4 Functional Analysis of Locomotor Apparatus of Colugos 205
Some Biological Aspects of Colugos 205
Locomotion of Colugos 208
Gliding 208
Climbing up Trunks 210
Climbing under Branches 211
Mobility of Shoulder Girdle 212
Static Analysis 215
Clinging Flat onto Trunk 216
Gliding 219
References 225

5 Functional Analysis of Locomotor Apparatus of Bats 227
Locomotor Features of Chiropterans 227
Kinematics of Chiropteran Wing 233
Interaction of Wing with Air 242
Internal Biomechanics of Wing 245
Static Analysis of Downstroke 247
References 255

6 Comparative Morphofunctional Analysis 259
Morphofunctional Features of Shoulder Girdle 259
Morphofunctional Features of Free Limb 269
Discussion on Comparative Morphology 274
Flight and Primitive Locomotion of Prototherians 274
Flight and Brachiation 275
Flight and Gliding 276
