Part I Engineering Management and Intelligent Systems

1	Engineering Management and Intelligent Systems	3
	Cengiz Kahraman and Sezi Çevik Onar	
1.1	Introduction	3
1.2	Engineering Management	5
1.3	Intelligent Systems	8
1.3.1	Particle Swarm Optimization (PSO)	8
1.3.2	Genetic Algorithms (GA)	8
1.3.3	Fuzzy Sets (FS)	9
1.3.4	Ant Colony Optimization (ACO)	9
1.3.5	Artificial Bee Colony Optimization (ABCO)	10
1.3.6	Neural Networks (NN)	10
1.3.7	Simulated Annealing (SA)	10
1.3.8	Tabu Search (TS)	11
1.3.9	Swarm Intelligence (SI)	11
1.3.10	Differential Evolution (DE)	11
1.3.11	Evolutionary Algorithms (EA)	12
1.4	Trends for Intelligent Techniques	13
1.5	Conclusion	17
	References	18

Part II Risk Management

2	Possibilistic Models of Risk Management	21
	Irina Georgescu, Jani Kinnunen and Ana Maria Lucia-Casademunt	
2.1	Introduction	21
2.2	Fuzzy Numbers and Their Indicators	23
2.3	Possibilistic Expected Utility	25

2.4	Possibilistic Risk Aversion	27
2.5	Possibilistic Risk Aversion Indicators.	29
2.6	Possibilistic Coinsurance Problem	34
2.7	Static Portfolio Choices: A Possibilistic Model	39
2.8	Conclusions	42
	References.	43
3	Likelihood Estimation of Intentional Events in Risk Management: Evidence Based Intelligent Morphological Analysis Approach	45
	Ilker Akgun	
3.1	Introduction	46
3.2	Theoretical Background	48
	3.2.1 Morphological Analysis	48
	3.2.2 Uncertainty Modelling	49
	3.2.3 Dempster-Shafer Theory of Evidence	51
3.3	Evidence Based Morphological Analysis Model	53
3.4	An Illustrative Example	61
3.5	Conclusions	72
	References.	73
 Part III Knowledge Management		
4	A Review on Intelligent Systems in Research and Development. . .	79
	İrem Otay	
4.1	Introduction	79
4.2	Research and Development (R&D)	81
4.3	Intelligent Systems (IS)	81
4.4	Institutions on Intelligence in Research and Development. . .	82
4.5	Intelligent Systems in R&D	85
4.6	Intelligent Systems in R&D	87
	4.6.1 Production	88
	4.6.2 Medical System.	93
	4.6.3 Transportation	94
	4.6.4 Education	95
	4.6.5 Intelligent Buildings.	96
	4.6.6 Defense	98
	4.6.7 Mobile Robots	99
4.7	Conclusion Remarks and Future Research Suggestions.	100
	References.	101

5	Innovation Strategy Evaluation Process Using Fuzzy Cognitive Mapping	107
	Ozge Surer, Sezi Çevik Onar and Y. Ilker Topcu	
5.1	Introduction	108
5.2	Innovation Strategy	109
5.3	Innovation Strategy Evaluation Factors.	112
	5.3.1 Industry Characteristics.	113
	5.3.2 Environmental Uncertainties	113
	5.3.3 Firm Characteristics	113
5.4	Methodology and Application	116
	5.4.1 Fuzzy Cognitive Mapping	116
	5.4.2 Application of Proposed Innovation Strategy Evaluation Process	120
5.5	Findings.	121
5.6	Conclusion and Further Suggestions	123
	References.	125
6	Knowledge Management: Intelligent In-pipe Inspection Robot Conceptual Design for Pipeline Infrastructure Management	129
	Bo Xing	
6.1	Introduction	129
6.2	Background	131
6.3	The Challenges Faced by In-pipe Inspection Robot Conceptual Design	132
6.4	Proposed Methodology.	133
	6.4.1 How to Represent Functional Knowledge?	133
	6.4.2 What Is Multi-agent System Approach?	134
	6.4.3 How Does MAS-ICD Work?	135
	6.4.4 Why Employing MAS-ICD for Conceptual Design?	137
6.5	MAS-ICD Implementation	138
	6.5.1 System Architecture of MAS-ICD	138
	6.5.2 WCF Assisted Agent Implementation.	140
	6.5.3 Implementation Results	140
6.6	Applying MAS-ICD to Intelligent In-pipe Inspection Robot Conceptual Design.	141
6.7	Discussions	142
	6.7.1 Contributions	143
	6.7.2 Future Work	143
6.8	Conclusions	143
	References.	144

Part IV Intelligent Systems in Management

7	Artificial Intelligence Techniques in Human Resource Management—A Conceptual Exploration	149
	Stefan Strohmeier and Franca Piazza	
7.1	Introduction: AI Techniques in HR Management?	150
7.2	Foundation: “Fit” of AI Techniques and HR Management . . .	151
7.2.1	Task-Technology Fit	151
7.2.2	Requirements of HR Tasks	151
7.2.3	Functionalities of AI Techniques	153
7.3	Exemplification: Scenarios of AI Techniques in HR Management	155
7.3.1	Overview	155
7.3.2	Turnover Prediction with Artificial Neural Networks	155
7.3.3	Candidate Search with Knowledge-Based Search Engines	158
7.3.4	Staff Rostering with Genetic Algorithms.	160
7.3.5	Sentiment Analysis with Text Mining.	161
7.3.6	Résumé Data Acquisition with Information Extraction.	164
7.3.7	Employee Self-service with Interactive Voice Response.	165
7.4	Discussion: Potential of AI Techniques in HR Management. . .	167
	References.	169
8	Analyzing Dynamic Capabilities via Fuzzy Cognitive Maps.	173
	Veysel Çoban, Sezi Çevik Onar and Ayberk Soyer	
8.1	Introduction	174
8.2	Dynamic Capabilities.	175
8.2.1	Factors Affecting Dynamic Capabilities	176
8.3	Fuzzy Cognitive Maps	184
8.4	Application.	188
8.4.1	Case 1: One Factor Simulations.	192
8.4.2	Case 2: 27 Factor Simulations.	194
8.4.3	Case 3: All Factor Simulation	194
8.4.4	Case 4: Multiple Factor Simulations.	195
8.5	Conclusion	196
	References.	198

9	Using Data Envelopment Analysis and Fuzzy Logic as Intelligent Risk-Based Decision Making Support for Virtual Organizations	203
	Fernanda Sales Bittencourt de Lemos, Adriano Fiorese, Omir Correia Alves Junior and Rafael Giordano Vieira	
9.1	Introduction	204
9.2	Problem Context and Related Work	205
9.3	Merging DEA and Fuzzy Logic	207
9.3.1	Data Envelopment Analysis	208
9.3.2	Fuzzy Logic	211
9.4	Results and Discussion.	212
9.5	Final Considerations	215
	References.	216

Part V Production Management

10	Intelligent Systems in Maintenance Planning and Management . . .	221
	Konsta Mikael Sirvio	
10.1	Introduction	221
10.2	Maintenance Management: Towards Predictive Optimised Maintenance	224
10.2.1	Corrective Maintenance Systems	225
10.2.2	Preventive Maintenance Systems	225
10.2.3	Predictive Maintenance.	227
10.2.4	Optimised Predictive Maintenance	228
10.3	Computational Problem Solving: Forecasting and Optimisation Algorithms	229
10.3.1	Forecasting	229
10.3.2	Optimisation Algorithms.	232
10.4	Development of Data Collection, Transfer and Storage.	233
10.4.1	Data Collection Framework.	233
10.4.2	Sensor Technology	235
10.4.3	Data Transfer and Storage.	235
10.5	Existing Research on Engineering Maintenance Management	236
10.5.1	Road Maintenance Planning	237
10.5.2	Vehicle Maintenance Planning.	238
