

# Contents

## Part I Seed Dormancy, Reviews, Research, and Perspectives

- 1 Molecular and Hormonal Regulation of Thermoinhibition of Seed Germination** ..... 3  
Heqiang Huo and Kent J. Bradford
- 2 Regulation of Seed Dormancy Cycling in Seasonal Field Environments** ..... 35  
W.E. Finch-Savage and S. Footitt

## Part II Bud Dormancy, Reviews, Research, and Perspectives

- 3 Role of the Circadian Clock in Cold Acclimation and Winter Dormancy in Perennial Plants** ..... 51  
Mikael Johansson, José M. Ramos-Sánchez, Daniel Conde, Cristian Ibáñez, Naoki Takata, Isabel Allona and Maria E. Eriksson
- 4 Dormancy Behaviors and Underlying Regulatory Mechanisms: From Perspective of Pathways to Epigenetic Regulation**..... 75  
Zongrang Liu, Hong Zhu and Albert Abbott
- 5 Recent Advances in Genetics and Molecular Control of Bud Dormancy in Pipfruits** ..... 107  
Vitor da Silveira Falavigna, Diogo Denardi Porto, Carolina Pereira Silveira and Luís Fernando Revers
- 6 Flower Bud Dormancy in *Prunus* Species** ..... 123  
Erica Fadón, Maria Herrero and Javier Rodrigo
- 7 Dormancy-Associated *MADS-BOX* Genes: A Review** ..... 137  
David P. Horvath

<b>8 Functional Characterization of Japanese Apricot (<i>Prunus mume</i>) <i>DORMANCY-ASSOCIATED MADS-box1</i> (<i>PmDAM1</i>), a Paralog of <i>PmDAM6</i>, Using <i>Populus</i> Transformants</b> .....	147
Hisayo Yamane and Ryutaro Tao	
<b>9 The Genetic Components Involved in Sensing Chilling Requirements in Apricot</b> .....	159
Taly Trainin, Irit Bar-Ya'akov and Doron Holland	
<b>10 Prolonged Exposure of Grapevine Buds to Low Temperatures Increases Dormancy, Cold Hardiness, and the Expression of <i>Vva-AMYs</i> Genes</b> .....	169
Francisco J. Pérez and Sebastián Rubio	
<b>Part III Dormancy Mechanisms in Buds of Underground Structures</b>	
<b>11 Bridging Dormancy Release and Apical Dominance in Potato Tuber</b> .....	187
Dani Eshel	
<b>12 Meta-Analysis Identifies Potential Molecular Markers for Endodormancy in Crown Buds of Leafy Spurge; a Herbaceous Perennial</b> .....	197
Münevver Dođramacı, David P. Horvath and James V. Anderson	
<b>Part IV Comparison of Seed and Bud Dormancy Mechanisms</b>	
<b>13 A Comparison of Transcriptomes Between Germinating Seeds and Growing Axillary Buds of <i>Arabidopsis</i></b> .....	223
Dawei Yan, Kiyoshi Tatematsu, Kazumi Nakabayashi, Akira Endo, Masanori Okamoto and Eiji Nambara	
<b>14 Dormancy Induction and Release in Buds and Seeds</b> .....	235
Wun S. Chao, Münevver Dođramacı, David P. Horvath, Michael E. Foley and James V. Anderson	
<b>15 Comparing Genetic Mechanisms of Bud Chilling Fulfillment and Seed Cold Stratification: A Role for Peach (<i>Prunus persica</i>)?</b> .....	257
Douglas G. Bielenberg	
<b>Part V Chemical Manipulation of Bud Dormancy</b>	
<b>16 Chemical Release of Endodormancy in Potato Involves Multiple Mechanisms</b> .....	269
Michael Campbell	

**17 Exploring Alternative Bud Break Enhancing Product in ‘Zesy003’ (Gold9) by Painting Application..... 279**  
Gustavo Hernández and Rob Craig

**18 Assessment of Alternative Bud Break Enhancers for Commercial Kiwifruit Production of ‘Zesy002’ (Gold3)..... 289**  
Gustavo Hernández, Rob Craig and David Tanner

**19 Effect of BLUPRINS® Application on Bud Release from Dormancy in Kiwifruit, Cherry, and Table Grape ..... 301**  
V. Ziosi, A. Di Nardo, A. Fontana, F. Vitali and G. Costa

**Index..... 309**

Advances in Plant Dormancy

Anderson, J.V. (Ed.)

2015, XIV, 311 p. 47 illus., 24 illus. in color., Hardcover

ISBN: 978-3-319-14450-4
