

Contents

1	Engineering Review of the IEEE 802.22 Standard on Cognitive Radio	1
	Shrishail Hiremath, Amit Kumar Mishra and Sarat Kumar Patra	
2	A Review of Hardware Platforms for Whitespace Communication	33
	Ojonav Hazarika and Amit Kumar Mishra	
3	A Study on White and Gray Spaces in India	49
	Kalpana Naidu, Yuva Kumar, B.M. Baveja, Rakesh Naik, Boli Sridhar, Shyam Ponnappa, Mohammed Zafar Ali Khan, S.N. Merchant and U.B. Desai	
4	The Television White Space Opportunity in Southern Africa: From Field Measurements to Quantifying White Spaces	75
	Albert A. Lysko, Moshe T. Masonta and David Lloyd Johnson	
5	Spectrum Sensing for Cognitive Radio Networks	117
	Srinu Sesham and Samrat L. Sabat	
6	Geo-location White Space Spectrum Databases: Review of Models and Design of a Dynamic Spectrum Access Coexistence Planner and Manager	153
	Luzango Mfupe, Fisseha Mekuria, Litsietsi Montsi and Mjumo Mzyece	
7	White RHINO—A New SDR Platform for Whitespace Communication	195
	Ojonav Hazarika and Amit Kumar Mishra	

8	TV White Space Channel Estimation and Equalisation: Challenges and Solutions	221
	Vimal Bhatia	
9	VillageLink: A Channel Allocation Technique for Wide-Area White Space Networks	249
	Veljko Pejovic, David Lloyd Johnson, Mariya Zheleva, Elizabeth M. Belding and Albert Lysko	
10	A Non-cooperative TV White Space Broadband Market Model for Rural Entrepreneurs	281
	Sindiso Mpenyu Nleya, Antoine Bagula, Marco Zennaro and Ermmano Pietrosemoli	

White Space Communication

Advances, Developments and Engineering Challenges

Mishra, A.K.; Johnson, D.L. (Eds.)

2015, XII, 295 p. 159 illus., 125 illus. in color.,

Hardcover

ISBN: 978-3-319-08746-7
