.1.3.2 Spectroscopy 52
 - 3.1.3.3 The Polariscope..... 55
 - 3.1.3.4 The Role of the Telegraph..... 57
 - 3.1.4 The Solar Eclipses of 1868, 1869 and 1878 57
 - 3.1.4.1 The Eclipse of 18 August 1868..... 57
 - 3.1.4.2 The Eclipse of 7 August 1869..... 63
 - 3.1.4.3 The Eclipse of 29 July 1878..... 75
 - 3.1.5 Evolving Directions for Solar Research..... 82
 - 3.1.5.1 The Shape of the Corona..... 82
 - 3.1.5.2 The Chemical Composition of the Corona 82
 - 3.1.5.3 Sunspots and the Corona..... 84
 - 3.1.5.4 Polarization and the Nature of the Corona..... 84
 - 3.1.5.5 Intra-Mercurial Planets 85
 - 3.1.6 Conclusions..... 86

3.2	Transits of Venus and Refinement of the Value of the Astronomical Unit.....	87
3.2.1	The Astronomical Unit: Its Significance and Early Determinations	87
3.2.2	A Recap of Earlier Recorded Transits of Venus.....	92
3.2.2.1	The Transit of 6 December 1631	92
3.2.2.2	The Transit of 4 December 1639	93
3.2.2.3	The Transit of 6 June 1761.....	93
3.2.2.4	The Transit of 3 June 1769.....	95
3.2.3	Advances in Instrumentation.....	98
3.2.3.1	The Development of Astronomical Photography....	98
3.2.3.2	The Horizontal Photographic Telescope	99
3.2.3.3	The Heliometer	99
3.2.3.4	The Role of Spectroscopy	100
3.2.3.5	The Role of the Telegraph.....	100
3.2.4	The Transit of Venus of 9 December 1874.....	102
3.2.4.1	Foreign Expeditions	103
3.2.4.2	The American Expeditions.....	104
3.2.5	The Transit of Venus of 6 December 1882.....	110
3.2.5.1	Foreign Expeditions	111
3.2.5.2	Foreign Expeditions to the United States.....	111
3.2.5.3	The American Expeditions.....	117
4	Popular Astronomy and the Solar Eclipses of 1868, 1869 and 1878	129
4.1	The Solar Eclipses of 1868, 1869 and 1878	129
4.2	A Sampling of Popular Periodicals	129
4.2.1	General Periodicals	130
4.2.2	Religious Periodicals	153
4.2.3	Scientific Periodicals.....	175
4.3	<i>The New York Times</i>	184
4.3.1	The Solar Eclipse of 18 August 1868	185
4.3.2	The Solar Eclipse of 7 August 1869	185
4.3.3	The Solar Eclipse of 29 July 1878	192
5	Popular Astronomy and the Transits of Venus of 1874 and 1882.....	201
5.1	The Transit of Venus of December 1874.....	201
5.1.1	A Sampling of Popular Periodicals	201
5.1.1.1	General Periodicals	201
5.1.1.2	Religious Periodicals	211
5.1.1.3	Scientific Periodicals.....	218
5.1.2	<i>The New York Times</i>	220
5.2	The Transit of Venus of December 1882.....	231
5.2.1	A Sampling of Popular Periodicals	231
5.2.1.1	General Periodicals	231
5.2.1.2	Religious Periodicals	234
5.2.1.3	Scientific Periodicals.....	239
5.2.2	<i>The New York Times</i>	240

6 Discussion.....	255
6.1 ‘Amateurs’ and ‘Professionals’ in Astronomy.....	255
6.2 Articles in <i>The New York Times</i>	263
6.3 Popular Lectures	265
6.4 Telescopes	267
6.5 Observatories	269
6.6 Publications.....	271
6.7 Astronomical Societies.....	273
6.8 Public Participation in Research	280
7 Concluding Remarks	287
References	291
Index.....	329

Eclipses, Transits, and Comets of the Nineteenth
Century

How America's Perception of the Skies Changed

Cottam, S.; Orchiston, W.

2015, XI, 336 p. 240 illus., 83 illus. in color., Hardcover

ISBN: 978-3-319-08340-7
