

TABLE OF CONTENTS

ABBREVIATIONS	VII
LIST OF FIGURES.....	IX
TABLE OF CONTENTS.....	XI
1 Introduction	1
1.1 Motivation and Practical Relevance	1
1.2 Existing Research.....	3
1.3 Objective and Boundaries	5
1.4 Research Approach	9
2 Theoretical Background	15
2.1 Product – Service and Physical Good	15
2.2 From Invention to Innovation	16
2.3 Innovation Processes and Open Innovation Approaches.....	19
2.3.1 Generations of Innovation Process Models	19
2.3.2 Phases, Differentiation and Practical Integration	21
2.4 Cross-Industry Innovation.....	23
2.4.1 The ICT Industry and its R&D Characteristics	23
2.4.2 Collaboration in Innovation Projects	25
3 Methodology	27
3.1 General Considerations	27
3.2 Selection of Cases	29
3.3 Data Collection Method	32
3.4 Design of Guideline	33
3.5 Realization of Data Collection.....	34
3.6 Data Analysis	35
4 Within-Case Analysis.....	45
4.1 Telco-Energy-Industry Service Innovation Project	46
4.2 Telco-Automotive-Industry Service Innovation Project.....	58
4.3 Telco-Health-Industry Service Innovation Project	74
5 Cross-Case Analysis	87
5.1 Market and Industry Specifics and Commonalities	87
5.2 Innovation Project Characteristics	89
5.2.1 Structure and Management	89
5.2.2 Process Phases	93

5.3 Cross-Industry Collaboration.....	94
5.4 Organizational Environment.....	96
5.4.1 Traditional Resource Allocation.....	96
5.4.2 Organizational and Procedural Changes took place.....	97
5.4.3 Environmental Rigidity.....	98
5.4.4 General Conditions.....	100
6 Analysis and Discussion of Findings with Existing Literature.....	103
6.1 Market and Industry.....	103
6.1.1 Innovation Speed and Approach.....	103
6.1.2 Commercialization and Customer Acceptance.....	104
6.2 Innovation Project.....	105
6.2.1 Pilot Customer and/or Innovation Partner.....	106
6.2.2 Innovation Project Phases and Activities.....	107
6.2.3 Project Management.....	109
6.3 Cross-Industry Collaboration.....	110
6.3.1 Partner Selection.....	110
6.3.2 Contractual Structures and Trust.....	113
6.3.3 Methods and Tools to Improve Collaboration.....	114
6.4 Organizational Environment.....	116
6.4.1 Processes and Structure.....	116
6.4.2 Incentive and Support Systems.....	118
7 Practical Strategic Implications.....	121
7.1 Conduction of Cross-Industry Service Innovation Projects.....	121
7.1.1 Practical Process Model for Telecommunication Companies....	121
7.1.2 Parallel and On-going Activities.....	128
7.1.3 Overarching Project Structure and Management.....	130
7.2 Organizational Preconditions and Requirements.....	131
7.2.1 Located within the Company's Structure.....	131
7.2.2 Companies processes.....	134
7.3 Collaboration Fit.....	136
7.3.1 Mindset and Organizational Conditions.....	137
7.3.2 Common Preconditions and Project Structure.....	137
7.3.3 Harmonization and Intensity of Collaboration.....	139
7.4 Portfolio Expansion.....	140
7.4.1 Transfer and Anchor of Innovation.....	141
7.4.2 Self-Concept, Strategy and New Services.....	142
7.5 Overall Considerations in Practical Realization.....	143

7.5.1 Impact and Interdependency within the Telco Organization.....	143
7.5.2 Transferability – Deliberations for Potential Partners	145
8 Impact on Existing Theoretical Innovation Process Models	147
8.1 Requirements for Theoretical Innovation Models	147
8.2 Propositions for Theoretical Innovation Process Models	149
8.2.1 Extended Fuzzy Front End.....	150
8.2.2 New Explicit Phase in the Innovation Process	151
8.2.3 Sequential Phases and Parallel Activities	152
8.2.4 Innovation Network – Additional Components.....	154
8.2.5 Innovation Network – Characteristics	155
9 Conclusion	159
9.1 Practical Contributions.....	159
9.2 Theoretical Contributions	161
9.3 Limitations and Further Research	163
REFERENCES.....	167
APPENDIX.....	187
I. Interview Guideline.....	187

Cross-Industry Innovation Processes
Strategic Implications for Telecommunication
Companies

Hahn, T.

2015, XIII, 190 p. 16 illus., Softcover

ISBN: 978-3-658-08826-2
