

Contents

1	Introduction	1
1.1	Context, Rational and Objective of the Monograph	1
1.2	Summary of the Chapters	6
	References	7
2	The Decoupling of Emerging Economies, A Long-Debated Issue but Still an Open Question: A Survey	9
2.1	Introduction	9
2.2	Different Interpretations and Measures of Decoupling	12
2.2.1	Interpretations	12
2.2.2	Measures	13
2.3	Decoupling and Globalization: Can They Coexist?	15
2.3.1	Increasing International Trade Linkages	15
2.3.2	Increasing International Financial Linkages	18
2.3.3	Decoupling and Increasing International Linkages: What Does Theory Say?	20
2.4	The Long-Debated Issue: A Brief Historical Excursus	21
2.5	Synchronization of Economic Cycles Between AEs and EEs	23
2.5.1	First Critique: Problem in Identifying Structural Breaks Using Correlation Coefficients Over Rolling Sub-samples of Data	25
2.5.2	Second Critique: The Correlation Coefficient May Be Counter-Intuitive in Its Treatment of Data	27
2.5.3	Third Critique: Distortion Due to Heteroskedasticity	29
2.6	Breakdown of Advanced and Emerging Countries' Economic Fluctuations	31
2.7	Regression Analysis and VAR Estimations of Spillover from AEs to EEs	33

2.8	Analysis of Macroeconomic Spillovers from AEs to EEs Using Micro-funded Economic Models	36
2.8.1	Micro-funded Economic Models: A Brief Excursus	37
2.8.2	Micro-funded Models' Contribution to the Debate About the Decoupling	44
2.9	Conclusion	44
	References	46
3	Is Decoupling in Action?	51
3.1	Introduction	51
3.2	Empirical Analysis of the Decoupling Hypothesis	55
3.2.1	Countries and Dataset	55
3.2.2	Synchronicity of National Economic Cycles	57
3.2.3	Responses of EEs to Adverse Scenarios in AEs: Have They Changed Over Time?	62
3.3	Conclusion	73
	Appendix 1: Set of Countries	77
	Appendix 2: Main Descriptive Statistics	78
	Appendix 3: Euclidean Distance Computed on the Economic "Deviation Cycles"	96
	Appendix 4: Priors, Posteriors Distributions and the Computational Method	98
	Appendix 5: Historical Decomposition of GDP Fluctuations	101
	Appendix 6: Additional Results	107
	References	109
4	International (Spillovers in) Macroeconomic-Credit Linkages and the Decoupling Phenomenon	113
4.1	Introduction	113
4.2	Empirical Analysis	114
4.2.1	Countries and Dataset	114
4.2.2	The Approach used to Investigate the Decoupling Hypothesis	119
4.2.3	Results: Time Path of the Resilience of EEs	122
4.3	Conclusion	127
	Appendix 1: Set of Countries	130
	Appendix 2: Main Descriptive Statistics	131
	Appendix 3: Historical Decomposition of GDP Growth Rate and Credit Growth Rate	131
	Appendix 4: Additional Results	131
	References	170
5	Conclusions	171
	References	173

Economic Cycles in Emerging and Advanced Countries
Synchronization, International Spillovers and the
Decoupling Hypothesis

Pesce, A.

2015, XVIII, 173 p. 30 illus., 27 illus. in color., Hardcover

ISBN: 978-3-319-17084-8
