

# Contents

## Computational Intelligence: Meta-heuristics

|   |    |
|---|----|
| Binary Bat Algorithm: On the Efficiency of Mapping Functions<br>When Handling Binary Problems Using Continuous-Variable-Based<br>Metaheuristics . . . . . | 3  |
| <i>Zakaria Abd El Moiz Dahi, Chaker Mezioud, and Amer Draa</i>  |    |
| Relative Timed Model for Coordinated Multi Agent Systems . . . . .  | 15 |
| <i>Said Layadi, Jean-Michel Ilié, Ilham Kitouni,<br/>and Djamel-Eddine Saidouni</i>   |    |

## Computational Intelligence: Object Recognition and Authentication

|  |    |
|--|----|
| A Novel Technique for Human Face Recognition Using Fractal Code<br>and Bi-dimensional Subspace . . . . . | 31 |
| <i>Benouis Mohamed, Benkkadour Mohamed Kamel,<br/>Tlmesani Redwan, and Senouci Mohamed</i>               |    |

## Computational Intelligence: Image Processing

|  |    |
|--|----|
| A New Rotation-Invariant Approach for Texture Analysis . . . . .                       | 45 |
| <i>Izem Hamouchene and Saliha Aouat</i>  |    |
| Multi-CPU/Multi-GPU Based Framework for Multimedia Processing . . .                    | 54 |
| <i>Sidi Ahmed Mahmoudi and Pierre Manneback</i>  |    |
| Full-Reference Image Quality Assessment Measure Based on Color<br>Distortion . . . . . | 66 |
| <i>Zianou Ahmed Seghir and Fella Hachouf</i>   |    |

## Computational Intelligence: Machine Learning

|  |    |
|--|----|
| Biomarker Discovery Based on Large-Scale Feature Selection and<br>MapReduce . . . . .                                  | 81 |
| <i>Ahlam Kourid and Mohamed Batouche</i>   |    |
| Social Validation of Solutions in the Context of Online Communities:<br>An Expertise-Based Learning Approach . . . . . | 93 |
| <i>Lydia Nahla Driff, Lamia Berkani, Ahmed Guessoum,<br/>and Abdellah Bendjahel</i>                                    |    |

|  |     |
|--|-----|
| Remotely Sensed Data Clustering Using K-Harmonic Means Algorithm<br>and Cluster Validity Index ..... | 105 |
| <i>Habib Mahi, Nezha Farhi, and Kaouter Labeled</i>  |     |

**Computational Intelligence: BioInformatics**

|  |     |
|--|-----|
| Comparison of Automatic Seed Generation Methods for Breast Tumor<br>Detection Using Region Growing Technique ..... | 119 |
| <i>Ahlem Melouah</i>   |     |
| IHBA: An Improved Homogeneity-Based Algorithm for Data<br>Classification .....                                     | 129 |
| <i>Fatima Bekaddour and Chikh Mohammed Amine</i>   |     |
| Multiple Guide Trees in a Tabu Search Algorithm for the Multiple<br>Sequence Alignment Problem .....               | 141 |
| <i>Tahar Mehenni</i>   |     |

**Information Technology: Text and Speech Processing**

|  |     |
|--|-----|
| Noise Robust Features Based on MVA Post-Processing .....   | 155 |
| <i>Mohamed Cherif Amara Korba, Djemil Messadeg,<br/>Houcine Bourouba, and Rafik Djemili</i>  |     |
| Arabic Texts Categorization: Features Selection Based on the<br>Extraction of Words' Roots .....                                     | 167 |
| <i>Said Gadri and Abdelouahab Moussaoui</i>  |     |
| Restoration of Arabic Diacritics Using a Multilevel Statistical Model ...  | 181 |
| <i>Mohamed Seghir Hadj Ameur, Youcef Moulahoum,<br/>and Ahmed Guessoum</i>   |     |
| A New Multi-layered Approach for Automatic Text Summaries<br>Mono-Document Based on Social Spiders .....                             | 193 |
| <i>Mohamed Amine Boudia, Reda Mohamed Hamou,<br/>Abdelmalek Amine, Mohamed Elhadi Rahmani,<br/>and Amine Rahmani</i>                 |     |
| Building Domain Specific Sentiment Lexicons Combining Information<br>from Many Sentiment Lexicons and a Domain Specific Corpus ..... | 205 |
| <i>Hugo Hammer, Anis Yazidi, Aleksander Bai, and Paal Engelstad</i>  |     |
| Improved Cuckoo Search Algorithm for Document Clustering .....   | 217 |
| <i>Saida Ishak Boushaki, Nadjet Kamel, and Omar Bendjeghaba</i>  |     |

## Information Technology: Requirement Engineering

|   |     |
|---|-----|
| Supporting Legal Requirements in the Design of Public Processes . . . . .                                     | 231 |
| <i>Amina Cherouana and Latifa Mahdaoui</i>  |     |
| Requirement Analysis in Data Warehouses to Support External<br>Information . . . . .                          | 243 |
| <i>Mohamed Lamine Chouder, Rachid Chalal, and Waffa Setra</i>   |     |
| Engineering the Requirements of Data Warehouses: A Comparative<br>Study of Goal-Oriented Approaches . . . . . | 254 |
| <i>Waffa Setra, Rachid Chalal, and Mohamed Lamine Chouder</i>   |     |

## Information Technology: OLAP and Web Services

|  |     |
|--|-----|
| Research and Analysis of the Stream Materialized Aggregate List . . . . .                      | 269 |
| <i>Marcin Gorawski and Krzysztof Pasterak</i>  |     |
| SOLAP On-the-Fly Generalization Approach Based on Spatial<br>Hierarchical Structures . . . . . | 279 |
| <i>Tahar Ziouel, Khalissa Amieur-Derbal, and Kamel Boukhalfa</i>                               |     |
| QoS-Aware Web Services Selection Based on Fuzzy Dominance . . . . .                            | 291 |
| <i>Amal Halfaoui, Fethallah Hadjila, and Fedoua Didi</i>                                       |     |

## Information Technology: Recommender Systems and Web Services

|  |     |
|--|-----|
| A Hybrid Model to Improve Filtering Systems . . . . .  | 303 |
| <i>Kharroubi Sahraoui, Dahmani Youcef, and Nouali Omar</i>   |     |
| Towards a Recommendation System for the Learner from a Semantic<br>Model of Knowledge in a Collaborative Environment . . . . . | 315 |
| <i>Chahrazed Mediani, Marie-Hélène Abel, and Mahieddine Djoudi</i>   |     |
| Toward a New Recommender System Based on Multi-criteria Hybrid<br>Information Filtering . . . . .                              | 328 |
| <i>Hanane Zitouni, Omar Nouali, and Souham Meshoul</i>   |     |

## Information Technology: Ontologies

|   |     |
|---|-----|
| A New Approach for Combining the Similarity Values in Ontology<br>Alignment . . . . . | 343 |
| <i>Moussa Benaïssa and Abderrahmane Khiaï</i>   |     |
| Exact Reasoning over Imprecise Ontologies . . . . .                                   | 355 |
| <i>Mustapha Bourahla</i>  |     |

|   |     |
|---|-----|
| Defining Semantic Relationships to Capitalize Content of Multimedia Resources ..... | 367 |
| <i>Mohamed Kharrat, Anis Jedidi, and Faiez Gargouri</i>                             |     |

**Security and Network Technologies: Security**

|   |     |
|---|-----|
| A Multi-agents Intrusion Detection System Using Ontology and Clustering Techniques .....      | 381 |
| <i>Imen Brahmi, Hanen Brahmi, and Sadok Ben Yahia</i>   |     |
| On Copulas-Based Classification Method for Intrusion Detection .....                          | 394 |
| <i>Abdelkader Khobzaoui, Mhamed Mesfioui, Abderrahmane Yousfate, and Boucif Amar Bensaber</i> |     |
| On-Off Attacks Mitigation against Trust Systems in Wireless Sensor Networks .....             | 406 |
| <i>Nabila Labraoui, Mourad Gueroui, and Larbi Sekhri</i>                                      |     |
| A Real-Time PE-Malware Detection System Based on CHI-Square Test and PE-File Features .....   | 416 |
| <i>Mohamed Belaoued and Smaine Mazouzi</i>  |     |

**Security and Network Technologies:  
Wireless Sensor Networks**

|   |     |
|---|-----|
| Balanced and Safe Weighted Clustering Algorithm for Mobile Wireless Sensor Networks ..... | 429 |
| <i>Dahane Amine, Berrached Nasr-Eddine, and Loukil Abdelhamid</i>                         |     |
| Distributed Algorithm for Coverage and Connectivity in Wireless Sensor Networks .....     | 442 |
| <i>Abdelkader Khelil and Rachid Beghdad</i>   |     |
| Optimizing Deployment Cost in Camera-Based Wireless Sensor Networks .....                 | 454 |
| <i>Mehdi Rouan Serik and Mejdî Kaddour</i>  |     |
| A version of LEACH Adapted to the Lognormal Shadowing Model .....                         | 465 |
| <i>Chifaa Tabet Hellel, Mohamed Lehsaini, and Hervé Guyennet</i>                          |     |

**Security and Network Technologies:  
Energy and Synchronisation**

|  |     |
|--|-----|
| High Velocity Aware Clocks Synchronization Approach in Vehicular Ad Hoc Networks ..... | 479 |
| <i>Khedidja Medani, Makhoulf Aliouat, and Zibouda Aliouat</i>                          |     |

|  |     |
|--|-----|
| An Energy-Efficient Fault-Tolerant Scheduling Algorithm Based on Variable Data Fragmentation ..... | 491 |
| <i>Chafik Arar, Mohamed Salah Khireddine, Abdelouahab Belazoui, and Randa Megulati</i>             |     |

|  |     |
|--|-----|
| Genetic Centralized Dynamic Clustering in Wireless Sensor Networks...  | 503 |
| <i>Mekkaoui Kheireddine, Rahmoun Abdellatif, and Gianluigi Ferrari</i> |     |

## Security and Network Technologies: Potpourri

|  |     |
|--|-----|
| Region-Edge Cooperation for Image Segmentation Using Game Theory ..... | 515 |
| <i>Omar Boudraa and Karima Benatchba</i>                               |     |

|  |     |
|--|-----|
| Improved Parameters Updating Algorithm for the Detection of Moving Objects ..... | 527 |
| <i>Brahim Farou, Hamid Seridi, and Herman Akdag</i>                              |     |

|  |     |
|--|-----|
| Towards Real-Time Co-authoring of Linked-Data on the Web.....    | 538 |
| <i>Moulay Driss Mechaoui, Nadir Guetmi, and Abdessamad Imine</i> |     |

## Software Engineering: Modeling and Meta Modeling

|  |     |
|--|-----|
| A High Level Net for Modeling and Analysis Reconfigurable Discrete Event Control Systems ..... | 551 |
| <i>Ahmed Kheldoun, Kamel Barkaoui, JiaFeng Zhang, and Malika Ioualalen</i>                     |     |

|  |     |
|--|-----|
| Hybrid Approach for Metamodel and Model Co-evolution ..... | 563 |
| <i>Fouzia Anguel, Abdelkrim Amirat, and Nora Bounour</i>   |     |

|   |     |
|---|-----|
| Extracting and Modeling Design Defects Using Gradual Rules and UML Profile..... | 574 |
| <i>Mohamed Maddeh and Sarra Ayouni</i>  |     |

|   |     |
|---|-----|
| An Approach to Integrating Aspects in Agile Development ..... | 584 |
| <i>Tadjer Houda and Meslati Djamel</i>                        |     |

## Software Engineering: Checking and Verification

|  |     |
|--|-----|
| On the Optimum Checkpointing Interval Selection for Variable Size Checkpoint Dumps ..... | 599 |
| <i>Samy Sadi and Belabbas Yagoubi</i>  |     |

|   |     |
|---|-----|
| Monitoring Checklist for Ceph Object Storage Infrastructure ..... | 611 |
| <i>Pragya Jain, Anita Goel, and S.C. Gupta</i>                    |     |

Towards a Formalization of Real-Time Patterns-Based Designs ..... 624  
    *Kamel Boukhelfa and Faiza Belala*

**Author Index** ..... 637
