

Contents

Part I Art, Culture, and Cartography

- 1 Effect of Cultural Differences and Referent Characteristics on the Design of Pictographic Map Symbols 3**
Jari Korpi and Paula Ahonen-Rainio
- 2 Multilingual Narrative Planetary Maps for Children 17**
Henrik Hargitai, Mátyás Gede, Jim Zimbelman, Csilla Kőszeghy,
Dóri Sirály, Lucia Marinangeli, Teresa Barata, Iván López,
Alexandru Szakács, Krzysztof Dębniak and Thierry Feuillet

Part II Cartography as Science and Technology

- 3 Multi Standard-Parallel Azimuthal Projections 33**
Miljenko Lapaine
- 4 Research on User Preferences for the Functionality of Web Maps 45**
Andrius Balciunas and Giedre Beconyte
- 5 Human-Computer Interaction in Real-3D and Pseudo-3D Cartographic Visualization: A Comparative Study 59**
K. Špriňarová, V. Juřík, Č. Šašínská, L. Herman, Z. Štěřba,
Z. Stachoň, J. Chmelík and B. Kozlíková
- 6 Investigation of Map Orientation by the Use of Low-Cost Virtual Reality Equipment 75**
Steffen Pöhner Henriksen and Terje Midtbø

7	Inclusive Cartographic Design: Overcoming Ocular-Centric Cartographies.	89
	Amy Lobben, Megan E. Brittell and Nicholas A. Perdue	
8	Generalization Problems of Orienteering Maps	99
	László Zentai	

Part III Geographic Information Science

9	A Review of SDI Literature: Searching for Signs of Inverse Infrastructures	113
	Serena Coetzee and Brendon Wolff-Piggott	
10	Adapting the U.S. National Hydrography Dataset to Linked Open Data	129
	Dalia E. Varanka, E. Lynn Usery and David M. Mattli	
11	Bitemporal Map Registrations.	147
	Peter Højholt and Lasse Donovan Hansen	
12	Visualizing Large Spatial Time Series Data on Mobile Devices: Combining the HeatTile System with a Progressive Loading Approach	161
	Sebastian Meier	
13	Spatial Prediction of Landslide Hazard at the Yihuang Area (China): A Comparative Study on the Predictive Ability of Backpropagation Multi-layer Perceptron Neural Networks and Radial Basic Function Neural Networks . . .	175
	Haoyuan Hong, Chong Xu, Inge Revhaug and Dieu Tien Bui	
14	A PSO-Neural Network-Based Feature Matching Approach in Data Integration	189
	Yanxia Wang, Hongwei Lv, Xuri Chen and Qingyun Du	

Part IV History of Cartography and Historical Cartography

15	Research on the Reliability of Mercator's Map <i>Sclavonia, Croatia, Bosnia cum Dalmatiae parte</i>	223
	Marina Viličić and Miljenko Lapaine	

- 16 Historical-Toponymic Analysis of the 1823 *Carta Geographica* of the Rio de Janeiro Province 235**
 Paulo Márcio Leal de Menezes, Manoel do Couto Fernandes,
 Kairo da Silva Santos and Amanda Biondino Sardella
- 17 Digitization of Old Globes by a Photogrammetric Method 249**
 Milan Talich, Klára Ambrožová, Jan Havrlant and Ondřej Böhm

Part V Modern Applications of Geo-technology

- 18 Space-Time Visualization for Investigative and Forensic Purposes 267**
 Peter Schmitz, Antony Cooper, Tinus Kruger, Kenneth Speed,
 Michael Barkhuizen, Hennie Lochner and Chris Linnen
- 19 Creating a High-Resolution Social Vulnerability Map in Support of National Decision Makers in South Africa 283**
 Alize le Roux, Sibusisiwe Khuluse and Andreas J.S. Naude
- 20 Complementary Methods for Citizen Mapping of Ecosystem Services: Comparing Digital and Analog Representations 295**
 Robert M. Edsall, Laura Barbour and Johanna Hoffman
- 21 Evaluating the Use of Geotechnology and Multimedia Resources in Cartography Lessons for Environmental Studies 309**
 Iomara Barros de Sousa and Angelica Carvalho Di Maio
- 22 MIGoogle: Map of Ideas with Google 321**
 Angelica Carvalho Di Maio
- 23 Geodesign for Landscape Connectivity Planning 333**
 Rodrigo Pinheiro Ribas, Bernardo Machado Gontijo
 and Ana Clara Mourão Moura
- 24 Application of Geo-ecological and Thematic Mapping to the Analysis of Estuarine Environments in Northeastern Brazil 347**
 Jociclêa de Sousa Mendes, Adryane Gorayeb,
 Edson Vicente da Silva, Antonio Jeovah de Andrade Meireles
 and Lidriana de Souza Pinheiro

25	Crowdsourcing for Geodesign: Opportunities and Challenges for Stakeholder Input in Urban Planning.	361
	Júnia Borges, Piotr Jankowski and Clodoveu A. Davis Jr.	
26	The Use of Laser Altimetric Data for Orienteering Mapping in the Central European Area.	375
	Tomáš Janata and Pavel Hradec	

Cartography - Maps Connecting the World

27th International Cartographic Conference 2015 -
ICC2015

Robbi Sluter, C.; Madureira Cruz, C.B.; Leal de Menezes,
P.M. (Eds.)

2015, XVII, 386 p. 168 illus., 140 illus. in color.,
Hardcover

ISBN: 978-3-319-17737-3
