

Contents

1 Literature Review and Research Framework	1
1.1 Literature Review on the Effectiveness of Monetary Policy Regulation on Economic Growth and Inflation	1
1.2 Literature Review on the Appropriateness of Money Policy Regulation on Asset Price	3
1.3 Literature Review on Financial System Risk Prevention and Regulation	5
1.3.1 Literature Review on Systemic Financial Risk Prevention	5
1.3.2 Literature Review on Macro-Prudential Regulation on Financial System	11
1.4 Research Content and Framework	13
1.5 Content, Research Method, Academic Innovation, Academic Value and Limitations	15
1.5.1 The Content of This Book Mainly Covers the Following	15
1.5.2 Research Methods	16
1.5.3 Theoretical Innovation	17
1.5.4 Limitations	18
2 Effectiveness Study of Chinese Monetary Policy Regulation on Economic Growth and Inflation	19
2.1 Retrospect of Chinese Monetary Policy	20
2.1.1 Exploration Stage: From Reform and Opening up to 1992	20
2.1.2 Optimization Stage: From 1993 to 1996	21
2.1.3 Gradual Maturity Stage: Since 1997	22
2.2 Intermediary Target: An Important Guarantee for Monetary Policy Effectiveness	25
2.2.1 Interest Rate, an Immature Choice	26
2.2.2 Interest Rate, an Immature Choice	26
2.2.3 Money Supply, an Ideal Choice	26

2.3	Empirical Effectiveness Research on China's Monetary Policy Regulation on Economic Growth and Price Level	27
2.3.1	Model Establishment	27
2.3.2	Data Collection and Processing	29
2.3.3	Basic Statistical Characteristics	29
2.3.4	Empirical Analysis Based on MGARCH-BEKK Model	30
2.4	Conclusions on the Effectiveness of Money Policy Regulation.	31
3	Appropriateness Study of Monetary Policy Regulation on Real Estate Price	33
3.1	Real Estate Development and Macro-Control from 1998 to 2013.	33
3.1.1	The Development of Chinese Real Estate Industry and Market	33
3.1.2	Government Macro-Control Measures.	36
3.2	Research Hypothesis and Quantitative Model Selection	40
3.2.1	Hypothesis Research: Based on the Ultimate Goal	40
3.2.2	Hypothesis Research: Based on the Interest Gaming Between Central and Local Government	41
3.3	Empirical Analysis of Monetary Policy Impact on Real Estate Price	45
3.3.1	Quantitative Model Establishment	45
3.3.2	Growth Speed Model	46
3.3.3	Data Collection and Processing	47
3.3.4	Basic Statistical Characteristics	47
3.3.5	Empirical Analysis Based on MGARCH-BEKK Model	48
3.3.6	Empirical Analysis Based on GARCH Mean Equation Model	53
3.4	Research Conclusion and Policy Suggestions	54
3.4.1	Basic Conclusion	54
3.4.2	Policy Suggestions	54
4	Appropriateness Study of Monetary Policy Regulation on Stock Price	61
4.1	Development Retrospect of China's New Capital Market	61
4.1.1	Development of China's Capital Market in the Recent Decades	61
4.1.2	Policy Factors Affecting China's Stock Market	64
4.2	Monetary Policy Impact on Chinese Stock Market	66
4.2.1	Economic Growth Rate Model.	67
4.2.2	Fluctuation Correlation Model.	68
4.2.3	Data Collection, Processing, and Basic Statistic Characteristics	69
4.2.4	Empirical Analysis Based on GARCH Mean Equation Model	70
4.2.5	Empirical Analysis Based on MGARCH-BEKK Model	71
4.3	Research Conclusion and Policy Suggestions	74

5 Appropriateness Study of Monetary Policy Regulation on Bond Price	79
5.1 Development Retrospect of Chinese Bond Market	79
5.1.1 Bond Development—General History	79
5.1.2 Bond Development History—From Product Perspective . . .	82
5.1.3 China's Bond Market Versus Overseas Bond Market	82
5.2 Description of Policies Affecting China's Bond Market After 2006 . .	84
5.2.1 Affecting Bond Market by Means of Impact on Money Supply	84
5.2.2 Adjusting Bond Market by Affecting Market Interest Rate . . .	84
5.2.3 Setting Market Access Requirements to Adjust Bond Market.	85
5.2.4 Adjusting Bond Issuance Approval Progress to Adjust Bond Market	86
5.3 Empirical Analysis Based on Chinese Bond Market	86
5.3.1 Data Collection and Processing	86
5.3.2 Basic Statistic Characteristics	89
5.3.3 Empirical Analysis Based on GARCH Mean Equation Model	90
5.3.4 Empirical Analysis Based on MGARCH-BEKK Model	91
5.4 Policy Suggestions on Improving the Appropriateness of Monetary Policy Regulation on Bond Market	94
5.4.1 Forward-Looking in Monetary Policy Formulation and Implementation	94
5.4.2 Changing Fragmented Regulatory Framework	95
5.4.3 Introducing Government Bond Futures in Due Time to Widen Interest Rate Derivatives	95
5.4.4 Performing Net Settlement.	96
5.4.5 Vigorously Promoting Innovative Bond Issuance	96
5.4.6 Improving Market Maker System	97
6 Appropriateness Study of Monetary Policy Regulation on Futures Market	99
6.1 Development Retrospect of Chinese Futures Market.	99
6.1.1 Promoting Basic System Construction for Laws and Regulations and Vigorously Improving Market Development Basis and Supervision Environment	100
6.1.2 Accelerating Innovation of Commodity Futures Categories, Financial Futures Market Taken Initial Shape Smoothly and Soundly	100
6.1.3 Market Functions Taken Initial Shape and the Capability to Serve the National Economic Development Keeping Improving.	100
6.1.4 Transformation in Regulation Ideas and Approaches	101

6.2	Monetary Policy Impact on Chinese Futures Market.	103
6.2.1	Review of Chinese Monetary Policies (1999—July, 2011) . . .	103
6.2.2	Monetary Policy Impact on Futures Market.	107
6.3	Monetary Policy Impact on Futures Variety.	108
6.4	Empirical Analysis Based on Chinese Futures Market	114
6.4.1	Data Collection and Processing	114
6.4.2	Basic Statistical Characteristics	115
6.4.3	Empirical Analysis Based on GARCH Mean Equation Model	116
6.4.4	Empirical Analysis Based on MGARCH-BEKK Model . . .	116
6.5	Policy Suggestions on Enhancing Monetary Policy Appropriateness and Perfecting Futures Market	119
7	Study on Chinese Systemic Risk Prevention.	123
7.1	Systemic Financial Risk Measurement	123
7.1.1	Measurement of Systemic Financial Risk	123
7.1.2	Prewarning of Systemic Financial Risk	124
7.2	Model Establishment and Parameter Estimation	126
7.3	Description and Selection of Financial Risk Prewarning Indicator	128
7.3.1	Risk Prewarning Indicator System.	128
7.3.2	Pressure Index Construction.	129
7.4	Model and Empirical Test	131
7.4.1	Early Warning Model Test on Currency Crisis.	132
7.4.2	Prewarning Model Test on Bank Crisis	133
7.4.3	Prewarning Model Test on Asset Bubble	135
7.4.4	Early Warning on Financial Risks	137
7.5	Conclusions and Policy Suggestions	137
7.5.1	Empirical Conclusions	137
7.5.2	Macro-Policy Suggestions	141
8	Study on Building China's Financial Supervision System	143
8.1	Latest Trend of Financial Supervision of Developed Economies and Enlightenment to China.	143
8.1.1	Main Content of US Emergency Financial Supervision . . .	143
8.1.2	Main Content of US Financial Regulation Reform Act . . .	145
8.1.3	Main Content of Pan-European Financial Regulatory Act. . .	148
8.1.4	Enlightenment of the New Trend of International Financial Supervision to China	152
8.2	Construct China's Macro-Prudential Regulatory System	157
8.2.1	Connotation and Objective of Macro-Prudential Regulation	157
8.2.2	Components of Macro-Prudential Regulatory System.	158

8.3	Empirical Study on China’s Financial Procyclicality and Its Mitigation System.	159
8.3.1	Empirical Study on China’s Financial Procyclicality.	159
8.3.2	Mitigation Mechanism Analysis.	170
8.4	Conclusions and Policy Suggestions	174
