Harvesting, Packing, and Ripening Problems.....	35
Immature Harvesting	35
Application of Ethephon	35
Ripening with Calcium Carbide (CaC ₂).....	36
Modern Ripening Process	36
Overfilling and Overloading	37
Exposure to Sun	38
Poor Quality Packaging Materials	39
Wrong Method for Determination of Fruit Firmness.....	39
Storage and Handling Problems.....	40
Insufficient Storage Capacity	40
Multiple Handling	40
Long Chain of Intermediaters	41
Non-existent Infrastructure at the Wholesale Markets	41
Very High Postharvest Losses.....	42
Unfair Price Fixation.....	42
Factors Affecting Sales of Fresh Produce	42
Presence of Substitute Crops	43
Sale Price of Substitute Crops.....	43
Presence of Festivals.....	43
Marriage Season.....	44
Eating Habits and Preferences	44
Price of Imported Fruits	44
Presence of Competitor Crops	44
Price During Season.....	44
More Arrival in a Particular Day	45
Sunday Factor	45
Weather Factor	45
Quality.....	45
Presence of Corporate Buyers.....	46
Currency Value.....	46
