## Visionary Papers

A Formal Broker Framework for Secure and Cost-Effective Business Process Deployment on Multiple Clouds . . . . .	3
<i>Elio Goettelmann, Karim Dahman, Benjamin Gateau, and Claude Godart</i>	
Presentation and Validation of Method for Security Requirements Elicitation from Business Processes . . . . .	20
<i>Naved Ahmed and Raimundas Matulevičius</i>	
An Explorative Study for Process Map Design . . . . .	36
<i>Monika Malinova, Henrik Leopold, and Jan Mendling</i>	
Supporting Data Collection in Complex Scenarios with Dynamic Data Collection Processes . . . . .	52
<i>Gregor Grambow, Nicolas Mundbrod, Jens Kolb, and Manfred Reichert</i>	
A Method for Analyzing Time Series Data in Process Mining: Application and Extension of Decision Point Analysis . . . . .	68
<i>Reinhold Dunkl, Stefanie Rinderle-Ma, Wilfried Grossmann, and Karl Anton Fröschl</i>	
Extracting Data Manipulation Processes from SQL Execution Traces. . . . .	85
<i>Marco Mori, Nesrine Noughi, and Anthony Cleve</i>	
Mapping and Usage of Know-How Contributions . . . . .	102
<i>Arnon Sturm, Daniel Gross, Jian Wang, Soroosh Nalchigar, and Eric Yu</i>	
Facilitating Effective Stakeholder Communication in Software Development Processes . . . . .	116
<i>Vladimir A. Shekhovtsov, Heinrich C. Mayr, and Christian Kop</i>	
Towards Path-Based Semantic Annotation for Web Service Discovery. . . . .	133
<i>Julius Köpke, Johann Eder, and Dominik Joham</i>	
A Semantic-Aware Framework for Composite Services Engineering Based on Semantic Similarity and Concept Lattices . . . . .	148
<i>Ahmed Abid, Nizar Messai, Mohsen Rouached, Thomas Devogele, and Mohamed Abid</i>	

Work Systems Paradigm and Frames for Fractal Architecture  
of Information Systems . . . . . 165  
*Marite Kirikova*

Towards Ontology-Based Information Systems and Performance  
Management for Collaborative Enterprises . . . . . 181  
*Barbara Livieri and Mario Bochicchio*

**Innovative Tools and Prototypes**

Conciliating Model-Driven Engineering with Technical Debt  
Using a Quality Framework . . . . . 199  
*Fáber D. Giraldo, Sergio España, Manuel A. Pineda,  
William J. Giraldo, and Oscar Pastor*

Towards Supporting the Analysis of Online Discussions in OSS Communities:  
A Speech-Act Based Approach . . . . . 215  
*Itzel Morales-Ramirez, Anna Perini, and Mariano Ceccato*

Visual and Ontological Modeling and Analysis Support for Extended  
Enterprise Models . . . . . 233  
*Sagar Sunkle and Hemant Rathod*

Unified Process Modeling with UPROM Tool . . . . . 250  
*Banu Aysolmaz and Onur Demirörs*

**Case Study Report**

Requirements for IT Governance in Organizations Experiencing  
Decentralization . . . . . 269  
*Jelena Zdravkovic, Irina Rychkova, and Thomas Speckert*

**Author Index** . . . . . 287

Information Systems Engineering in Complex  
Environments

CAiSE Forum 2014, Thessaloniki, Greece, June 16-20,

2014, Selected Extended Papers

Nurcan, S.; Pimenidis, E. (Eds.)

2015, XII, 287 p. 106 illus., Softcover

ISBN: 978-3-319-19269-7
