

Contents

1	Continuous-Time and Discrete-State Branching Processes	1
1.1	Introduction	1
1.2	Single-Type Branching Processes	1
1.2.1	Birth-Death	5
1.3	Multi-Type Branching Processes	7
1.3.1	Birth-Death-Dispersal	9
1.4	Summary	12
2	Applications of Single-Type Branching Processes	13
2.1	Introduction	13
2.2	SIRS Epidemic	13
2.3	Species Invasion	17
2.4	Summary	20
3	Applications of Multi-Type Branching Processes	21
3.1	Introduction	21
3.2	SEIR Epidemic	22
3.3	Epidemic Dispersal	24
3.4	Summary	27
4	Continuous-Time and Continuous-State Branching Processes	29
4.1	Introduction	29
4.2	Single-Type Branching Processes	30
4.3	Applications	32
4.3.1	Logistic Growth	32
4.3.2	SIR Epidemic	34
4.4	Summary	34

A	MatLaB Programs	37
A.1	MatLaB Programs: Chapter 1	37
A.2	MatLaB Programs: Chapter 2	38
A.3	MatLaB Programs: Chapter 4	42
	References	45
	Index	47

Stochastic Population and Epidemic Models
Persistence and Extinction

Allen, L.S.

2015, X, 47 p. 12 illus. in color., Softcover
