

Contents

1	Stochastic Difference Volterra Equations and Some Auxiliary Statements.	1
1.1	Origin of Stochastic Difference Volterra Equations of Neutral Type	1
1.2	A Necessary Condition for Optimality of Control: Statement of the Problem	2
1.3	Auxiliary Definitions and Assertions.	4
1.4	Some Useful Lemmas.	10
2	Optimal Control.	13
2.1	A Necessary Condition for Optimality of Control for Nonlinear System	13
2.1.1	Statement of the Problem	13
2.1.2	Auxiliary Assertions	16
2.1.3	Main Result.	32
2.2	A Linear-Quadratic Problem	35
2.2.1	Synthesis of Optimal Control.	35
2.2.2	Examples	43
3	Successive Approximations to the Optimal Control	57
3.1	Statement of the Problem	57
3.2	Algorithm of Successive Approximations Construction	58
3.3	A Zeroth Approximation	68
3.4	Approximations of Higher Orders.	71
4	Optimal and Quasioptimal Stabilization	79
4.1	Statement of the Linear Quadratic Optimal Stabilization Problem	79
4.1.1	Auxiliary Stability Problem	81
4.1.2	Optimal Control Problem	87
4.1.3	Stability by the Optimal Control.	103

4.2	Quasioptimal Stabilization Problem.	111
4.2.1	Program Control	113
4.2.2	Feedback Control	119
5	Optimal Estimation	127
5.1	Filtering Problem	127
5.1.1	Fundamental Filtering Equation	127
5.1.2	Dual Problem of Optimal Control.	133
5.1.3	Some Particular Cases.	136
5.1.4	The Dependence of the Estimation Error on the Magnitude of Delay	138
5.2	Forecasting and Interpolation	144
5.2.1	Statement and Solution of the Forecasting Problem . . .	144
5.2.2	Interpolation Problem	146
5.3	Filtration of Processes Described by Difference Equations	147
5.3.1	An Analogue of the Kalman–Bucy Filter.	147
5.3.2	An Integral Representation of the Estimate	154
5.4	Importance of Research of Difference Volterra Equations	156
6	Optimal Control of Stochastic Difference Volterra Equations by Incomplete Information	159
6.1	Separation Method	159
6.1.1	Solution of the Filtering Problem	160
6.1.2	Solution of the Auxiliary Optimal Control Problem . . .	162
6.2	The Method of Integral Representations	179
6.3	Quasilinear Stochastic Difference Volterra Equation	187
6.4	Linear Stochastic Difference Equation with Unknown Parameter	191
6.4.1	Statement of the Problem	191
6.4.2	The Optimal Control Construction	193
6.4.3	The Optimal Cost Construction	201
6.4.4	A Particular Case	202
	References.	207
	Index	217

Optimal Control of Stochastic Difference Volterra
Equations

An Introduction

Shaikhet, L.

2015, X, 220 p. 8 illus. in color., Hardcover

ISBN: 978-3-319-13238-9
