

Contents

Part I Capacity Crisis

1 Disasters and Capacity Development Mirage	3
1.1 Growing Disaster Impacts.....	4
1.2 Country-Level Disaster Impacts and Capacity Building Programs	8
1.3 Capacity Development Mirage	14
1.4 Breaking the Capacity Development Mirage.....	16
References.....	17
2 Capacity Crisis After the 2001 Earthquake in Gujarat, India	19
2.1 Why Focus on the 2001 Earthquake of Gujarat?	20
2.1.1 India: Increasing Population and Disaster Impacts.....	20
2.1.2 Gujarat: One of India's Most Progressive States	22
2.1.3 Kutch: Historically Prone to Earthquakes.....	22
2.1.4 The 2001 Earthquake in Gujarat	23
2.2 Capacity Crisis and Capacity Building After the 2001 Earthquake	24
2.2.1 Government and Donor Responses.....	24
2.2.2 Design of Capacity Development Project.....	25
2.2.3 Policy and Institutional Changes After the 2001 Earthquake	27
2.2.4 Is Kutch Any Safer than in 2001?	28
References.....	29

Part II Effective Capacity for Managing Disasters

3 Understanding Capacity Development	33
3.1 Definitions and Evolution of the Capacity Development Concept	34
3.2 Capacity Development Approaches	36
3.2.1 Current Capacity Development Tools and Approaches Leading to Development Mirage.....	37
3.2.2 Missing Success Ingredients	42
3.2.3 Conceptual Models	44
3.3 Capacity Development Process.....	47
3.4 Capacity Development: From a Buzzword to a Comprehensive Theory of Reform.....	49
References	50
4 Capacity for Managing Disasters	53
4.1 The Need for Capacity Development in Disaster Risk Management	54
4.2 Key Terms and Concepts.....	55
4.2.1 Disaster	56
4.2.2 Disaster Risk	56
4.2.3 Hazard	56
4.2.4 Vulnerability.....	57
4.2.5 Exposure	58
4.2.6 Disaster Risk Management	59
4.2.7 Resilience.....	59
4.3 Historical Evolution and Future Trend.....	60
4.3.1 Historical Evolution	60
4.3.2 Future Trends: Where Is the Field Heading?	61
4.4 Disaster Research Areas.....	65
4.4.1 Research in the USA.....	66
4.4.2 Research in Developing Countries.....	69
4.5 Toward a Theory for Understanding Disaster Risk Management.....	72
References	73
5 Rethinking the Capacity Development Model.....	77
5.1 A Conceptual Framework of Capacity Development	78
5.1.1 Top-Down Planning	78
5.1.2 Project Design.....	80
5.1.3 Capacity Development.....	80
5.1.4 Bottom-Up Involvement	81
5.2 Who's and What Capacity?.....	81
5.3 Capacity Development Model as It Applies to Disaster Risk Management	84

5.4	PeDJoLA: A Simplified Model of Capacity Development in Disaster Risk Management.....	85
5.4.1	Perception of Risk and Capacity.....	85
5.4.2	Intervention Design.....	86
5.4.3	Capacity Development Implementation.....	87
5.4.4	Role of Agents.....	89
5.4.5	System and Environment	89
5.5	Capability Trap or Capacity Development Risk/Resilience	90
	References.....	92
6	Revisiting Gujarat: Is There a Capability Trap?	95
6.1	Assessing Capacity Development Under GEERP	96
6.2	Research Methodology: Focusing on Three Towns in Kutch	100
6.2.1	The Role of Environment and Disaster Risk in the Study Area	100
6.3	Hazard Profile	102
6.3.1	Earthquake Hazard.....	102
6.3.2	Cyclone Hazard.....	103
6.3.3	Flood Hazard.....	103
6.4	Vulnerability or Socioeconomic Factors.....	104
6.4.1	Demography and Economic Development	104
6.4.2	Public Administration, Democratic Decentralization, and Politics	106
6.4.3	Disaster Management Within the State Administrative Structure	110
6.4.4	Politics.....	112
6.4.5	Community Structure.....	113
6.4.6	Built Environment and Urban Development.....	114
6.5	Findings.....	116
6.5.1	Risk and Capacity Perception	116
6.5.2	Forms of Capacity Development	121
6.5.3	Mechanisms for Formulating and Monitoring Capacity Development Interventions	125
6.5.4	Capacity Development Under the GEERP	134
6.5.5	Sustainability of Capacity Development Efforts.....	151
6.5.6	Role of Agents and Factors Inhibiting Capacity Development.....	159
6.6	Capability Trap at Local Level.....	165
	References.....	167
7	Breaking the Capability Trap	169
7.1	Capacity Development After the 2001 Earthquake in Gujarat: An Overview of Findings from Gujarat Towns.....	170
7.2	Reflecting on the PeDJoLA Model	172
7.2.1	Disaster Risk, Current Capacity, and Capacity Deficit Perception.....	172

7.2.2	Intervention Design.....	173
7.2.3	Capacity Development and Implementation Process.....	174
7.2.4	Role of Agents.....	174
7.2.5	Role of Environment and System	175
7.2.6	Current Capacity, Capability Trap, Risk, and Vulnerability	175
7.3	What Can Literature Tell About the Findings from the Gujarat Towns?.....	177
7.4	Breaking the Capability Trap	183
7.4.1	Achieving Community-Centered Disaster Risk Management	183
7.4.2	Designing Top-Down Projects Differently	189
7.5	International Experience in Developing Effective Disaster Risk Management Capacity	190
7.6	What Can Be Done Differently? A Program for Gujarat Towns	193
7.6.1	Enhancing Government Capacity	196
7.6.2	Developing Community Capacity.....	196
7.6.3	Achieving Joint Perception-Based Learning.....	197
	References.....	198
8	From Capability Trap to Effective Disaster Risk Management Capacity: What Can Governments, Communities, and Donors Do?	201
8.1	Disaster Impacts Will Increase.....	202
8.2	Effective Capacity Can Be Developed for Reducing Disaster Impacts.....	202
8.2.1	Actors and Elements of Effective Capacity for Disaster Risk Management.....	203
8.2.2	Role of Donors.....	204
8.2.3	Ensuring Risk-Sensitive Development.....	205
8.3	Contributions and Remaining Questions	205
8.4	Directions for Future Research	205
	References.....	207
	Appendix: Interview and Survey Sampling.....	209
	Interview Sample	209
	Survey Sample	210
	Index.....	213

The Capacity Crisis in Disaster Risk Management
Why disaster management capacity remains low in
developing countries and what can be done

Tiwari, A.

2015, XVIII, 218 p. 31 illus., 29 illus. in color., Hardcover

ISBN: 978-3-319-09404-5
