## Part I Dams, Geomorphic Processes and Water Resources Management

<b>1</b>	<b>Application of Bivariate Stochastic Methods in Evaluation of Response Time of Various Hydrological Components with Respect to Rainfall, A Case study, Doroudzan Earth Dam, Fars Province, Iran</b> . . . . .	<b>3</b>
	Mehrdad Rahnamaei, Mehdi Sharif Shourijeh, Reza Afshin Sharifan and Alireza Nematollahi	
<b>2</b>	<b>Local-Scale Risk Analysis and Mitigation of Debris Flow Endangering a Densely Populated Urban Area: A Case Study from Tyrol, AT</b> . . . . .	<b>9</b>
	Florian Riedl, Marc S. Adams and Christian Maier	
<b>3</b>	<b>An Investigation of the Piping Problems Causing Water-Level Drops in Mountain Lake, Giles County, Virginia, USA</b> . . . . .	<b>13</b>
	Nidal W. Atallah, Abdul Shakoor and Chester F. Watts	
<b>4</b>	<b>Remote Sensing and Hydrogeological Methodologies for Irrigation Canal Water Losses Detection: The <i>Naviglio di Bra</i> Test Site (NW-Italy)</b> . . . . .	<b>19</b>
	Luigi Perotti, Manuela Lasagna, Paolo Clemente, Giovanna Antonella Dino and Domenico Antonio De Luca	
<b>5</b>	<b>Comparison of Different Methods for Detecting Irrigation Canals Leakage</b> . . . . .	<b>23</b>
	Paolo Clemente, Manuela Lasagna, Giovanna Antonella Dino and Domenico Antonio De Luca	
<b>6</b>	<b>Sediment Problems and Consequences During Temporary Drawdown of a Large Flood Control Reservoir for Environmental Retrofitting</b> . . . . .	<b>27</b>
	Gordon E. Grant, Sarah L. Lewis, Gregory Stewart and J. Reed Glasmann	
<b>7</b>	<b>The Remains of the Dam: What Have We Learned from 15 Years of US Dam Removals?</b> . . . . .	<b>31</b>
	Gordon E. Grant and Sarah L. Lewis	
<b>8</b>	<b>The Sediment Budgets Evaluation in a Basin Using LiDAR DTMs</b> . . . . .	<b>37</b>
	Chih-Ming Tseng, Ching-Weei Lin and Kuo-Jen Chang	

<b>9</b>	<b>The Effects of Check Dams on Sediment Transport Dynamics on Steep Slopes. . . . .</b>	<b>43</b>
	Guillaume Piton and Alain Recking	
 <b>Part II Debris-Flow Monitoring and Warning</b>		
<b>10</b>	<b>Debris-Flow Monitoring and Geomorphic Change Detection Combining Laser Scanning and Fast Photogrammetric Surveys in the Moscardo Catchment (Eastern Italian Alps) . . . . .</b>	<b>51</b>
	Giacomo Blasone, Marco Cavalli and Federico Cazorzi	
<b>11</b>	<b>Approach for an Early Warning System for Debris Flow Based on Acoustic Signals. . . . .</b>	<b>55</b>
	A. Schimmel and J. Hübl	
<b>12</b>	<b>Advanced Debris-Flow Monitoring and Alarm System at Spreitgraben . . .</b>	<b>59</b>
	Mylène Jacquemart, Daniel Tobler, Christoph Graf and Lorenz Meier	
<b>13</b>	<b>Standardization of Methods and Procedures for Debris Flow Seismic Monitoring . . . . .</b>	<b>63</b>
	M. Arattano, M. Cavalli, F. Comiti, V. Coviello, P. Macconi and L. Marchi	
<b>14</b>	<b>One Year Use of High-Frequency RADAR Technology in Alpine Mass Movement Monitoring: Principles and Performance for Torrential Activities . . . . .</b>	<b>69</b>
	Richard Koschuch, Philipp Jocham and Johannes Hübl	
<b>15</b>	<b>Debris Flow Warning Through Radar Nowcasting and Critical Rainfall Thresholds: A Case Study in the Glarus Catchment (Switzerland) . . . . .</b>	<b>73</b>
	Mitidieri Francesco, Papa Maria Nicolina, Ciervo Fabio, Berenguer Marc, Sempere-Torres Daniel, Medina Vicente and Bateman Allen	
<b>16</b>	<b>3D Video Simulation of a Debris Flow . . . . .</b>	<b>79</b>
	Furio Dutto, Massimo Arattano, Marta Chiarle, Concetta Contrafatto and Laura Turconi	
<b>17</b>	<b>Monitoring Mud-Flows for Investigative and Warning Purposes: The Instrumented Catchment of Rio Marderello (North-Western Italy) . . .</b>	<b>85</b>
	Laura Turconi, Velio Coviello, Massimo Arattano, Gabriele Savio and Domenico Tropeano	
<b>18</b>	<b>The Rotolon Catchment Early-Warning System . . . . .</b>	<b>91</b>
	Giulia Bossi, Stefano Crema, Simone Frigerio, Matteo Mantovani, Gianluca Marcato, Alessandro Pasuto, Luca Schenato and Marco Cavalli	
<b>19</b>	<b>Spatial Variability of Channel Erosion by Debris-Flows (Field Observations in the French Alps). . . . .</b>	<b>97</b>
	Theule Joshua, Liébault Frédéric and Laigle Dominique	

<b>20</b>	<b>Monitoring Debris Flow Propagation in Steep Erodible Channels . . . . .</b>	<b>103</b>
	Coraline Bel, Oldrich Navratil, Frédéric Liébault, Firmin Fontaine, Hervé Bellot and Dominique Laigle	
<b>21</b>	<b>A Web-Based Decision Support System for Debris Flow Disaster Management in Taiwan. . . . .</b>	<b>109</b>
	Hsiao-Yuan Yin, Chen-Yang Lee and Chyan-Deng Jan	
<b>22</b>	<b>Comparison of Methods and Procedures for Debris-Flow Volume Estimation . . . . .</b>	<b>115</b>
	M. Arattano, G. Bertoldi, M. Cavalli, F. Comiti, V. D’Agostino and J. Theule	
 <b>Part III Dynamics of Large Wood in River Basins: Recruitment, Transport and Related Hazard</b>		
<b>23</b>	<b>Large Wood Transport Influence on Flash Flood Risk in a Mountain Village in Central Spain . . . . .</b>	<b>123</b>
	V. Ruiz Villanueva, A. Diez Herrero, J.M. Bodoque del Pozo, E. Blade Castellet and M. Sanchez Juny	
<b>24</b>	<b>Determination of Large Wood Accumulation in a Steep Forested Torrent Using Laser Scanning. . . . .</b>	<b>127</b>
	Dejan Grigillo, Anja Vrečko, Matjaž Mikoš, Tomaž Gvozdanović, Andreja Anžur, Rok Vežočnik and Dušan Petrovič	
<b>25</b>	<b>Large Wood and River Morphodynamics. . . . .</b>	<b>131</b>
	Angela M. Gurnell	
<b>26</b>	<b>Volume and Travel Distance of Wood Pieces in the Tagliamento River (Northeastern Italy) . . . . .</b>	<b>135</b>
	Ravazzolo Diego, Mao Luca, Garniga Bruno, Picco Lorenzo and Lenzi Mario Aristide	
<b>27</b>	<b>On the Evaluation and Modelling of Wood Clogging Processes in Flood Related Hazards Estimation. . . . .</b>	<b>139</b>
	Thomas Gschnitzer, Bernhard Gems, Markus Aufleger, Bruno Mazzorana and Francesco Comiti	
<b>28</b>	<b>Large Wood Mobility in Mountain Rivers, Chile . . . . .</b>	<b>143</b>
	Andrés Iroumé, Luca Mao, Andrea Andreoli and Héctor Ulloa	
<b>29</b>	<b>Morphodynamics and Large Wood Dispersal in Braided Rivers . . . . .</b>	<b>147</b>
	Welber Matilde and Bertoldi Walter	
<b>30</b>	<b>Large Wood Dynamics Along the Tagliamento River, Italy: Insights from Field and Remote Sensing Investigations . . . . .</b>	<b>151</b>
	Alexander J. Henshaw, Walter Bertoldi, Gemma L. Harvey, Angela M. Gurnell and Matilde Welber	

<b>31</b>	<b>Monitoring and Modeling Large Wood Recruitment and Transport in a Mountain Basin of North-Eastern Italy</b> . . . . .	<b>155</b>
	Lucía Ana, Antonello Andrea, Campana Daniela, Cavalli Marco, Crema Stefano, Franceschi Silvia, Marchese Enrico, Niedrist Martin, Schneiderbauer Stefan and Comiti Francesco	
<b>32</b>	<b>Large Wood Recruitment and Transport During a Severe Flash Flood in North-Western Italy</b> . . . . .	<b>159</b>
	Lucía Ana, Comiti Francesco, Borga Marco, Cavalli Marco and Marchi Lorenzo	
<b>33</b>	<b>Analysis of Wood Density to Improve Understanding of Wood Buoyancy in Rivers</b> . . . . .	<b>163</b>
	V. Ruiz-Villanueva, H. Piegay, M. Stoffel, V. Gaertner and F. Perret	

#### **Part IV Ephemeral Streams in Karst Area: Behaviour and Flood Risk**

<b>34</b>	<b>Modelling Flash Floods in a Karstic Watershed Using an Original Semi-distributed Radar-Gauge Merging Method</b> . . . . .	<b>169</b>
	Felix Raynaud, Valerie Borrell-Estupina, Alain Dezetter, Severin Pistre, Helene Mathieu-Subias and Eric Servat	
<b>35</b>	<b>Assessing the Contribution of Karst to Flood Peaks of the Suze River, Potentially Affecting the City of Bienne (Switzerland)</b> . . . . .	<b>175</b>
	Arnauld Malard, Pierre-Yves Jeannin and Eric Weber	
<b>36</b>	<b>The Generation of Runoff Through Ephemeral Streams</b> . . . . .	<b>181</b>
	Angelo Doglioni, Annalisa Galeandro and Vincenzo Simeone	
<b>37</b>	<b>Notes on Morphological Characters of Ephemeral Streams in Apulia Region, South Italy</b> . . . . .	<b>185</b>
	Maria Concetta Cristino, Angelo Doglioni and Vincenzo Simeone	
<b>38</b>	<b>Influence of Karstic System on Surface Flooding in Mediterranean Climate</b> . . . . .	<b>189</b>
	Félix Raynaud, Hélène Mathieu-Subias, Valérie Borrell-Estupina, Séverin Pistre, Jean-Luc Seidel, Sandra Van-Exter, Véronique de Montety and Frédéric Hernandez	

#### **Part V Groundwater Modelling**

<b>39</b>	<b>Transport Mechanisms of Sodium in Sandy Soil from Column Leaching Test</b> . . . . .	<b>197</b>
	V.A. Godoy, L.V. Zuquette and G.F. Napa-García	
<b>40</b>	<b>Using Discharge-Electrical Conductivity Relationship in a Mediterranean Catchment: The T. Ciciriello in the Cilento, Vallo Diano and Alburni European Geopark (Southern Italy)</b> . . . . .	<b>201</b>
	Domenico Guida and Albina Cuomo	

<b>41</b>	<b>An Investigation of Hydraulic Connections and Origin of Water at a Well Field Near Chien-Shih Area, Shinchu, Taiwan by Using Stable Isotopes and Hydrographs. . . . .</b>	<b>207</b>
	Pei-Ying Lin and Louis Loung-Yie Tsai	
<b>42</b>	<b>Numerical Flow and Transport Models for Simulating Current and Predicted Nitrate Contamination in Groundwater in the Bonifica Di Arborea Area (W. Sardinia, Italy). . . . .</b>	<b>211</b>
	Ilaria Cinzia Galiano, Claudia Mannai, Anna Matzeu and Gabriele Uras	
<b>43</b>	<b>Application of Oda's Permeability Tensor for Determining Transport Properties in Fractured Sedimentary Rocks: A Case Study of Pliocene-Pleistocene Formation in TCDP . . . . .</b>	<b>215</b>
	Wen-Jie Wu, Jia-Jyun Dong, Yun-Jia Cheng, Chang-No Wu, Jih-Hao Hung and Chia-Nan Liu	
<b>44</b>	<b>Numerical Modeling of Groundwater Flooding in Urban Area: The Case of Polustrovo (St. Petersburg, Russia) . . . . .</b>	<b>219</b>
	Marco Rotiroti, Letizia Fumagalli and Tullia Bonomi	
<b>45</b>	<b>Water Seepage Analysis of a Seabed Metal Mine . . . . .</b>	<b>223</b>
	Ma Fengshan, Li Kepeng, Ding Kuo and Liu Feng	
<b>46</b>	<b>Groundwater Flow Modelling of the Aosta Plain in Northern Italy . . . . .</b>	<b>227</b>
	Tullia Bonomi, Maria Letizia Fumagalli, Marco Rotiroti, Rodolfo Perego, Fulvio Simonetto and Pietro Capodaglio	
<b>47</b>	<b>Characterization and Availability of Toxic Metals in Solid Mine Tailing: Ribeira Valley (Brazil) . . . . .</b>	<b>231</b>
	Isabela Monici Raimondi, Aline de Borgia Jardim, Valéria Rodrigues, Lazaro Valentin Zuquette and Joel Barbujianni Sígolo	
<b>48</b>	<b>Difference and Relationship of Elements in the Issue of Seepage and Consolidation . . . . .</b>	<b>235</b>
	Zhifang Zhou, Yan Li and Qiaona Guo	
<b>49</b>	<b>Using Heat as a Tracer to Characterize Streambed Water Fluxes of the Brenta River (Italy). . . . .</b>	<b>241</b>
	Giulia Passadore, Andrea Sottani, Lorenzo Altissimo, Mario Putti and Andrea Rinaldo	
<b>50</b>	<b>Hydrogeological and Hydrochemical Study of Samalá River Basin, Quetzaltenango Area, South Western Guatemala . . . . .</b>	<b>245</b>
	Arianna Bucci, Elisa Franchino, Alessandra Bianco Prevot, Manuela Lasagna, Domenico Antonio Luca De, Humberto Osvaldo Hernández Sac, Israel Macario and Edwin Otoniel Sac Escobar	
<b>51</b>	<b>Modeling Saltwater Intrusion at an Agricultural Coastal Area Using Geophysical Methods and the FEFLOW Model . . . . .</b>	<b>249</b>
	Soupios Pantelis, Kourgialas Nektarios, Dokou Zoi, Karatzas George, Panagopoulos George, Vafidis Antonis and Manoutsoglou Emmanuil	

<b>52</b>	<b>Distribution, Discharge, Geological and Physical–Chemical Features of the Springs in the Turin Province (Piedmont, NW Italy) . . . . .</b>	<b>253</b>
	Domenico Antonio De Luca, Luciano Masciocco, Caterina Caviglia, Enrico Destefanis, Maria Gabriella Forno, Simona Fratianni, Marco Gattiglio, Franco Gianotti, Manuela Lasagna, Vincenzo Latagliata and Giannetto Massazza	
<b>53</b>	<b>Effects of Preferential Flow Pathways on Groundwater Resources Rainfall Supply . . . . .</b>	<b>257</b>
	Annalisa Galeandro and Vincenzo Simeone	
<b>54</b>	<b>Distributed Simulation of Daily Stream-Aquifer Exchanged Fluxes in the Seine River Basin at the Regional Scale . . . . .</b>	<b>261</b>
	B. Labarthe, A. Pryet, F. Saleh, C. de Fouquet, M. Akopian and N. Flipo	
<b>55</b>	<b>A Numerical Groundwater Model for the Construction of a Planned Pumped-Storage Plant in Blaubeuren, Germany . . . . .</b>	<b>267</b>
	Jie Song, Christoph Neukum, Hans-Joachim Köhler, Sibylle Hennings and Rafiq Azzam	
<b>56</b>	<b>Drainage Network Definition for Low Resolution DEM Obtained from Drainage Network Extracted from High Resolution DEM Using Upscaling Processes . . . . .</b>	<b>271</b>
	Sergio Rosim, Jussara de Oliveira Ortiz, João Ricardo de Freitas Oliveira, Alexandre Copertino Jardim and Eric Silva Abreu	
<b>57</b>	<b>Monitoring Activity at the Middle Bussento Karst System (Cilento Geopark, Southern Italy) . . . . .</b>	<b>275</b>
	Vittorio Bovolín, Albina Cuomo and Domenico Guida	
<b>58</b>	<b>Evolutionary Data-Driven Modelling of Salento Shallow Aquifer Response to Rainfall . . . . .</b>	<b>281</b>
	Angelo Doglioni, Annalisa Galeandro and Vincenzo Simeone	
<b>59</b>	<b>Relationships Between Grain Size Distribution Indexes and Permeability of Sands . . . . .</b>	<b>287</b>
	Emine Mercan Onur and Abdul Shakoor	
<b>60</b>	<b>Assessment of Groundwater Risk of Agrochemicals Based on a Modified DRASTIC Method . . . . .</b>	<b>291</b>
	Ye Zhao, Marina De Maio and Dario Sacco	

## **Part VI Sediment Dynamics and River Management**

<b>61</b>	<b>The Magra River (Italy): Effects of the 25th October 2011 Flood Event and a Preliminary Application of the IDRAIM Framework . . . . .</b>	<b>297</b>
	Laura Nardi and Massimo Rinaldi	
<b>62</b>	<b>IDRAIM: A Methodological Framework for Hydromorphological Analysis and Integrated River Management of Italian Streams . . . . .</b>	<b>301</b>
	Massimo Rinaldi, Nicola Surian, Francesco Comiti, Martina Bussettini, Laura Nardi and Barbara Lastoria	

<b>63</b>	<b>Definition of Strategies for Promoting Sustainable Sediment Management: The Case of the Serchio River (Central Italy)</b> . . . . .	<b>305</b>
	Massimo Rinaldi, Liliana Beatriz Teruggi, Rosaria Angelica Scozzafava and Stefano Sadun	
<b>64</b>	<b>Trajectories of Channel Adjustments of the Toce River (Northern Italy)</b> . . . . .	<b>309</b>
	Massimo Rinaldi, Liliana Beatriz Teruggi, Fabio Colombo and Bibiana Groppelli	
<b>65</b>	<b>Sediment Dynamics and Channel Adjustments Following Torrential Floods in an Upper Alpine Valley (Guil River, Southern French Alps)</b> . . .	<b>313</b>
	Fort Monique, Arnaud-Fassetta Gilles, Bétard François, Cossart Etienne, Madelin Malika, Lissak Candide, Viel Vincent, Bouccara Fanny, Carlier Benoît, Sourdout Grégoire, Tassel Adrien, Geai Marie-Laure, Bletterie Xavier and Charnay Bérengère	
<b>66</b>	<b>On the Morphological Impacts of Gravel Mining: The Case of the Orco River</b> . . . . .	<b>319</b>
	Francesco Brestolani, Solari Luca, Rinaldi Massimo and Lollino Giorgio	
<b>67</b>	<b>A Method for Characterizing the Stream Flow Regime in Europe</b> . . . . .	<b>323</b>
	Bussetini Martina, Percopo Carlo, Lastoria Barbara and Mariani Stefano	
<b>68</b>	<b>Conceptual and Numerical Models Applied on the River Pellice (North Western Italy)</b> . . . . .	<b>327</b>
	Chiara Audisio, Antonio Pasculli and Nicola Sciarra	
<b>69</b>	<b>Process-Based Topographic Analysis and Hydrological Properties in Temperate Mountainous Catchments</b> . . . . .	<b>331</b>
	Hiro Ikemi, Hendra Pachri and Yasuhiro Mitani	
<b>70</b>	<b>Monitoring Sediment Transport During Floods in Tuscany</b> . . . . .	<b>335</b>
	Francalanci Simona, Paris Enio, Solari Luca, Minatti Lorenzo and Giorgio Valentino Federici	
<b>71</b>	<b>Development and Application of a Multi-scale Process-Based Framework for the Hydromorphological Assessment of European Rivers</b> . . . . .	<b>339</b>
	A.M. Gurnell, M. González del Tánago, M. Rinaldi, R. Grabowski, A. Henshaw, M. O'Hare, B. Belletti and A.D. Buijse	
<b>72</b>	<b>Bedload Management of Torrents—Practical Experiences, Simulation Models and Laboratory Investigations to Improve Protection Systems</b> . . . . .	<b>343</b>
	Markus Moser and Gerald Jäger	
<b>73</b>	<b>The Application of the Erosion Potential Method to Alpine Areas: Methodological Improvements and Test Case</b> . . . . .	<b>347</b>
	Luca Milanese, Marco Pilotti and Alberto Clerici	

<b>74</b>	<b>Monitoring Program of Reservoir Bank Erosion at Porto Primavera Dam, Parana River, SP/MS, Brazil</b> . . . . .	<b>351</b>
	A.G. Siqueira, A.A. Azevedo, L.F.S. Dozzi and H. Duarte	
<b>75</b>	<b>Habitat Indices for Rivers: Quantifying the Impact of Hydro-Morphological Alterations on the Fish Community</b> . . . . .	<b>357</b>
	Paolo Vezza, Andrea Goltara, Michele Spairani, Guido Zolezzi, Annunziato Siviglia, Mauro Carolli, Maria Cristina Bruno, Bruno Boz, Daniele Stellan, Claudio Comoglio and Piotr Parasiewicz	
<b>76</b>	<b>Buildup and Breakdown of Sand Dune Barriers in the Drainage Basins of the NW Negev Desert, Israel, During Late Pleistocene to Holocene Climate Changes</b> . . . . .	<b>361</b>
	Ram Ben-David	
<b>77</b>	<b>Analysis of Channel Morphology and Large Wood Characteristics Through Remote Images in the Blanco River After the Eruption of the Chaitén Volcano (Southern Chile)</b> . . . . .	<b>365</b>
	Héctor Ulloa, Lorenzo Picco, Andrés Iroumé, Luca Mao and Carolina Gallo	
<b>78</b>	<b>Sediment Dynamics and Morphology of a Boulder-Bed Ephemeral Stream</b> . . . . .	<b>371</b>
	Billi Paolo	

## **Part VII Modeling of Alluvial Aquifer Systems**

<b>79</b>	<b>Water Table Rising Consecutive to Surface Irrigation in Alluvial Aquifers: Predictive Use of Numerical Modelling</b> . . . . .	<b>379</b>
	Behzad Nasri, Reza Dadmehr and Olivier Fouché	
<b>80</b>	<b>Assessment of Contaminant Migration in Groundwater from an Industrial Development Area, Annaba District, NE Algeria</b> . . . . .	<b>383</b>
	Nabil Bougherira, Azzedine Hani, Larbi Djabri and Sabiha Chouchane	
<b>81</b>	<b>Areal and Vertical Distribution of Nitrate Concentration in Piedmont Plain Aquifers (North-Western Italy)</b> . . . . .	<b>389</b>
	Manuela Lasagna, Elisa Franchino and Domenico Antonio De Luca	
<b>82</b>	<b>The Uprising of Deep Saline Paleo-Waters into the Oltrepò Pavese Aquifer (Northern Italy): Application of Hydro-Chemical and Shallow Geophysical Surveys</b> . . . . .	<b>393</b>
	Giorgio Pilla, Patrizio Torrese and Marica Bersan	
<b>83</b>	<b>Assessment of Environmental Indexes in Alluvial Aquifer Systems</b> . . . . .	<b>399</b>
	Paduano Pasquale and Fabbrocino Silvia	
<b>84</b>	<b>Urban Underground Space Management: An Approach by Indicators for Groundwater Protection</b> . . . . .	<b>405</b>
	Guillaume Attard, Thierry Winiarski, Yvan Rossier and Laurent Eisenlohr	

## Part VIII Remediation of Polluted Aquifers and Subsoils

- 85 Erosion Processes and Water Quality in Caçula Stream Watershed (Ilha Solteira - SP, Brazil) . . . . . 411**  
J.A. Lollo and J.M.C. Vivanco
- 86 Remediation of Oil-Polluted Groundwater Aquifers at Karst Region . . . . . 417**  
N.G. Maksimovich and V.T. Khmurchik
- 87 Environmental Problems Related to the Presence of Arsenic in the Anza Valley (Piedmont, North-Western Italy) . . . . . 421**  
Caterina Caviglia, Enrico Destefanis, Luciano Masciocco and D. Re
- 88 A Study About Hydrogeological Issues Affecting the Sizing of Hydraulic Barriers for Groundwater Remediation . . . . . 425**  
Daniela Marengo and Domenico Antonio De Luca

## Part IX River Basin Management and Floods: Theories and Good Practices in Engineering and Geology

- 89 Natural Hazard Analysis in the Aspio Equipped Basin . . . . . 431**  
A. Tazioli, A. Mattioli, T. Nanni and P.M. Vivalda
- 90 Risk Management in Bavarian Alpine Torrents: A Framework for Flood Risk Quantification Accounting for Subscenarios. . . . . 437**  
Olga Špačková, Andreas Rimböck and Daniel Straub
- 91 Flood Directive Implementation Methodology at Different Scales: Preliminary Results. . . . . 443**  
Bianco Gennaro, Femia Salvatore Martino, Franzi Luca, Bruno Alessandro and Foglino Sara
- 92 Structural Residual Risk Due to Levee Failures in Flood Mapping . . . . . 449**  
Ranzi Roberto, Stefano Barontini and Michele Ferri
- 93 Combination of Hydrological Modelling and Gis for Runoff Hydrograph Prediction in Small Urban Catchment . . . . . 453**  
Fares Laouacheria and Rachid Mansouri
- 94 Assessment of Flood Risk in Kniss Wadi Catchment in Urbain Area Algiers—Algeria . . . . . 459**  
G. Cheikh Iounis, J.L. Chatelain, O. Mimouni and D. Machane
- 95 Evaluation and Management of the Risk of Flooding River Bank . . . . . 463**  
Davit Kereselidze, Lia Matchavariani, Vaja Trapaidze, Lamzira Lagidze, Gamarli Dokhnadze, Nino Tkhilava and Nino Gokhelaashvili

## Part X Sediment, Morphodynamics and Flood Risk

- 96 A Mathematical Model of Reservoir and River Bank Deformations in Permafrost Regions Under Simultaneous Effect of the Waves and Warming . . . . . 469**  
Debolskaya Elena
- 97 Assessment of Morphodynamical Reactions on Redynamisation Measures - Case Study Upper Rhine . . . . . 473**  
Laura Nardi, Katinka Koll and Andreas Dittrich
- 98 Analysis of Sediment Transport from Recorded Signals of Sediments in a Gravel-Bed River: Role of Sediment Availability . . . . . 477**  
Eric Travaglini, Eric Bardou, Christophe Ancey and Patricio Bohorquez
- 99 Designing Flood Mitigation Alternatives in Coastal Northern California: Hydraulic Modeling and Geomorphic Analysis of Sedimentation and Fish Habitat. . . . . 483**  
Matthew O'Connor and Jeremy Kobor
- 100 Scouring in the Po river Basin at the Upper Plain (Italy) . . . . . 489**  
Franca Maraga, Laura Turconi, Luisa Pellegrini and Virgilio Anselmo

## Part XI Water Basins Management in Semi-Arid Regions

- 101 Efficiency of Sand Clay Liners in Controlling Subsurface Water Flow. . . . . 497**  
Muawia A. Dafalla
- 102 Trend Analysis of Annual and Seasonal Air Temperature Time Series in Southern Italy. . . . . 501**  
Antonia Longobardi and Manuela Mautone
- 103 Shallow Groundwater Irrigation in Tigray, Northern Ethiopia: Practices and Issues . . . . . 505**  
Kifle Woldearegay and Frank Van Steenberg
- 104 Susceptibility of Rocky Desertification Based on Analytical Hierarchy Process and Certainty Factor (AHP-CF) Method: A Case from Changshun County, Guizhou Province, SW of China . . . . . 511**  
Chunling Liu, Liqiang Tong and Shengwen Qi
- 105 Water and Soil Conservation for Improved Crop Productivity and Water Household in Sahelian Conditions . . . . . 519**  
Jasmien C.J. Wildemeersch, Maman Garba, Mahamane Sabiou and Wim Cornelis
- 106 Base Cartography for Land and Water Management in Sub-Saharan Africa . . . . . 525**  
Irene Angeluccetti, Sara Steffenino and Paolo Vezza

<b>107</b>	<b>Designing and Building Gabion Check Dams in Burkina Faso . . . . .</b>	<b>529</b>
	Stefania Grimaldi, Paolo Vezza, Irene Angeluccetti, Velio Coviello and Alain Magloire Koussoubé Kô	
<b>108</b>	<b>A Semi-quantitative Model to Assess the Costeffectiveness of Soil and Water Conservation Measures . . . . .</b>	<b>535</b>
	Paolo Vezza, Velio Coviello, Stefania Grimaldi and Irene Angeluccetti	
<b>109</b>	<b>Monitoring Soil Erosion and Reservoir Sedimentation in Semi-arid Region Through Remote Sensed SAR Data: A Case Study in Yatenga Region, Burkina Faso . . . . .</b>	<b>539</b>
	Donato Amitrano, Fabio Ciervo, Pierluigi Di Bianco, Gerardo Di Martino, Antonio Iodice, Francesco Mitidieri, Daniele Riccio, Giuseppe Ruello, Maria Nicolina Papa and Youssouf Koussoubé	
<b>110</b>	<b>Sediment Yield Estimate of River Basin Using SWAT Model in Semi-arid Region of Peninsular India. . . . .</b>	<b>543</b>
	Abhijit M. Zende and R. Nagarajan	
 <b>Part XII Water Resource Assessment in Karst and Fractured Aquifers</b>		
<b>111</b>	<b>Comparison of Resistive Hydraulic Properties of Granitoids, Metamorphic and Carbonate Rocks from Specific Discharge Data . . . . .</b>	<b>549</b>
	Peter Malík, Radovan Černák and Jaromír Švasta	
<b>112</b>	<b>Freshwater Submarine Springs: Role of a Dam in Submerged Karst—Investigations Measurement and Works in Subterranean Rivers of Cassis—France) from 1964 to 2013 . . . . .</b>	<b>557</b>
	Bernard Tardieu and Louis Potié	
<b>113</b>	<b>Characterizing the Recharge of Fractured Aquifers: A Case Study in a Flysch Rock Mass of the Northern Apennines (Italy) . . . . .</b>	<b>563</b>
	Federico Cervi, Alessandro Corsini, Marco Doveri, Mario Mussi, Francesco Ronchetti and Alberto Tazioli	
<b>114</b>	<b>Assessing Karst Aquifers in Switzerland: The 2010/2013 Swisskarst Project. . . . .</b>	<b>569</b>
	Arnauld Malard, Pierre-Yves Jeannin, Eric Weber and Jonathan Vouillamoz	
<b>115</b>	<b>Water Resource Assessment in Karst and Fractured Aquifers of Termini Imerese-Trabia Mts. (Northern Central Sicily, Italy) . . . . .</b>	<b>573</b>
	Antonio Contino, Salvatore Monteleone and Maria Sabatino	
<b>116</b>	<b>Groundwater Distribution and Fluoride Content in the West Arsi Zone of the Oromia Region (Ethiopia) . . . . .</b>	<b>579</b>
	Sabrina Bonetto, Domenico Antonio De Luca, Manuela Lasagna and Rachele Lodi	
<b>117</b>	<b>Impact of Vertical Geological Structure and Water Table Depletion on Indian Crystalline Aquifers. . . . .</b>	<b>583</b>
	A. Boisson, J.C. Maréchal, J. Perrin, B. Dewandel and S. Ahmed	

<b>118</b>	<b>Characterization of a Heterogeneous Aquifer. (The Poitiers Hydrogeological Experimental Site, France)</b> . . . . .	<b>589</b>
	Pasquale Greco, Jean Luc Mari and Gilles Porel	
<b>119</b>	<b>Computing the Water Inflows Discharge and Assessing the Impacts of Tunnels Drilled in Hard Rocks: The A89 (France) Motorway Case Study</b> . . . . .	<b>595</b>
	Patrick Lachassagne, Jean-Christophe Maréchal, Patrick Bienfait, Frédéric Lacquement and Claudine Lamotte	
 <b>Part XIII What is Expected from the Emerging Monitoring Technologies for the Surface Hydrological Processes Analysis at Catchment Scale</b>		
<b>120</b>	<b>Hydraulic Model Calibration Using Remote-Sensing Data: The Usefulness of ERS-2 and ENVISAT Water Surface Levels</b> . . . . .	<b>603</b>
	Domeneghetti Alessio, Castellarin Attilio and Armando Brath	
<b>121</b>	<b>Integration of MODIS and Radar Altimetry Data for River Discharge Estimation from Space</b> . . . . .	<b>607</b>
	A. Tarpanelli, L. Brocca, S. Barbetta, T. Lacava, M. Faruolo and T. Moramarco	
<b>122</b>	<b>Assessment of Shallow Interflow Velocities in Alpine Catchments for the Improvement of Hydrological Modelling</b> . . . . .	<b>611</b>
	Gerhard Markart, Alexander Römer, Gerhard Bieber, Herbert Pirkel, Klaus Klebinder, Christine Hörfarer, Anna Ita, Birgit Jochum, Bernhard Kohl and Klaus Motschka	
<b>123</b>	<b>Continuous Discharge Monitoring Using Non-contact Methods for Velocity Measurements: Uncertainty Analysis</b> . . . . .	<b>617</b>
	G. Corato, T. Moramarco, T. Tucciarelli and J. W. Fulton	
<b>124</b>	<b>Comparison of Different Satellite Rainfall Products Over the Italian Territory</b> . . . . .	<b>623</b>
	Luca Ciabatta, Luca Brocca, Tommaso Moramarco and Wolfgang Wagner	
<b>125</b>	<b>Topographic Threshold to Trigger Gully Erosion in a Tropical Region—Brazil</b> . . . . .	<b>627</b>
	T.P. Araujo and O.J. Pejon	
<b>126</b>	<b>Integration of Optical and Passive Microwave Satellite Data for Flooded Area Detection and Monitoring</b> . . . . .	<b>631</b>
	Teodosio Lacava, Luca Brocca, Irina Coviello, Mariapia Faruolo, Nicola Pergola and Valerio Tramutoli	
<b>127</b>	<b>Modeled vs. SMOS L2 Soil Moisture in the Central Part of the Duero Basin (Spain)</b> . . . . .	<b>637</b>
	Ángela Gumuzzio, Nilda Sánchez and José Martínez-Fernández	

---

<b>128</b>	<b>An Entropy Based Velocity Profile for Steady Flows with Large-Scale Roughness</b> .....	<b>641</b>
	M. Greco and D. Mirauda	
<b>129</b>	<b>CatOne, Multitask Unmanned Surface Vessel for Hydro-Geological and Environment Surveys</b> .....	<b>647</b>
	Pierluigi Duranti	
	<b>Author Index</b> .....	<b>653</b>

Engineering Geology for Society and Territory - Volume  
3

River Basins, Reservoir Sedimentation and Water  
Resources

Lollino, G.; Arattano, M.; Rinaldi, M.; Giustolisi, O.;  
Marechal, J.-C.; Grant, G.E. (Eds.)

2015, XXV, 657 p. 390 illus., 324 illus. in color.,  
Hardcover

ISBN: 978-3-319-09053-5
