

# Contents

<b>1</b>	<b>Basics in ESD Protection of Radio Frequency Integrated Circuits.....</b>	<b>1</b>
1.1	ESD Models and Test Setup.....	2
1.2	On-Chip ESD Design Concepts and Design Windows.....	5
1.2.1	Characteristics of ESD Protection Devices.....	6
1.2.2	Typical On-Chip ESD Protection Devices for Radio Frequency Integrated Circuits.....	8
1.3	Special Challenge of ESD Protection in Radio Frequency Integrated Circuits.....	10
1.4	Summary .....	11
<b>2</b>	<b>On-Chip Protection Solution for Radio Frequency Integrated Circuits in Standard CMOS Process.....</b>	<b>13</b>
2.1	Introduction.....	13
2.2	ESD Protection Strategy of CMOS RF ICs .....	14
2.3	High-Robustness and Low-Capacitance Silicon-Controlled Rectifier for Radio Frequency Protection .....	16
2.3.1	Device Structure.....	16
2.3.2	Measurements and Discussion .....	18
2.4	Summary .....	21
<b>3</b>	<b>Design of SiGe SCR Devices for Radio Frequency Integrated Circuits in SiGe BiCMOS Process.....</b>	<b>23</b>
3.1	Introduction of SCR Device Technology.....	23
3.2	An Improved Vertical SCR-Based ESD Protection Design .....	26
3.2.1	Device Structure.....	26
3.2.2	Measurements and Discussion .....	27
3.3	Optimization of ESD Protection for High Speed SiGe Applications.....	36
3.3.1	Capacitance Analysis .....	36
3.3.2	ESD Devices for On-chip RF Integration .....	38
3.3.3	ESD Protection in RF PADS Configuration: Schematic Applications.....	38

3.3.4	ESD Protection in Reference RF Circuit Schemes Using SiGe SCR.....	38
3.4	Summary .....	42
<b>4</b>	<b>On-Chip Radio Frequency ESD Protection Solution in GaAs pHEMT Process .....</b>	<b>43</b>
4.1	Failure Analysis of Conventional Single-Gate pHEMT-Based ESD Protection Clamp .....	43
4.1.1	pHEMT Clamp Technology Computer-Aided Design (TCAD) Setup for Failure Analysis .....	43
4.1.2	Snapback Behavior.....	47
4.1.3	Postsnapback Saturation Behavior.....	49
4.1.4	Thermal Failure Behavior .....	54
4.2	Multigate E-Mode pHEMT-Based ESD Protection Clamp .....	57
4.2.1	Device Structure.....	59
4.2.2	Measurements and Discussion .....	61
4.3	Multigate D-Mode pHEMT-Based ESD Protection Clamp.....	70
4.3.1	Device Structure.....	71
4.3.2	Measurements and Discussion .....	73
4.4	Drain-Less pHEMT-Based ESD Protection Clamp .....	76
4.4.1	Device Structure.....	76
4.4.2	Measurements and Discussion .....	78
4.5	Summary .....	80
<b>5</b>	<b>Conclusion .....</b>	<b>81</b>
	<b>References .....</b>	<b>83</b>

On-Chip Electro-Static Discharge (ESD) Protection for  
Radio-Frequency Integrated Circuits

Cui, Q.; Liou, J.J.; Hajjar, J.-J.; Salcedo, J.; Zhou, Y.;  
Srivatsan, P.

2015, XVII, 86 p. 59 illus., 42 illus. in color., Hardcover  
ISBN: 978-3-319-10818-6
