

# Contents

<b>Investigation of Sonar Stabilisation Method for Improved Seafloor Image Quality</b> . . . . .	1
Arūnas Andziulis, Tomas Lenkauskas, Tomas Egllynas, Miroslav Vozňák and Sergej Jakovlev	
<b>Global Land Cover Classification Based on Microwave Polarization and Gradient Ratio (MPGR)</b> . . . . .	17
Mukesh Boori and Ralph Ferraro	
<b>Optimal Path Problem with Possibilistic Weights</b> . . . . .	39
Jan Caha and Jiří Dvorský	
<b>Optimal Placement of the Bike Rental Stations and Their Capacities in Olomouc</b> . . . . .	51
Zdena Dobešová and Radek Hýbner	
<b>Detecting Spatial and Temporal Route Information of GPS Traces</b> . . .	61
Tao Feng and Harry J.P. Timmermans	
<b>Impact of Particular Indicators of Urban Development of Cities in the Czech Republic on Average Road Traffic Intensity</b> . . .	77
Vladimír Holubec and Lena Halounová	
<b>Time of Day Dependency of Public Transport Accessibility in the Czech Republic</b> . . . . .	93
Jiří Horák, Igor Ivan and David Fojtík	
<b>Automatic Generation of 3D Building Models from Point Clouds</b> . . . .	109
Vojtěch Hron and Lena Halounová	

<b>Towards a Solution for the Public Web-Based GIS Monitoring and Alerting System . . . . .</b>	<b>121</b>
Jitka Hübnerová	
<b>Demand and Supply of Transport Connections for Commuting in the Czech Republic . . . . .</b>	<b>137</b>
Igor Ivan and Jiří Horák	
<b>Train Platforming Problem . . . . .</b>	<b>149</b>
Ludmila Jánošíková and Michal Krempel	
<b>Examples of the Implementation of Fuzzy Models in Tourism in the South Moravian Region . . . . .</b>	<b>161</b>
Pavel Kolisko	
<b>Photovoltaics as an Element of Intelligent Transport System Development . . . . .</b>	<b>187</b>
Krystyna Kurowska, Hubert Kryszk and Ewa Kietlińska	
<b>Urban Heartbeats (Daily Cycle of Public Transport Intensity) . . . . .</b>	<b>201</b>
Ivica Paulovičová, Slavomír Ondoš, Lukáš Belušák and Dagmar Kusendová	
<b>Improving Geolocation by Combining GPS with Image Analysis . . . . .</b>	<b>213</b>
Fábio Pinho, Alexandre Carvalho and Rui Carreira	
<b>The Impact of Data Aggregation on Potential Accessibility Values . . . . .</b>	<b>227</b>
Marcin Stepniak and Piotr Rosik	
<b>The Accuracy of Digital Models for Road Design . . . . .</b>	<b>241</b>
Václav Šafář and Zdeněk Šmejkal	
<b>GPS Data and Car Drivers' Parking Search Behavior in the City of Turnhout, Belgium . . . . .</b>	<b>247</b>
Peter van der Waerden, Harry Timmermans and Lies Van Hove	
<b>Mobile Application for Acquiring Geodata on Public Transport Network . . . . .</b>	<b>257</b>
Lenka Zajíčková	
<b>Author Index . . . . .</b>	<b>271</b>

Geoinformatics for Intelligent Transportation

Ivan, I.; Benenson, I.; Jiang, B.; Horák, J.; Haworth, J.;

Inspektor, T. (Eds.)

2015, XIX, 272 p. 111 illus., 86 illus. in color., Hardcover

ISBN: 978-3-319-11462-0
