

Contents

1	Introduction	1
	Jaeyoung Choi and Gerald Friedland	
2	The Benchmark as a Research Catalyst: Charting the Progress of Geo-prediction for Social Multimedia	5
	Martha Larson, Pascal Kelm, Adam Rae, Claudia Hauff, Bart Thomee, Michele Trevisiol, Jaeyoung Choi, Olivier Van Laere, Steven Schockaert, Gareth J.F. Jones, Pavel Serdyukov, Vanessa Murdock and Gerald Friedland	
3	Large-Scale Image Geolocalization	41
	James Hays and Alexei A. Efros	
4	Vision-Based Fine-Grained Location Estimation	63
	Heng Liu, Tao Mei, Houqiang Li and Jiebo Luo	
5	Image-Based Positioning of Mobile Devices in Indoor Environments	85
	Jason Zhi Liang, Nicholas Corso, Eric Turner and Avidesh Zakhor	
6	Application of Large-Scale Classification Techniques for Simple Location Estimation Experiments	101
	Howard Lei, Jaeyoung Choi and Gerald Friedland	
7	Collaborative Multimodal Location Estimation of Consumer Media	115
	Venkatesan Ekambaram, Kannan Ramchandran, Jaeyoung Choi and Gerald Friedland	

8 Georeferencing Flickr Resources Based on Multimodal Features 127
Pascal Kelm, Sebastian Schmiedeke, Steven Schockaert,
Thomas Sikora, Michele Trevisiol and Olivier Van Laere

9 Human Versus Machine: Establishing a Human Baseline for Multimodal Location Estimation 153
Jaeyoung Choi, Howard Lei, Venkatesan Ekambaram,
Pascal Kelm, Luke Gottlieb, Thomas Sikora,
Kannan Ramchandran and Gerald Friedland

10 Personalized Travel Navigation and Photo-Shooting Navigation Using Large-Scale Geotags 173
T. Yamasaki, A. Gallagher, T. Chen and K. Aizawa
