Contents

1 Background 1
1.1 Plasmonic Structures 2
1.1.1 Functional Structures of Natural Species 5
1.1.2 Replication of Biostructures into Functional Materials 6
1.2 Butterfly Scale Structures and Their Applications 8
1.3 Contents of this Book 12
References 12

2 Toward Metallic Butterfly Wing Scales 19
2.1 Introduction 19
2.2 Biotemplate Selection 20
2.3 Cu Scale Replicas Prepared via H_2 Reduction Under High Temperatures 24
2.3.1 Sample Preparation 25
2.3.2 Characterizations 25
2.4 Ag Scale Replicas Prepared via Photoreduction Under Mild Temperatures 28
2.4.1 Sample Preparation 28
2.4.2 Formation Mechanisms 28
2.4.3 Characterizations 30
2.5 Summary 33
References 34

3 Metal Scale Replicas Prepared via Electroless Deposition 37
3.1 Introduction 37
3.2 Sample Preparation 38
3.3 Replication Mechanisms 40
3.3.1 FTIR Analyses on Original Butterfly Wings Before and After Pretreatments 40
3.3.2 Surface Treatment Using Au Nanoparticles 42
3.3.3 Removal of Biotemplates 44

3.4 Characterizations on as-Prepared Metal Replicas 45
3.4.1 Morphologies 45
3.4.2 Phases 49
3.5 Summary 52
References 52

4 Surface-Enhanced Raman Scattering (SERS) Performance of Metal Scale Replicas 55
4.1 Introduction 55
4.2 Sample Preparation for SERS Detections 56
4.3 SERS Performance of Ag Replicas with Various Structures 58
4.4 SERS Properties of Au Butterfly Wing Scales with Ordered Structures 62
4.5 Summary 66
References 66

5 Surface-Enhanced Raman Scattering (SERS) Mechanisms of Metal Scale Replicas 69
5.1 Introduction 69
5.2 SERS Performance of Cu Butterfly Wing Scales 71
5.3 Dominant Structural Contributor to SERS Performance 75
5.4 Hotspots in Au Scales 80
5.5 Experimental Verification 83
5.6 Summary 85
References 87

6 Conclusions and Perspectives 89
References 91

Metallic Butterfly Wing Scales
Superstructures with High Surface-Enhancement Properties for Optical Applications
Gu, J.; Zhang, D.; Tan, Y.
2015, VIII, 94 p. 67 illus., 34 illus. in color., Softcover
ISBN: 978-3-319-12534-3
