<b>Estimation and Calibration of Lévy Models via Fourier Methods .....</b>	<b>1</b>
Denis Belomestny and Markus Reiß	
1 Introduction .....	2
2 Lévy and Related Processes .....	4
2.1 Lévy Processes .....	4
2.2 Affine Processes .....	5
2.3 Time-Changed Lévy Processes .....	7
3 Empirical Characteristic Functions and Processes .....	7
4 Spectral Estimation of the Lévy Triplet in the Finite Intensity Case .....	11
4.1 Basic Ideas .....	11
4.2 Error Decomposition .....	14
4.3 Minimax Upper Bounds .....	18
5 Rate Optimality for the Triplet Estimation .....	20
5.1 A General Recipe for Lower Bound Proofs .....	20
5.2 Lower Bound for Estimating the Triplet .....	24
6 Extension to the Infinite Intensity Case .....	27
6.1 Performance of the Finite Intensity Estimator .....	28
6.2 Spectral Estimation for General Lévy Measures .....	30
7 Estimating the Blumenthal-Gettoor Index .....	34
7.1 Setup .....	35
7.2 Minimax Upper Bounds .....	37
7.3 Minimax Lower Bounds .....	40
8 Spectral Estimation of Time-Changed Lévy Processes .....	42
8.1 Setting .....	42
8.2 Specification Analysis .....	44
8.3 Main Ideas .....	46
8.4 Algorithm .....	47
8.5 Asymptotic Analysis .....	48
8.6 Simulation Study .....	55

9	Spectral Calibration from Option Data .....	58
9.1	The Exponential Lévy Model and Option Prices .....	58
9.2	The Observations .....	60
9.3	The Estimation Method .....	61
9.4	A Numerical Example .....	64
9.5	Real Data: DAX Options .....	65
9.6	Risk Bounds .....	69
10	Open Ends .....	72
10.1	Multi- and High-Dimensional Spectral Inference .....	72
10.2	Spectral Estimation of Affine Processes .....	73
	References .....	74
	<b>Adaptive Estimation for Lévy Processes</b> .....	77
	Fabienne Comte and Valentine Genon-Catalot	
1	Introduction .....	77
2	Notations and Preliminary Assumptions .....	78
2.1	Pure Jump Case .....	80
2.2	Case of No Gaussian Component .....	80
2.3	General Case .....	81
3	Moment and Small Sample Properties .....	82
4	Adaptive Estimation in the Pure Jump Case .....	86
4.1	Deconvolution Approach .....	87
4.2	Estimation on a Compact Set .....	105
4.3	Kernel Estimators .....	117
5	Adaptive Estimation with No Gaussian Component .....	128
5.1	Deconvolution Approach .....	128
5.2	Projection and Kernel .....	135
6	Adaptive Estimation in the General Case .....	135
7	Drift and Gaussian Component Estimation .....	138
7.1	Empirical Means .....	138
7.2	Estimation of the Gaussian Component Parameter with Power Variations .....	139
8	Rates of Convergence on Examples .....	141
8.1	Pure-Jump Case .....	141
8.2	General Case .....	145
9	Simulations .....	147
9.1	Simulations in the Pure Jump Case .....	147
9.2	General Case and Comparisons .....	148
10	Compound Poisson Processes .....	154
10.1	Parameter Estimation .....	156
10.2	Estimation of the $m$ -th Convolution Power of a Density from a $n$ -sample .....	160
10.3	Estimation of the Jump Density .....	162
10.4	Simulations .....	171

11	Bibliographic Comments and Concluding Remarks .....	172
	Appendix .....	173
	References .....	174
	<b>Parametric Estimation of Lévy Processes</b> .....	179
	Hiroki Masuda	
1	Introduction .....	179
2	Classical Maximum-Likelihood Approach .....	183
2.1	Local Asymptotics for Continuous-Time and Low-Frequency Sampling .....	183
2.2	Local Asymptotics for High-Frequency Sampling .....	190
2.3	Uniform Asymptotic Normality of MLE with Non-degenerate Fisher Information .....	197
3	Estimation of Stable Lévy Process .....	214
3.1	Some Preliminaries .....	214
3.2	LAN with Singular Fisher Information: Symmetric Jumps .....	217
3.3	Symmetric Lévy Measure .....	221
3.4	Skewed Lévy Measure with Possibly Time-Varying Scale .....	245
3.5	Remark on Estimation of General Stable Lévy Process .....	262
3.6	Remark on Locally Stable Lévy Process .....	263
4	Uniform Tail-Probability Estimate of Statistical Random Fields .....	265
4.1	Polynomial Type Large Deviation Inequality .....	266
4.2	Description of a Two-Step Procedure .....	273
4.3	Examples .....	275
5	Concluding Remarks .....	281
	References .....	282

Lévy Matters IV

Estimation for Discretely Observed Lévy Processes

Belomestny, D.; Comte, F.; Genon-Catalot, V.; Masuda, H.; Reiß, M.

2015, XV, 286 p. 21 illus., 14 illus. in color., Softcover

ISBN: 978-3-319-12372-1
