

Contents

1. What is Radio Astronomy.....	1
2. A Science is Born.....	13
3. The Radio Sun and Planets	31
4. The Galactic Radio Nebulae	45
5. Radio Waves from the Milky Way.....	57
6. Interstellar Neutral Hydrogen	71
7. Interstellar Molecules	85
8. Pulsars.....	101
9. The Galactic Superstars	115
10. Radio Galaxies.....	125
11. Quasars	137
12. The Grand Unification: Active Galactic Nuclei.....	145
13. Beyond the Quasars—Radio Cosmology.....	159
14. Radio Telescopes in High Places	173
15. Radio Telescopes: The Future.....	187
16. China Rising.....	203

17. On the Radio Astronomical Quest for Extraterrestrial Intelligence.....	211
18. On Growth and Obsolescence	223
19. What Lies Ahead?.....	233
Appendix.....	243
Further Reading.....	253
Index	255

The Invisible Universe

The Story of Radio Astronomy

Verschuur, G.

2015, XII, 259 p. 82 illus., 69 illus. in color., Softcover

ISBN: 978-3-319-13421-5
