

Preface

This report is a regular serial result of the “China Quarterly Macroeconomic Model (CQMM),” a project of the Center for Macroeconomic Research (CMR) at Xiamen University. The CMR is one of the Key Research Institutes of Humanities and Social Sciences of the Ministry of Education of China. The research is funded by the National Social Science Foundation of China (13&ZD029), the Youth Project of the National Social Science Foundation of China (13CJL017), and the Key Research Institutes of Humanities and Social Sciences of the Ministry of Education of China (14JJD790007, 13JJD790026, 13JJD790025, 12JJD790001).

Since the launch of CQMM 8 years ago, 16 forecast reports with policy simulations and 9 essay collection books on China’s macroeconomic analysis have been published. This is the 17th forecast report, which is a summary of the forecast results to be released at the “2014 International Symposium on China’s Macroeconomy and CQMM (Autumn) Press Conference on Macroeconomic Projections for 2014–2015.” The Symposium will be jointly organized by the Center for Macroeconomic Research, Xiamen University, Springer Press and the Economic Information Daily, Xinhua News Agency in Heidelberg, Germany, on September 11–12, 2014.
