

Contents

1	Introduction.....	1
2	Clinical Diagnosis.....	7
2.1	A Complete Medical Evaluation for Tuberculosis (TB) Includes the Following Five Components	8
2.1.1	Medical History	8
2.1.2	Physical Examination.....	8
2.1.3	Test for TB Infection.....	9
2.1.4	Chest X-Ray.....	9
2.1.5	Bacteriologic Examination of Clinical Specimens	11
2.2	Other Tests	11
2.2.1	Adenosine Deaminase (ADA)	11
2.2.2	Histopathology	12
2.3	Evaluation of Diagnostic Methods in EPTB.....	14
2.3.1	Diagnosis of Miliary TB	14
2.3.2	Diagnosis of Pleural TB.....	16
2.3.3	Diagnosis of Meningeal TB	16
2.3.4	Diagnosis of Pericardial TB.....	16
2.3.5	Diagnosis of Lymph Node TB	16
2.3.6	Diagnosis of Abdominal TB	17
2.3.7	Diagnosis of Resistance to Anti-TB Drugs.....	17
	References.....	17
3	Bacteriological Diagnosis.....	19
3.1	Sampling Methods	19
3.1.1	Importance of Sample Collection and Processing in Pulmonary TB.....	20
3.1.2	Specimen Collection Methods in Extrapulmonary TB.....	20
3.1.3	Acid-fast Bacilli Smear Classification and Results	21
3.1.4	Evolution of the Microbiological Techniques Used to Diagnose Tuberculosis.....	21

3.1.5	Conventional Microbiological Techniques in the Diagnosis of Tuberculosis.....	22
3.1.6	Smear Microscopy	22
3.1.7	Auramine–Rhodamine Fluorescent Staining	23
3.1.8	Light-Emitting Diode Microscopy.....	24
3.2	Culture Methods.....	24
3.2.1	LJ Culture.....	24
3.2.2	Liquid Culture, DST	26
3.2.3	MB/BacT System.....	26
3.2.4	The MGIT	26
3.2.5	Non-commercial Culture Methods	27
3.2.6	Newer Solid Cultures	27
3.3	Identification of Mycobacteria	27
3.3.1	Reporting Results.....	28
3.3.2	In Vitro MTB Drug Susceptibility Testing.....	29
3.3.3	Diagnosis of Active TB.....	30
3.3.4	Volatile Organic Compounds	30
3.3.5	Breath Sample Collection	30
3.3.6	Breath Sample Analysis	31
3.3.7	Active Non-PTB	31
	References.....	33
4	Molecular Diagnosis.....	35
4.1	Introduction.....	35
4.2	Nucleic Acid Amplification Test	37
4.2.1	PCR.....	38
4.2.2	Line Probe Assays (LPAs) (INNO-LiPA Rif TB Assay, MTBDRsl).....	38
4.2.3	GeneXpert	38
4.2.4	Policy Updates	39
4.2.5	Implementation of Existing Technologies	40
4.2.6	Planned Technology Refinements of GeneXpert	41
4.3	Other Isothermal NAATs	42
4.3.1	Transcription Mediated Amplification/Nucleic Acid Sequence Based Amplification	42
4.3.2	Simple Method for Amplifying RNA Targets.....	43
4.3.3	Recombinase Polymerase Amplification	44
4.3.4	Helicase-Dependent Amplification	44
4.3.5	Rolling Circle Amplification.....	45
4.3.6	Ramification-Extension Amplification.....	46
4.3.7	Loop-Mediated Isothermal Amplification.....	47
4.3.8	Cross-Priming Amplification	48
4.3.9	Smart Amplification Process (SmartAmp).....	49

4.3.10	Strand Displacement Amplification	49
4.3.11	Nicking Enzyme Amplification Reaction.....	50
4.3.12	Nicking Enzyme-Mediated Amplification (NEMA).....	50
4.3.13	Isothermal Chain Amplification	50
4.3.14	Exponential Amplification Reaction	51
4.3.15	Limitations of Amplification Tests	51
4.3.16	Future Perspectives	51
4.4	Conclusions.....	51
	References.....	53
5	TB Infection.....	55
5.1	Introduction.....	55
5.2	Tuberculin Skin Test	57
5.2.1	Tuberculin	58
5.2.2	Pathogenic Basis of TST	58
5.2.3	Immunological Bases of the Tuberculin Reaction	58
5.2.4	Factors Influencing the Test Result	59
5.2.5	False Negative Readings	63
5.2.6	False Positive Readings.....	63
5.2.7	Boosted Reaction and Serial Tuberculin Skin Testing	64
5.2.8	Previous BCG Vaccination.....	64
5.2.9	Definition of TST Conversions	64
5.2.10	Anergy Test in HIV-Infected Individuals	65
5.2.11	TST Indications	65
5.3	IFN γ Detection (IGRA)	65
5.3.1	Immune Response to TB Infection	66
5.3.2	General Recommendations for the Use of IGRA.....	66
5.3.3	Types of IGRA	68
5.3.4	Test Performance and Interpretation	68
5.3.5	Advantages of IGRA Over TST	68
5.3.6	Sensitivity and Specificity	69
5.3.7	Clinical Performance of IGRA.....	70
5.3.8	IGRA in Immunosuppressed Patients	70
5.3.9	Cost-Effectiveness.....	71
5.3.10	International Guidelines on IGRA Use	71
	References.....	72
	Index.....	73

Practical and Laboratory Diagnosis of Tuberculosis
From Sputum Smear to Molecular Biology

Garcia - Elorriaga, G.; del Rey Pineda, G.

2015, XIII, 75 p. 8 illus. in color.,

ISBN: 978-3-319-20478-9
