

Contents

1	Introduction	1
1.1	The History of Biomaterials	2
1.2	Classification of Biomaterials	3
1.2.1	Metallic Materials	3
1.2.2	Polymers	6
1.2.3	Ceramics	7
1.2.4	Composites	14
1.2.5	Natural Materials	16
1.3	Biocompatibility	16
	References	17
2	Application of Biomaterials	19
	References	24
3	Bio-implants and Bio-devices	25
3.1	Design of Biomedical Implants Surface	26
3.1.1	Surface Coatings Methods	28
3.1.2	Surface Modification Methods	30
	References	32
4	New Trends in Biomaterials	33
4.1	Mesoporous Structures	33
4.2	Nano Biomaterials	34
4.2.1	Role of Nanomaterials in Drug Delivery Systems	35
4.2.2	Role of Nanomaterials in Tissue Engineering	41
4.2.3	Role of Nanomaterials in Biosensors Applications	45
4.3	Smart Biomaterials	45
	References	46
5	Tissue Response in Biomaterials	47
	Reference	49

Biomaterials and Their Applications

Reza Rezaie, H.; Bakhtiari, L.; Öchsner, A.

2015, VII, 49 p. 5 illus., 4 illus. in color., Softcover

ISBN: 978-3-319-17845-5
