### 3 Review of Muon-Induced Neutron Production

<b>at Underground Sites . . . . .</b>	<b>77</b>
3.1 Muon Flux at Sea Level . . . . .	77
3.1.1 Cosmic Rays as Muon Source . . . . .	78
3.1.2 Influence of the Earth's Atmosphere on Muon Production. . . . .	79
3.1.3 Gaisser's Parametrization of the Muon Flux at Sea Level. . . . .	81
3.2 Muon Energy Loss in Rock. . . . .	82
3.2.1 General Parametrization of Energy Loss . . . . .	83
3.2.2 Electronic Contribution to the Energy Loss . . . . .	85
3.2.3 Energy Loss via Bremsstrahlung . . . . .	87
3.2.4 Energy Loss via Direct Pair Production . . . . .	88
3.2.5 The Landau-Pomeranchuk-Migdal Effect and the Ter-Mikaelian Effect . . . . .	88
3.2.6 Energy Loss via Muon Spallation . . . . .	89
3.2.7 References for Total Muon Energy Loss . . . . .	89
3.2.8 Total Energy Loss in LSM Rock . . . . .	90
3.3 Muon Flux at LSM . . . . .	92
3.3.1 Muon Survival Probabilities . . . . .	92
3.3.2 Rock Overburden Above LSM . . . . .	93
3.3.3 Local Muon Flux at LSM . . . . .	95
3.4 Production Mechanisms for Muon-Induced Neutrons . . . . .	98
3.4.1 Capture of Negative Muons on Nuclei . . . . .	100
3.4.2 Quasielastic Scattering on Nuclei . . . . .	101
3.4.3 Muon Spallation . . . . .	102
3.4.4 Neutron Production in Electromagnetic Showers . . . . .	103
3.4.5 Neutron Production in Hadronic Showers . . . . .	104
3.4.6 Photonuclear Cross Section . . . . .	105
3.5 Measurements of Muon-Induced Neutrons. . . . .	106
3.5.1 Overview of Existing Measurements. . . . .	107
3.5.2 Angular and Lateral Correlation of Neutrons with Muons. . . . .	111
3.5.3 Energy and Multiplicity Spectrum . . . . .	113
3.5.4 Dependence of the Neutron Production Yield on Energy and Target. . . . .	116
3.5.5 Currently Running and Future Experiments . . . . .	126
3.6 Implementation of Muon Interactions in Geant4. . . . .	128
3.6.1 Electromagnetic Interactions . . . . .	128
3.6.2 Muon Spallation . . . . .	130

3.6.3	Photo-Nuclear and Electron-/Positron-Nuclear Interactions . . . . .	131
3.6.4	Hadronic Interactions . . . . .	132
3.7	Conclusion . . . . .	135
	References . . . . .	137
