

Contents

1	Introduction	1
1.1	Motivation	1
1.2	Problem Statement	2
1.3	Outline	3
2	Literature Review	5
2.1	Unobservable Lost Sales	5
2.2	Assortment Planning	6
2.3	Assortment Planning with Stockout-Based Substitution	7
2.4	Stockout-Based Substitution in a Fixed Assortment	9
2.5	Joint Pricing and Inventory Planning with Substitution	10
2.6	Behavioral Operations Management	10
3	Safety Stock Planning Under Causal Demand Forecasting	13
3.1	Introduction	13
3.2	Safety Stock Basics and Least Squares Estimation	15
3.2.1	The Single-Variable Case	16
3.2.2	The Multi-Variable Case	18
3.2.3	Violations of Ordinary Least Squares Assumptions	18
3.3	Data-Driven Linear Programming	19
3.3.1	The Cost Model	20
3.3.2	The Service Level Model	20
3.4	Numerical Examples	21
3.4.1	Sample Size Effects	26
3.4.2	Violations of <i>OLS</i> Assumptions	27
3.4.3	Real Data	31
3.5	Conclusions	33
4	The Data-Driven Newsvendor with Censored Demand Observations	35
4.1	Introduction	35
4.2	Related Work	36

4.3	Data-Driven Model with Unobservable Lost Sales Estimation	37
4.3.1	Cost Model	38
4.3.2	Benchmark Approaches	41
4.4	Numerical Examples	43
4.4.1	The Normal Distribution	44
4.4.2	The Negative Binomial Distribution	48
4.4.3	Sample Size Effects	51
4.4.4	Real Data	52
4.5	Conclusions	55
5	Data-Driven Order Policies with Censored Demand and Substitution	57
5.1	Motivation	57
5.2	Related Work	58
5.3	Model	60
5.3.1	Data	60
5.3.2	Decisions	61
5.3.3	Objective Function	62
5.3.4	Known Demand with Stockout Observations of One Product	62
5.3.5	Censored Demand	64
5.4	Numerical Study and Empirical Analysis	68
5.4.1	Benchmark to Estimate Arrival Rates and Substitution Probabilities	68
5.4.2	Optimal Solution	70
5.4.3	Data Generation	72
5.5	Results	72
5.5.1	Known Demand with Stockout Observations of One Product	72
5.5.2	Censored Demand with Stockout Observations of One Product	73
5.5.3	Censored Demand with Stockout Observations of Both Products	74
5.5.4	Real Data	75
5.6	Conclusions	78
6	Empirical Newsvendor Decisions Under a Service Level Contract	79
6.1	Introduction	79
6.2	The Setting	81
6.2.1	Data Overview	82
6.3	Modeling Demand	84
6.4	Normative Decision Model	86
6.4.1	Product-Specific Service Level	86
6.5	Empirical Analysis	88
6.5.1	Expected Profit Maximization	89
6.5.2	Alternative Decision Models	91

- 6.5.3 Comparison of Alternative Decision Models
with the Empirical Retailer 93
 - 6.6 Additional Behavioral Aspects of Decision Making 94
 - 6.6.1 Anchoring and Adjustment 94
 - 6.6.2 Minimizing Ex-Post Inventory Error 95
 - 6.6.3 Order Adaptation and Demand Chasing 96
 - 6.7 Value of Product Characteristics: Managerial Insights 100
 - 6.8 Conclusions 101
- 7 Conclusions 103**
 - 7.1 Summary 103
 - 7.2 Limitations and Future Research Directions 105
- Bibliography 107**

Retail Analytics

Integrated Forecasting and Inventory Management for
Perishable Products in Retailing

Sachs, A.-L.

2015, XVII, 111 p. 14 illus., Softcover

ISBN: 978-3-319-13304-1
