

Contents

1	Introduction	1
1.1	Basic Concepts and Definitions	1
1.1.1	What Gas Seepage Is, What It Is Not	1
1.1.2	A Jungle of Names: Seeps, Macroseeps, Microseepage, Microseeps, and Miniseepage	4
1.1.3	Seepage and Migration	4
1.1.4	Microbial, Thermogenic, and Abiotic Methane	4
1.2	Significance of Seepage and Implications	7
1.2.1	Seepage and Petroleum Exploration	7
1.2.2	Marine Seepage on the Crest of the Wave	8
1.2.3	From Sea to Land	9
1.2.4	A New Vision	10
	References	12
2	Gas Seepage Classification and Global Distribution	17
2.1	Macro-Seeps	18
2.1.1	Gas Seeps	18
2.1.2	Oil Seeps	22
2.1.3	Gas-Bearing Springs	23
2.1.4	Mud Volcanoes	25
2.1.5	Miniseepage	29
2.1.6	The Global Distribution of Onshore Macro-Seeps	29
2.2	Microseepage	32
2.3	Marine Seepage Manifestations	33
	References	39
3	Gas Migration Mechanisms	45
3.1	Fundamentals	45
3.1.1	Sources and Pathways	45
3.1.2	Diffusion and Advection	46

3.2	Actual Mechanisms and Migration Forms	50
3.2.1	Bubble and Microbubble Flow	52
3.2.2	Gas Seepage Velocity	55
3.2.3	Matter Transport by Microbubbles	56
3.2.4	The Concept of Carrier Gas and Trace Gas	58
	References.	60
4	Detecting and Measuring Gas Seepage.	63
4.1	Gas Detection Methods	63
4.1.1	Above-Ground (Atmospheric) Measurements	64
4.1.2	Ground Measurements	67
4.1.3	Measurements in Aqueous Systems.	71
4.2	Indirect Methods.	73
4.2.1	Chemical-Mineralogical Alterations of Soils.	73
4.2.2	Vegetation Changes (Geobotanical Anomalies).	75
4.2.3	Microbiological Analyses of Soils.	76
4.2.4	Radiometric Surveys	76
4.2.5	Geophysical Techniques	78
	References.	79
5	Seepage in Field Geology and Petroleum Exploration.	85
5.1	Seepage and Faults	86
5.2	Microseepage Applied to Areal Petroleum Exploration	88
5.2.1	Which Gas Can Be Measured?	89
5.2.2	Microseepage Methane Flux Measurements	91
5.3	Seep Geochemistry for Petroleum System Evaluation	94
5.3.1	Recognising Post-genetic Alterations of Gases	94
5.3.2	Assessing Gas Source Type and Maturity	97
5.3.3	The Presence of Undesirable Gases (CO ₂ , H ₂ S, N ₂).	101
5.3.4	Helium in Seeps... for Connoisseurs	103
	References.	104
6	Environmental Impact of Gas Seepage.	109
6.1	Geohazards	109
6.1.1	Methane Explosiveness	110
6.1.2	The Toxicity of Hydrogen Sulphide	111
6.1.3	Mud Expulsions and the Degradation of Soil-Sediments	112
6.2	Stray Gas, Natural versus Man-Made	115
6.3	Hypoxia in Aquatic Environments.	117
6.4	Gas Emissions to the Atmosphere.	118
6.4.1	Methane Fluxes and the Global Atmospheric Budget	119

6.4.2	Ethane and Propane Seepage, a Forgotten Potential Source of Ozone Precursors	130
6.5	Natural Seepage and CO ₂ Geological Sequestration.	132
	References.	134
7	Seepage in Serpentinised Peridotites and on Mars	141
7.1	Seeps and Springs in Active Serpentinisation Systems.	142
7.1.1	Where Abiotic Methane Is Seeping	142
7.1.2	How Abiotic Methane in Land-Based Serpentinisation Systems Is Formed	145
7.1.3	How to Distinguish Abiotic and Biotic Methane.	150
7.1.4	Seepage to the Surface	152
7.1.5	Is Abiotic Gas Seepage Important for the Atmospheric Methane Budget?.	154
7.2	Potential Methane Seepage on Mars	155
7.2.1	Looking for Methane on Mars	155
7.2.2	A Theoretical Martian Seepage.	157
	References.	159
8	Gas Seepage and Past Climate Change	165
8.1	Past Seepage Stronger than Today	166
8.2	Potential Proxies of Past Seepage	167
8.3	Methane and Quaternary Climate Change	168
8.3.1	Traditional Models: Wetlands versus Gas Hydrates	168
8.3.2	Adding Submarine Seeps.	170
8.3.3	Considering Onshore and Offshore Seepage in Total	171
8.3.4	CH ₄ Isotope Signatures in Ice Cores	173
8.4	Longer Geological Time Scale Changes.	177
8.4.1	The Concept of Sedimentary Organic Carbon Mobilization.	177
8.4.2	Paleogene Changes	178
	References.	179
9	Seeps in the Ancient World: Myths, Religions, and Social Development	183
9.1	Seeps in Mythology and Religion	183
9.2	Seeps in Social and Technological Development.	187
	References.	192
	Epilogue	195

Natural Gas Seepage

The Earth's Hydrocarbon Degassing

Etiope, G.

2015, XIII, 199 p. 53 illus., 42 illus. in color., Hardcover

ISBN: 978-3-319-14600-3
