
Contents

1 Terminology	1
Measurand	1
True Value	1
True Value and Uncertainty Interval	2
Confidence, Significance and Coverage Factor (k-factor)	2
Type A and Type B Uncertainties	3
Systematic and Random Uncertainties	3
Is it an Error or an Uncertainty?	4
Elemental Uncertainties	5
Calibration	5
Measured or Calculated Quantities?	6
Propagation of Uncertainty	7
Standard Uncertainty and Expanded Uncertainty	7
Root Sum of the Squares (RSS)	7
The Big Picture	8
2 Type A and Type B Elemental Uncertainties	9
Random Uncertainty	9
Repeatable, or Systematic, Uncertainty	10
Type A and Type B Elemental Uncertainty	11
Sources of Elemental Uncertainty	13
Accuracy—Pandora’s Box?	17
Final reminder	18
3 Standard Uncertainty of a Measurement	19
Finding the Standard Uncertainty when an Uncertainty Is Quoted at a Certain Level of Confidence	20
Finding the Standard Uncertainty when an Elemental Uncertainty Is Given as a Standard Deviation with No Information About the Sample Size	22
Finding the Standard Uncertainty when the Uncertainty Is Given as a Standard Deviation and the Sample Size Is also Given	22
Finding the Standard Uncertainty when the Elemental Uncertainty has a Known Statistical Distribution	25

Combining Several Standard Uncertainties to find the Standard Uncertainty for a Single Measured Quantity	29
4 Expanded Uncertainty of a Measurement and an Uncertainty Budget for a Single Measurement	33
Expanded Uncertainty, U	34
Example	35
Changing the Level of Confidence	35
An Uncertainty Budget	36
5 Propagation of Uncertainty & An Uncertainty Budget Example	39
General Principles	41
Absolute and Relative Uncertainty	43
Uncertainty Budget—How to Use the Uncertainty Analysis to Improve the Accuracy of a Measurement Process	46
Uncertainty Budget Example: Radiation Heat Transfer	47
Conclusions	51
Earlier Examples Revisited	51
6 Sensitivity by Perturbation	55
Returning to the CNC Cooling Fluid Problem	57
Case Study	61
A Fully Worked Example Developing the Uncertainty Analysis for a Process, Including a Discussion of Uncertainty Budgets	61
The Big Picture	62
Description of the Experiment to Measure Viscosity	63
Measurements	65
Uncertainty Analysis	65
Transducer Uncertainty	66
Summary of Transducer Standard Uncertainties	70
Uncertainty of Measurement	70
Propagation of Uncertainty	77
Uncertainty Budgets	79
Uncertainty Budget Summary	85
Appendix	87
The Mathematics of Resolution and Truncation	87
Derivation of the Standard Uncertainty When Using the Full-Resolution	89
Derivation of the Standard Uncertainty When Using the Half-Resolution	90
Derivation of the Standard Uncertainty When Values Are Truncated	91
Truncation with Error Adjustment	93
The Standard Uncertainty for an Analog-to-Digital Converter	94
CASE STUDY:	95
Appendix: The Mathematics of Resolution and Truncation	95

Doubt-Free Uncertainty In Measurement

An Introduction for Engineers and Students

Ratcliffe, C.P.; Ratcliffe, B.

2015, VIII, 95 p. 12 illus., 9 illus. in color., Hardcover

ISBN: 978-3-319-12062-1
