

# Contents

<b>Hereditary CRC Syndromes .....</b>	<b>1</b>
Manish Gala and Daniel C. Chung	
<b>Microsatellite Instability and Intestinal Tumorigenesis .....</b>	<b>29</b>
Meena A. Prasad and Barbara Jung	
<b>Biology of Intestinal Epithelial Stem Cells .....</b>	<b>55</b>
Noah F. Shroyer, Kristin Bell and Yuan-Hung Lo	
<b>The Role of PI3K Signaling Pathway in Intestinal Tumorigenesis.....</b>	<b>101</b>
Jennifer W. Harris, Tianyan Gao and B. Mark Evers	
<b>The Epigenetics in Intestinal Tumorigenesis .....</b>	<b>137</b>
Leticia Moreira, Francesc Balaguer and Ajay Goel	
<b>MicroRNA Involvement in Intestinal Tumorigenesis .....</b>	<b>169</b>
Naohiro Nishida and George A. Calin	
<b>Microbiome Implications in Intestinal Tumorigenesis .....</b>	<b>189</b>
David Posocco, Oxana Dmitrieva and Sergei I. Grivennikov	
<b>Inflammation and Colorectal Cancer .....</b>	<b>211</b>
Rishu Dheer, Julie M. Davies and Maria T. Abreu	
<b>Sphingolipids in Intestinal Inflammation and Tumorigenesis .....</b>	<b>257</b>
Mónica García-Barros, Nicolas Coant and Ashley J. Snider	
<b>Aging: An Etiological Factor in The Development of Intestinal Tumorigenesis.....</b>	<b>287</b>
Jyoti Nautiyal, Krystyn Purvis and Adhip P. N. Majumdar	

<b>Epithelial to Mesenchymal Transition (EMT) and Intestinal Tumorigenesis.....</b>	<b>309</b>
Ashleigh Pulkoski-Gross, Xi E. Zheng, Deborah Kim, Jillian Cathcart and Jian Cao	
<b>Omics and Biomarkers Development for Intestinal Tumorigenesis.....</b>	<b>365</b>
Mehmet Koyuturk and Rod K. Nibbe	
<b>Targeted Therapies For Intestinal Tumorigenesis .....</b>	<b>391</b>
E. Gabriela Chiorean, Andrew Covelev, Jon Grim and William M. Grady	
<b>Index.....</b>	<b>441</b>

Intestinal Tumorigenesis

Mechanisms of Development & Progression

Yang, V.W.; Bialkowska, A.B. (Eds.)

2015, XI, 445 p., Hardcover

ISBN: 978-3-319-19985-6
