<b>1</b>	<b>Constituents of Evaluation Practice .....</b>	<b>1</b>
	Introduction.....	1
	Professionalizing Evaluation .....	2
	Evaluation Practice .....	2
	Constituents of Evaluation.....	3
	The Competence Constituent .....	4
	The Behavioral Constituent.....	5
	The Industrial (Supply) Constituent .....	6
	The Utilization (Demand) Constituent .....	8
	The Methodological Constituent .....	11
	Appendix 1.1.....	15
	Appendix 1.2.....	17
	Appendix 1.3.....	21
	References.....	22
<b>2</b>	<b>Credible Methodology .....</b>	<b>25</b>
	Introduction.....	25
	Credibility of Evidence, Methodologies, and Methods .....	25
	Tenets of a Credible Evaluative Argument .....	29
	Addressing Contextual Issues.....	30
	Addressing Relationship Issues .....	30
	Addressing Stakeholder Values .....	30
	Getting to the Key Messages .....	31
	Articulating and Communicating the Key Message.....	31
	Evaluation Logic .....	31
	General Logic .....	32
	Working Logic.....	32
	Assumptions .....	33
	Methodological Assumptions .....	34
	Appendix 1. Transcript of a Panel Discussion on Hierarchy of Evidence, Australasian Evaluation Conference, Canberra, Australia, September 2009.....	36
	References.....	46

<b>3</b>	<b>Validity in Framing an Evaluation's Purpose and Questions</b> .....	49
	Introduction.....	49
	Values, Value, Valuing, and Evaluation .....	50
	Defining the Purpose of an Evaluation.....	52
	Formulating Evaluation Questions .....	53
	Participatory Validity .....	57
	Perspectives to Participatory Validity .....	58
	Paradigmatic Premises of Participatory Validity .....	60
	Preconditions for Participatory Validity .....	60
	The Effectiveness of the Participatory Process.....	61
	Evaluator's Capacity and Commitment.....	61
	Other Preconditions for Participatory Validity .....	61
	References.....	62
<b>4</b>	<b>Validity in Evaluation Designs and Methods</b> .....	65
	Determining Appropriate Evaluation Designs and Methods.....	65
	Quantitative Designs.....	68
	Qualitative Designs.....	68
	Exploratory Designs .....	69
	Descriptive Designs.....	70
	Experimental Designs.....	70
	Quasi-Experimental Designs .....	71
	Longitudinal Designs.....	72
	Case Study Designs .....	73
	Theory Based Designs .....	73
	Design Choices and Validity.....	74
	Preconditions for Construct Validity.....	78
	Appropriateness of Study Units or Participants.....	78
	Representativeness of the Unit Construct.....	79
	Preconditions Related to Interventions.....	80
	Preconditions Related with Observations.....	81
	Preconditions Related with Intervention Settings.....	82
	Addressing Preconditions for Construct Validity .....	82
	References.....	83
<b>5</b>	<b>Validity in Measures and Data Collection</b> .....	83
	Determining Measures and Data Collection.....	83
	Preconditions for Translation Validity .....	89
	Evaluators' and Respondents' Assumptions .....	91
	Evaluators' Assumptions of Respondents.....	91
	Respondents' Assumptions of the Evaluator .....	92
	References.....	93

<b>6</b>	<b>Validity in Analysis, Interpretation, and Conclusions .....</b>	<b>95</b>
	Analysis Interpretation and Conclusions .....	95
	Statistical Conclusion Validity.....	97
	Internal Validity .....	98
	External Validity .....	99
	Relating External with Construct Validity.....	99
	Relating External with Internal Validity .....	100
	Preconditions for Statistical Conclusion Validity .....	100
	Definition and Comparison of Target Population and Frame.....	100
	Random Sampling .....	101
	Limited Confounding .....	101
	Statistical Power .....	101
	Homogeneity of the Experimental.....	101
	Reliability of Measures—Measures Need to Be Consistent and Precise.....	101
	Preconditions for Internal Validity.....	102
	Selection .....	102
	Preconditions for External Validity.....	103
	Representativeness of Evaluands or Treatments (Interventions, Programs, Policies, or Components of the Evaluands That Have to Be Studied). .....	104
	Representativeness of Outcomes of Interest (Treatment Effects/ Program Results) .....	104
	Absence of Conflict of Interest.....	106
	Challenges of Reporting on External Validity .....	106
	Ideas on Dealing with External Validity .....	106
	References.....	107
<b>7</b>	<b>Validity in Evaluation Utilization .....</b>	<b>109</b>
	Evaluation Utilization.....	109
	Preconditions for Consequential Validity .....	112
	Issues of Evaluation Implementation Included: .....	112
	References.....	119
<b>8</b>	<b>Validity in Performance Measurement .....</b>	<b>121</b>
	Performance Measurement .....	121
	Program Performance Targets.....	122
	The Importance of Performance Data.....	123
	Limitations in Performance Monitoring.....	123
	Validity in Performance Measurement .....	128
	Preconditions for Indicators Validity .....	132
	References.....	133

<b>9 Explication of Methodological Assumptions: A Metaevaluation .....</b>	<b>135</b>
A Collective Case Study .....	135
Review Methods .....	138
Characteristics of Evaluations Reviewed .....	140
Assumptions in Determining Evaluation Design .....	141
Assumptions in Choice of Sampling Approaches .....	143
Representativeness of Comparison Groups and Conditions .....	143
Understanding of Evaluand Elements Under Investigation .....	144
Assumptions in Choice of Measures and Data Collection .....	144
Appropriateness of Measures to Evaluation Questions .....	145
Appropriateness of Measures to Programs Theory.....	145
Measures are Supported by Relevant Theory and Literature .....	145
Minimizing Respondent or Reviewer Bias.....	146
Controlling for Confounders.....	146
Assumptions in Analysis and Conclusions .....	146
Assumptions in Utilization .....	147
Appendix 9.1 Articles Reviewed .....	147
2005 .....	147
2006 .....	148
2007 .....	148
Appendix 9.1.2 Article Review Tool .....	149
Methodological Assumptions .....	149
References.....	155
<b>10 Conclusion .....</b>	<b>157</b>
References.....	161
<b>Index.....</b>	<b>163</b>

Credibility, Validity, and Assumptions in Program  
Evaluation Methodology

Nkwake, A.M.

2015, XXI, 166 p. 24 illus., 2 illus. in color., Hardcover

ISBN: 978-3-319-19020-4
