Part I Results

1	Introduction	3
1.1	Geometric Action Functionals	3
1.2	Example: Large Deviation Theory	4
1.3	Key Features of the Existence Theory	6
1.4	Techniques Used in the Literature	7
1.4.1	Constructive Techniques	7
1.4.2	The Lower Semi-Continuity Technique	8
1.5	Properties of Minimum Action Curves	10
1.6	The Structure of this Monograph	10
1.7	Notation and Assumptions	11
2	Geometric Action Functionals	13
2.1	Curves	13
2.1.1	Rectifiable Curves and Absolutely Continuous Functions	13
2.1.2	Curves that Pass Points in Infinite Length	16
2.1.3	Summary of the Various Classes of Curves	17
2.2	Geometric Actions, Drift Vector Fields	18
2.3	The Subclass of Hamiltonian Geometric Actions	21
3	Existence of Minimum Action Curves	29
3.1	A First Existence Result	29
3.2	Points with Local Minimizers, Existence Theorem	34
3.3	Finding Points with Local Minimizers	39
3.4	Examples in \mathbb{R}^2	43
3.4.1	Two Basins of Attraction	46
3.4.2	Three Basins of Attraction	46
3.4.3	An Example with Trivial Natural Drift	47
3.4.4	Examples to Which Our Criteria Do Not Apply	48
3.4.5	Modifying the Natural Drift	51
3.5	A Top-Level Theorem	52

4	Properties of Minimum Action Curves	57
4.1	Points that Are Passed in Infinite Length	58
4.2	The Advantage of Going with the Flow	59
4.3	Some Results on the Non-Existence of Minimizers	60
4.4	How to Move from One Attractor to Another	63
5	Conclusions	67
5.1	Recapitulation	67
5.2	Open Problems	68
 Part II Proofs		
6	Proofs for Sect. 3.3: Finding Points with Local Minimizers	71
6.1	Proof of Proposition 3.16	71
6.2	Proof of Lemma 3.22	73
6.3	Admissible Manifolds	74
6.4	Flowline-Tracing Functions	79
6.5	Proof of Proposition 3.23	84
6.6	Proof of Proposition 3.25	87
7	Proof of Lemma 6.15	97
7.1	Setting Things Up	97
7.2	Modification of the Admissible Manifolds	104
7.3	Definition of the Functions f_i ; Proof of their Properties	111
7.3.1	Proof of Properties (i)–(iv)	112
7.3.2	Proof of Property (v)	115
7.3.3	Proof of Property (vi)	126
7.3.4	Proof of Property (vii)	141
A	Technical Proofs and Remarks for Part I	143
A.1	Proof of Lemma 2.3	143
A.2	Proof of Lemma 2.6	148
A.3	Proof of Lemma 2.13	152
A.4	Proof of Lemma 2.14	152
A.5	Proof of Lemma 2.17	153
A.6	Large Deviations for Killed Diffusion Processes	154
A.7	Some Remarks on the Proof of Lemma 3.20	155
A.8	Proof of Lemma 3.26 (ii)	156
A.9	Proof of Lemma 4.4	156
B	Technical Proofs and Remarks for Part II	161
B.1	Proof of Lemma 6.1	161
B.2	Remarks on the Construction of M_s^{loc} , M_u^{loc} , p_s and p_u	163
B.3	Proof of Lemma 7.3	165
B.4	Proof of Lemma 7.4	167
B.5	Proof of Lemma 7.5	168

B.6	Proof of Lemma 7.6	168
B.7	Proof of Lemma 7.8	169
B.8	Proof of Lemma 7.9	170
B.9	Proof of Lemma 7.10	171
B.10	Proof of Remark 7.11	173
B.11	Proof of Lemma 7.12	174
