## Part I Real-Valued MADM Methods and Their Applications

<b>1 Real-Valued MADM with Weight Information Unknown</b>	<b>3</b>
1.1 MADM Method Based on OWA Operator	3
1.1.1 OWA Operator	3
1.1.2 Decision Making Method	9
1.1.3 Practical Example	11
1.2 MAGDM Method Based on OWA and CWA Operators	13
1.2.1 CWA Operator	13
1.2.2 Decision Making Method	14
1.2.3 Practical Example	16
1.3 MADM Method Based on the OWG Operator	18
1.3.1 OWG Operator	18
1.3.2 Decision Making Method	19
1.3.3 Practical Example	19
1.4 MADM Method Based on OWG Operator	21
1.4.1 CWG Operator	21
1.4.2 Decision Making Method	23
1.4.3 Practical Example	24
1.5 MADM Method Based on Maximizing Deviations	26
1.5.1 Decision Making Method	26
1.5.2 Practical Example	29
1.6 MADM Method Based on Information Entropy	30
1.6.1 Decision Making Method	30
1.6.2 Practical Example	31
1.7 MADM Method with Preference Information on Alternatives	32
1.7.1 Preliminaries	33
1.7.2 Decision Making Method	35
1.8 Consensus Maximization Model for Determining Attribute Weights in MAGDM [135]	45
1.8.1 Consensus Maximization Model	45
1.8.2 Practical Example	48

<b>2</b>	<b>MADM with Preferences on Attribute Weights .....</b>	<b>51</b>
2.1	Priority Methods for a Fuzzy Preference Relation.....	51
2.1.1	Translation Method for Priority of a Fuzzy Preference Relation .....	51
2.1.2	Least Variation Method for Priority of a Fuzzy Preference Relation .....	55
2.1.3	Least Deviation Method for Priority of a Fuzzy Preference Relation .....	57
2.1.4	Eigenvector Method for Priority of a Fuzzy Preference Relation .....	66
2.1.5	Consistency Improving Algorithm for a Fuzzy Preference Relation .....	68
2.1.6	Example Analysis.....	75
2.2	Incomplete Fuzzy Preference Relation .....	77
2.3	Linear Goal Programming Method for Priority of a Hybrid Preference Relation .....	86
2.4	MAGDM Method Based on WA and CWA Operators.....	89
2.5	Practical Example.....	90
2.6	MAGDM Method Based on WG and CWG Operators .....	94
2.7	Practical Example.....	95
<b>3</b>	<b>MADM with Partial Weight Information .....</b>	<b>99</b>
3.1	MADM Method Based on Ideal Point .....	99
3.1.1	Decision Making Method.....	99
3.1.2	Practical Example.....	102
3.2	MADM Method Based on Satisfaction Degrees of Alternatives .....	104
3.2.1	Decision Making Method.....	104
3.2.2	Practical Example.....	105
3.3	MADM Method Based on Maximizing Variation Model .....	108
3.3.1	Decision Making Method.....	108
3.3.2	Practical Example.....	109
3.4	Two-Stage-MADM Method Based on Partial Weight Information ..	111
3.4.1	Decision Making Method.....	111
3.4.2	Practical Example.....	113
3.5	MADM Method Based on Linear Goal Programming Models .....	116
3.5.1	Models.....	117
3.5.2	Decision Making Method.....	121
3.5.3	Practical Example.....	121
3.6	Interactive MADM Method Based on Reduction Strategy for Alternatives.....	123
3.6.1	Decision Making Method.....	123
3.6.2	Practical Example.....	125

3.7	Interactive MADM Method Based on Achievement Degrees and Complex Degrees of Alternatives.....	128
3.7.1	Definitions and Theorems .....	128
3.7.2	Decision Making Method.....	131
3.7.3	Practical Example.....	132

## **Part II Interval MADM Methods and Their Applications**

<b>4</b>	<b>Interval MADM with Real-Valued Weight Information .....</b>	<b>137</b>
4.1	MADM Method Based on Possibility Degrees.....	137
4.1.1	Possibility Degree Formulas for Comparing Interval Numbers .....	137
4.1.2	Ranking of Interval Numbers.....	140
4.1.3	Decision Making Method.....	141
4.1.4	Practical Example.....	143
4.2	MADM Method Based on Projection Model.....	145
4.2.1	Decision Making Method.....	145
4.2.2	Practical Example.....	146
4.3	MADM Method Based on Interval TOPSIS .....	148
4.3.1	Decision Making Method.....	148
4.3.2	Practical Example.....	149
4.4	MADM Methods Based on UBM Operators .....	151
4.4.1	The UBM Operators and Their Application in MADM.....	152
4.4.2	UBM Operators Combined with OWA Operator and Choquet Integral and Their Application in MADM.....	163
4.5	Minimizing Group Discordance Optimization Models for Deriving Expert Weights .....	168
4.5.1	Decision Making Method.....	168
4.5.2	Practical Example.....	171
<b>5</b>	<b>Interval MADM with Unknown Weight Information .....</b>	<b>177</b>
5.1	MADM Method Without Preferences on Alternatives.....	177
5.1.1	Formulas and Concepts .....	177
5.1.2	Decision Making Method.....	178
5.1.3	Practical Example.....	180
5.2	MADM Method with Preferences on Alternatives .....	182
5.2.1	Decision Making Method.....	182
5.2.2	Practical Example.....	184
5.3	UOWA Operator.....	187
5.4	MADM Method Based on UOWA Operator.....	191
5.4.1	MADM Method Without Preferences on Alternatives.....	191
5.4.2	Practical Example.....	192

5.4.3	MADM Method with Preference Information on Alternatives .....	195
5.4.4	Practical Example.....	196
5.5	Consensus Maximization Model for Determining Attribute Weights in Uncertain MAGDM [135] .....	199
5.5.1	Consensus Maximization Model under Uncertainty.....	199
5.5.2	Practical Example.....	203
6	<b>Interval MADM with Partial Weight Information .....</b>	<b>207</b>
6.1	MADM Based on Single-Objective Optimization Model .....	207
6.1.1	Model .....	207
6.1.2	Practical Example.....	210
6.2	MADM Method Based on Deviation Degree and Possibility Degree .....	214
6.2.1	Algorithm .....	214
6.2.2	Practical Example.....	215
6.3	Goal Programming Method for Interval MADM.....	218
6.3.1	Decision Making Method.....	218
6.3.2	Practical Example.....	219
6.4	Minimizing Deviations Based Method for MADM with Preferences on Alternatives.....	221
6.4.1	Decision Making Method.....	221
6.4.2	Practical Example.....	222
6.5	Interval MADM Method Based on Projection Model .....	225
6.5.1	Model and Method .....	225
6.5.2	Practical Example.....	228
6.6	Interactive Interval MADM Method Based on Optimization Level.....	231
6.6.1	Decision Making Method.....	231
6.6.2	Practical Example.....	233

**Part III Linguistic MADM Methods and Their Applications**

7	<b>Linguistic MADM with Unknown Weight Information.....</b>	<b>237</b>
7.1	MADM Method Based on GIOWA Operator .....	237
7.1.1	GIOWA Operator .....	237
7.1.2	Decision Making Method.....	240
7.1.3	Practical Example.....	242
7.2	MADM Method Based on LOWA Operator .....	245
7.2.1	Decision Making Method.....	245
7.2.2	Practical Example.....	247
7.3	MADM Method Based on EOWA Operator .....	249
7.3.1	EOWA Operator .....	249
7.3.2	Decision Making Method.....	254
7.3.3	Practical Example.....	254
7.4	MADM Method Based on EOWA and LHA Operators.....	255

7.4.1	EWA Operator .....	255
7.4.2	LHA Operator.....	257
7.4.3	Decision Making Method.....	259
7.4.4	Practical Example.....	259
<b>8</b>	<b>Linguistic MADM Method with Real-Valued or Unknown Weight Information .....</b>	<b>263</b>
8.1	MADM Method Based on EWA Operator .....	263
8.1.1	Decision Making Method.....	263
8.1.2	Practical Example.....	264
8.2	MAGDM Method Based on EWA and LHA Operators.....	265
8.2.1	Decision Making Method.....	265
8.2.2	Practical Example.....	266
8.3	MAGDM with Multigranular Linguistic Labels [164] .....	269
8.3.1	Transformation Relationships Among TRMLs .....	269
8.3.2	Decision Making Method.....	278
8.3.3	Practical Example.....	285
8.4	MADM with Two-Dimension Linguistic Aggregation Techniques [165].....	287
8.4.1	Two-Dimension Linguistic Labels.....	287
8.4.2	MADM with 2DLWA Operator .....	293
8.4.3	MADM with 2DLOWA Operator .....	299
8.4.4	Practical Example.....	301
<b>9</b>	<b>MADM Method Based on Pure Linguistic Information .....</b>	<b>307</b>
9.1	MADM Method Based on LWM Operator .....	307
9.1.1	LWM Operator .....	307
9.1.2	Decision Making Method.....	309
9.2	Practical Example.....	310
9.3	MAGDM Method Based on LWM and HLWA Operators.....	311
9.3.1	HLWA Operator .....	311
9.3.2	Decision Making Method.....	316
9.4	Practical Example.....	317
<b>Part IV Uncertain Linguistic MADM Methods and Their Applications</b>		
<b>10</b>	<b>Uncertain Linguistic MADM with Unknown Weight Information.....</b>	<b>323</b>
10.1	MADM Method Based on UEOWA Operator .....	323
10.1.1	UEOWA Operator .....	323
10.1.2	Decision Making Method.....	326
10.1.3	Practical Example.....	327
10.2	MAGDM Method Based on UEOWA and ULHA Operators.....	330
10.2.1	UEWA Operator .....	330
10.2.2	ULHA Operator.....	331
10.2.3	Decision Making Method.....	333
10.2.4	Practical Example.....	334

**11 Uncertain Linguistic MADM Method with Real-Valued Weight Information**..... 339

11.1 MADM Method Based on Positive Ideal Point ..... 339

11.1.1 Decision Making Method..... 339

11.1.2 Practical Example..... 340

11.2 MAGDM Method Based on Ideal Point and LHA Operator ..... 343

11.2.1 Decision Making Method..... 343

11.2.2 Practical Example..... 344

11.3 MADM Method Based on UEWA Operator ..... 348

11.3.1 Decision Making Method..... 348

11.3.2 Practical Example..... 349

11.4 MAGDM Method Based on UEWA and ULHA Operators ..... 351

11.4.1 Decision Making Method..... 351

11.4.2 Practical Example..... 352

**12 Uncertain Linguistic MADM Method with Interval Weight Information**..... 357

12.1 MADM Method Based on IA Operator ..... 357

12.1.1 Decision Making Method..... 357

12.1.2 Practical Example..... 358

12.2 MAGDM Method Based on IA and ULHA Operators ..... 361

12.2.1 Decision Making Method..... 361

12.2.2 Practical Example..... 362
