

Contents

Preface	vii
 <i>U. Battisti, S. Coriasco and E. Schrohe</i>	
A Class of Fourier Integral Operators on Manifolds with Boundary	1
 <i>C. Boiti and D. Jornet</i>	
The Problem of Iterates in Some Classes of Ultradifferentiable Functions	21
 <i>C. Bouzar and M.T. Khalladi</i>	
On Asymptotically Almost Periodic Generalized Solutions of Differential Equations	35
 <i>E. Cordero, F. Nicola and L. Rodino</i>	
Gabor Wave Packets and Evolution Operators	45
 <i>H. Fredriksson</i>	
A Weighted Version of Wiener's Lemma in p -normed Algebras for $0 < p \leq 1$	61
 <i>L. Galleani</i>	
Time-Frequency Initial Value Problems for Random MIMO Systems	67
 <i>G. Garelli and A. Morando</i>	
Microlocal Regularity of Besov Type for Solutions to Quasi-elliptic Nonlinear Partial Differential Equations	79
 <i>T. Gramchev, A. Lecke, S. Pilipović and L. Rodino</i>	
Gelfand–Shilov Type Spaces Through Hermite Expansions	95
 <i>T. Gramchev and G. Tranquilli</i>	
Cauchy Problem for Second-order Hyperbolic Equations for Shubin Pseudodifferential Operators	107

<i>G. Hörmann, S. Konjik and M. Kunzinger</i>	
A Regularization Approach to Non-smooth Symplectic Geometry ...	119
<i>S. Mincheva-Kamińska</i>	
Equivalent Conditions for Integrability of Distributions	133
<i>I. Kmit and L. Recke</i>	
Time-periodic Second-order Hyperbolic Equations: Fredholmness, Regularity, and Smooth Dependence	149
<i>S. Kostadinova, S. Pilipović, K. Saneva and J. Vindas</i>	
The Ridgelet Transform and Quasiasymptotic Behavior of Distributions	185
<i>T. Levajković and H. Mena</i>	
Equations Involving Malliavin Derivative: A Chaos Expansion Approach	199
<i>J.-A. Marti</i>	
Generalized and Classical Solutions to a Characteristic Cauchy Problem with Hörmander Hypotheses	217
<i>I.V. Melnikova and U.A. Alekseeva</i>	
On Generalized Solutions to Stochastic Systems	231
<i>C. Sämann and R. Steinbauer</i>	
Geodesic Completeness of Generalized Space-times	243
<i>J. Toft</i>	
Gabor Analysis for a Broad Class of Quasi-Banach Modulation Spaces	255
<i>K. Yoshino</i>	
Spectral Analysis of Daubechies Localization Operators	285

Pseudo-Differential Operators and Generalized
Functions

Pilipović, S.; Toft, J. (Eds.)

2015, VIII, 290 p. 5 illus., 3 illus. in color., Hardcover

ISBN: 978-3-319-14617-1

A product of Birkhäuser Basel
