

Contents

1	Introduction to the Current State of Satellite Precipitation Products	1
1.1	The Importance of Precipitation in Water Resources	1
1.2	Precipitation Observation.....	2
1.3	Satellite-based Precipitation Estimation	2
1.4	Research Motivation	3
1.5	Objectives of this Dissertation	4
1.6	Dissertation Outline	4
	References.....	5
2	False Alarm in Satellite Precipitation Data	7
	References.....	11
3	Satellite Observations	13
3.1	MODIS.....	13
3.2	CloudSat.....	16
	References.....	20
4	Reducing False Rain in Satellite Precipitation Products Using Cloudsat Cloud Classification Maps and Modis Multi-spectral Images.....	21
4.1	The Role of Multi-spectral Data in Satellite Precipitation Algorithms	21
4.2	Satellite Data.....	23
4.3	Methodology.....	23
4.4	Classification.....	26
4.5	Training Data Set	27
4.6	Application of the Model on Precipitation Events.....	28
4.7	Results and Discussions.....	28
	References.....	30

5	Integration of CloudSat Precipitation Profile in Reduction of False Rain	33
5.1	Classification.....	33
5.2	Satellite Observations	33
5.3	Training Data Set	34
5.4	Application of the Model on Precipitation Events.....	35
5.5	Results and Discussions.....	35
5.6	Case Study	37
5.7	Conclusion	39
	References.....	41
6	Cloud Classification and its Application in Reducing False Rain	43
6.1	Introduction.....	43
6.2	MODIS Cloud Mask.....	44
6.3	Image Classification Using Self Organizing Maps.....	44
6.4	Data Pre-processing	46
6.5	Training and Validation Datasets, Summer Season	47
6.6	Training and Validation Datasets, the Winter Season	48
6.7	SOFM Model for Summer Season.....	52
6.8	Validation of Cloud Classification Model, Summertime	55
6.9	SOFM Model for the Winter Season	56
6.10	Validation of Cloud Classification Model, the Winter Season.....	61
6.11	Conclusion	61
	References.....	62
7	Summary and Conclusions.....	65
7.1	Future Work	67

Improving Infrared-Based Precipitation Retrieval
Algorithms Using Multi-Spectral Satellite Imagery

Nasrollahi, N.

2015, XXI, 68 p. 41 illus., 38 illus. in color., Hardcover

ISBN: 978-3-319-12080-5
