|------------------------------------------------------------|-----|
| <b>4 Discussion</b>                                        | 45  |
| 4.1 Understanding the Environments of Deposition:          |     |
| Facies Evaluation                                          | 46  |
| 4.1.1 Overview                                             | 46  |
| 4.1.2 Core Comparison: Autocorrelation Test                | 46  |
| 4.2 Lacustrine Versus Marine Environment                   | 49  |
| 4.3 Phases of Glacial Activity                             | 52  |
| 4.4 Understanding the Cause of the Facies Changes          | 53  |
| 4.4.1 Overview                                             | 53  |
| 4.4.2 A Role for Orbital Forcing? Milankovitch             |     |
| Theory and its Application in the Carboniferous            | 54  |
| 4.4.3 Development of an Age Model                          | 58  |
| 4.4.4 Principal Component Analyses                         | 60  |
| 4.4.5 Wavelet Analyses                                     | 63  |
| 4.5 Demise of the Ice                                      | 67  |
| References                                                 | 68  |
| <b>5 Conclusions Summarised and Research Opportunities</b> |     |
| Reviewed                                                   | 71  |
| 5.1 The Principal Conclusions                              | 71  |
| 5.2 Potential Research Opportunities                       | 73  |
| References                                                 | 74  |
| <b>6 Data Postscript</b>                                   | 75  |
| 6.1 Logging Data: Digital Version and Original Scans       | 76  |
| 6.2 Reflectance Scanning Data                              | 131 |
| 6.3 XRF Data                                               | 136 |
| 6.4 Clast Data                                             | 141 |
| 6.5 Total Organic Carbon Data                              | 146 |
| <b>Appendix</b>                                            | 147 |
| <b>Index</b>                                               | 173 |

Falkland Islands (Islas Malvinas) in the  
Permo-Carboniferous  
From Icehouse to Greenhouse

Horan, K.

2015, XV, 174 p. 72 illus., 65 illus. in color., Hardcover

ISBN: 978-3-319-08707-8
