# Contents

**1 Generalities of Gas Diffusion Applied to the Vertebrate Blood–Gas Barrier** ..... 1
Jacopo P. Mortola

**2 Morphological and Morphometric Properties of the Blood-Gas Barrier: Comparative Perspectives** ..... 15
John N. Maina

**3 Prenatal and Postnatal Development of the Vertebrate Blood–Gas Barrier** ..... 39
Andrew Makanya and Valentin Djonov

**4 Molecular Mechanisms Regulating the Pulmonary Blood–Gas Barrier** ..... 65
David C. Budd, Victoria J. Burton and Alan M. Holmes

**5 Barrier Enhancing Signals** ..... 85
Panfeng Fu and Viswanathan Natarajan

**6 Transbarrier Ion and Fluid Transport** ..... 115
Charles A. Downs and My N. Helms

**7 Stress Failure of the Pulmonary Blood–Gas Barrier** ..... 135
John B. West

**8 The Lung Endothelial Barrier in Acute Inflammation** ..... 159
Holger C. Müller-Redetzky, Jasmin Lienau and Martin Witzenrath

**9 Lung Transplantation and the Blood-Gas Barrier** ..... 189
Anke Schnapper and Matthias Ochs

**10 Stereological Studies on Transient Gas Exchangers with Emphasis on the Structure and Function of the Human Placenta in Normal and Compromised Pregnancies** ..... 221
Terry M. Mayhew

**Index** ..... 241

The Vertebrate Blood-Gas Barrier in Health and Disease
Structure, Development and Remodeling
Makanya, A.N. (Ed.)
2015, XIV, 243 p. 55 illus., 23 illus. in color., Hardcover
ISBN: 978-3-319-18391-6
