

Contents

1	Introduction	1
1.1	What Are Bulk Nanostructured Metallic Materials and How Are They Processed?	1
1.2	About Importance of Multifunctional Approach in Studies on Metallic Materials	6
	References	7
2	Nanostructures in Materials Subjected to Severe Plastic Deformation	11
2.1	Grain Refinement via Severe Plastic Deformation	13
2.2	Grain Boundaries in Nanostructured Materials	14
2.3	Nanotwins in Metallic Materials After Severe Plastic Deformation	18
2.4	Segregations in Nanostructured Alloys Processed by Severe Plastic Deformation	19
2.5	Precipitation of Second Phases in Alloys During and/or After Severe Plastic Deformation	21
	References	24
3	Multifunctional Properties of Bulk Nanostructured Metallic Materials	27
3.1	Superstrength and Enhanced Mechanical Properties	27
3.1.1	Superstrength and Ductility	28
3.1.2	Fatigue Properties of Nanostructured Metallic Materials	42
3.1.2.1	High-Cycle Fatigue Behavior of Nanostructured Metallic Materials	43
3.1.2.2	Low-Cycle Fatigue Behavior of Nanostructured Metallic Materials	46

3.1.2.3	Strategies to Increase Fatigue Properties of Nanostructured Metallic Materials.	47
3.1.3	Wear Resistance.	49
3.2	Improved Physical Properties.	54
3.2.1	Electrical Conductivity	54
3.2.2	Magnetic Properties	62
3.2.3	Irradiation Resistance of Bulk Nanostructured Metallic Materials.	67
3.3	Enhanced Chemical Properties	73
3.3.1	Corrosion Resistance.	73
3.3.2	Biocompatibility.	79
	References	86
4	Bulk Nanostructured Metals for Innovative Applications	101
4.1	Nanostructured Ti and Ti Alloys for Biomedical Engineering. . .	101
4.2	Nanostructured Cu and Al Alloys for Perspective Electro-Conductors	105
4.3	Nanostructured Mg Alloys for Hydrogen Storage	106
4.4	Large-Size Tools Made from Bulk Nanostructured Metallic Materials.	107
4.5	Micro- and Mini-devices from Bulk Nanostructured Materials . .	108
4.6	Nanostructured Magnets	109
4.7	Bulk Nanostructured Materials for Sport Industry	110
4.8	Bulk Nanostructured Materials for Fabrication of Fasteners and Fixings	111
	References	112
	Index	115

Bulk Nanostructured Materials with Multifunctional
Properties

Sabirov, I.; Enikeev, N.A.; Murashkin, M.Y.; Valiev, R.Z.
2015, VIII, 118 p. 64 illus., 28 illus. in color., Softcover
ISBN: 978-3-319-19598-8
