|----------|------------------------------------------------------------|-----------|
| <b>1</b> | <b>Introduction</b> . . . . .                              | <b>1</b>  |
| <b>2</b> | <b>Survival Mechanisms of Extremophiles</b> . . . . .      | <b>9</b>  |
| 2.1      | Survival and Potential Therapeutic Strategies . . . . .    | 14        |
| 2.1.1    | Ectoine-Mediated Mechanism . . . . .                       | 15        |
| 2.1.2    | Evolutionary Diversity . . . . .                           | 16        |
| 2.1.3    | Increased Catalytic Activity . . . . .                     | 17        |
| 2.1.4    | Amino Acid Accumulation . . . . .                          | 18        |
| 2.1.5    | Aggregation Resistance Strategies . . . . .                | 18        |
| 2.1.6    | Activation of the Nuclear Factor . . . . .                 | 19        |
| 2.1.7    | Resistance to Cell Death . . . . .                         | 19        |
| 2.1.8    | Cellular Compartmentalization . . . . .                    | 20        |
| 2.1.9    | Overexpression of Heat Shock Protein Genes . . . . .       | 22        |
| <b>3</b> | <b>Therapeutic Implications of Extremophiles</b> . . . . . | <b>25</b> |
| 3.1      | Radiation-Resistant Organisms . . . . .                    | 29        |
| 3.2      | Thermophiles . . . . .                                     | 30        |
| 3.3      | Halophiles . . . . .                                       | 31        |
| 3.4      | Acidophiles . . . . .                                      | 32        |
| 3.5      | Mesophiles . . . . .                                       | 33        |
| 3.6      | Psychrophiles . . . . .                                    | 33        |
| 3.7      | Geophiles . . . . .                                        | 34        |
| 3.8      | Barophiles . . . . .                                       | 34        |

**4 Challenges in Advancing Extremophiles for Therapeutic Applications . . . . . 37**

4.1 Isolation and Purification of Extremolytes . . . . . 38

4.2 Systems Biology of Extremophiles . . . . . 39

4.3 Extremophiles Like Other Organisms . . . . . 40

**5 Conclusion . . . . . 43**

**References. . . . . 45**

Extremophiles and Their Applications in Medical  
Processes

Babu, P.; Chandel, A.K.; Singh, O.V.

2015, IX, 54 p. 8 illus. in color., Softcover

ISBN: 978-3-319-12807-8
